## Asians Bewildered, Skeptical Over New U.S. Foreign Policies

WASHINGTON (AP) — The administration's year-old policy aimed at shrinking the nation's military posture and foreign aid programs has created anxiety, bewilderment and skepticism throughout Asia, diplomatic sources say.

Japan, meanwhile, is said to have emerged as a reluctant beneficiary of the so-called Nixon Doctrine, which was spelled out by the President on Guam in August of last year.

Tokyo Prestige Up  
Ranking Asian and American officials in 10 countries from Japan to Pakistan commented in

interviews on the effect of the doctrine.

There is agreement that Tokyo's prestige and influence has soared as non-Communist Asia, faced with declining American involvement, looks to Japan to fill whatever gaps the departing Americans may leave.

The prospect of a greatly expanded role has somewhat alarmed Japanese leaders who are urging the United States to go slow in carrying out the de-Americanization program in Southeast and Northeast Asia.

The Japanese would much

prefer to be strictly an economic partner while the United States continues to shoulder the major security burden for the region.

**Sale For Investment**  
American officials—shy of congressional criticism that U.S. sacrifices have necessitated in making Southeast Asia safe for Japanese investments—are calling on the government of Prime Minister Elliot See to take on more responsibility, particularly in stepped up aid to Vietnam and Cambodia.

The Nixon Doctrine has been met by considerable skepticism

in India. It is not clear, say Indian authorities, exactly what is meant by the Guam declaration.

On one hand, there is the reduction announced for U.S. ground forces in Vietnam, Korea, Thailand and the Philippines.

On the other, they say, it is the U.S. desire to get these countries to build up their own ground combat forces, in pursuit of whatever international policy the United States wishes.

**No U.S. Withdrawal**

Consequently, the Indians argue, there is no American withdrawal under this interpre-

tation, but merely a change in the composition of U.S. and allied forces.

India's foreign policy makers, who keep an uneasy eye on mainland China, hope and expect that Hanoi will be the most powerful single factor in any grouping of Southeast Asian nations after the Vietnam war is ended.

The Indians say Hanoi is willing to allow South Vietnam a separate existence, although it may not last for very long—perhaps five or ten years.

The Saigon government has taken a matter-of-fact attitude toward the Nixon doctrine and

the U.S. to pay the difference.

The Indians say they would go along with a coalition govern-

ment imposed on Saigon from the outside, because it would be impossible to hold free elections under the present conditions.

**Coalition Rejected**

In Vietnam, the Indian view

of a coalition is vehemently rejected on the ground that the government cannot choose to share its power without popular sanctions.

An election in which the national Liberation Front could participate, however, has been offered.

The Saigon government has

taken a matter-of-fact attitude

toward the Nixon doctrine and

the U.S. to pay the difference.

At the same time, high American officials have pointed out that Japan is selling Vietnam three times as much in consumer goods as the United States.

U.S. officials have asked Japan to do more for Vietnam's economic rehabilitation than so far offered.

**U.S. Doubts Move**

The most anxious American ally under the Nixon Doctrine has been South Korea, where the government fears that a reduction of U.S. forces will lead North Korean Premier Kim Il

## Booby-Trapped Suitcase Kills City Policeman

OMAHA, Neb. (AP) — Eight Omaha policemen apparently were lured into a booby-trapped trap in a vacant house on the city's Near North Side today and one was killed and seven hurt.

Lt. John Bozak said a booby-trapped suitcase on the living room floor of the two and one-half story house in a predominantly Negro section exploded, blowing the house apart.

The state officer was Larry Moward, who would have been 30 on Thursday. Deputy Police Chief Glen Gates said Moward had been on the police force since February 1969.

One policeman, John Toss, was hospitalized with leg wounds and was in fair condition. Six other policemen were treated at hospitals and released.

Gates said eight policemen were dispatched to the area after a report a woman was screaming. He said there had been a number of "break" calls from the area in recent days.

Apparently, Gates said, "a booby-trap" was planned.

None of the officers entered the vacant house, while others remained outside.

Gates said it was not known for sure that Moward actually touched the booby-trapped suitcase, as police reported earlier. He was the newest officer in it, however, and was killed instantly.

Some policemen were blown through a doorway and others landed down. The blast was heard several blocks away.

Police and firemen sealed off the area and placed a tarpaulin over the wreckage to protect it against an early morning rain.

Bones said that after the first report came, the eight officers were sent out and began a search of the vacant house.

## Anti-Parochial Hassle Resumes In Court Today

LANSING (AP) — The long-sought political issues of Parochial began a dual legal test today when both of Michigan's highest courts opened preliminary hearings on various aspects of the issue.

The Supreme Court sat today as a deadline for lawyers to file position briefs on the constitutionality of state aid to private schools in a review of the precedent-setting \$25 million grant that has been approved by both the Legislature and Gov. William G. Milliken.

At the same time, the Appeals Court was scheduled to hear preliminary arguments about whether the concept should be decided by voters at the Nov. 3 general election. A three-judge panel last Thursday overruled Atty. Gen. Frank Kelley and instructed state election officials to count signatures on petitions seeking to make the issue a ballot proposal. Under the order, results of the petition count must be forwarded to the Appeals Court by Sept. 4.

Kelley earlier said the referendum request was faulty because groups seeking the vote failed to include wording of the proposed constitutional change with their petitions.

## Weather

ESCANABA AND VICINITY—Fair today and tonight. Cooler today with highs in mid-70s. Quite cool tonight with lows in mid-60s. Increasing cloudiness and warmer Tuesday with highs in the mid-80s. Wind northeast 5 to 10 mph tonight, increasing to 10 to 20 mph Tuesday. Probabilities of precipitation: near zero today, 10% tonight and Tuesday. Sun sets today at 7:54 and rises Tuesday at 5:31.

THIS MAN WAS TAKEN INTO CUSTODY in suburban Whitehall outside Columbus, Ohio, after bombs heavily damaged two department stores two miles apart. Blasts on Columbus' far east side injured at least 18 persons, one of them critically. Whitehall police identified the suspect as Lt. William S. Harris, 23, of Lockbourne AFB, Columbus. Police said Harris suffered a broken leg when he was run down by a motorcyclist as he ran across a department-store parking lot. (AP Wirephoto)

## Police Doubt Authenticity Of Kidnap Note

## 'Operation Razor Blade' Airmen 'Cut Up' At Lackland AFB

MONTEVideo, Uruguay (AP) — Uruguayan police noted several major differences Sunday night between a new ransom note delivered to a Brazilian newspaper and earlier confirmed notes from anti-government rebels holding an American agronomist and a Brazilian diplomat as hostages.

The police said they doubted the message's validity or that its threat to kill Brazilian consul Alvaro Mario Dias Comide came from the Tupamaros guerrillas.

Brazilian police brought the communiqué to Montevideo Sunday afternoon. Delivered to a paper in Porto Alegre, Brazil, it said Dias Comide's execution date would be set unless the Uruguayan government released 100 prisoners by 11 a.m. Monday.

The note did not mention Claude L. Fly, 61, of Port Colborne, Ont., an adviser to the Agriculture Ministry who was kidnapped Aug. 7. Dias Comide, 41, and Daniel A. Mittermeier, 30, of Richmond, Ind., were abducted July 31. Mittermeier was murdered Aug. 10 after the government refused to comply with a guarantee ultimately demanding that all political prisoners be released. President Jorge Pacheco Arceo said the prisoners were criminals, and he has refused to negotiate with the Tupamaros.

Police sources said the message from Brazil was discounted because it was handwritten instead of typed or mimeographed, was numbered 16 when the last confirmed message was numbered 16, and the government is holding 265 suspected Tupamaros instead of 100.

Police sources said the message from Brazil was discounted because it was handwritten instead of typed or mimeographed, was numbered 16 when the last confirmed message was numbered 16, and the government is holding 265 suspected Tupamaros instead of 100.

## FBI Broadens Davis' Search

SAN FRANCISCO, Calif. (AP)

— The search for Angie Davis

broadened today after a federal

attorney confirmed that the

former university philosophy in-

structor brought the shotgun that

killed Judge Harold J. Haley.

The judge and three other

men were killed Aug. 7 during a

gunbattle that followed a court-

room kidnapping at that hotel,

across the Golden Gate from San Francisco.

Miss Davis is charged with

one count of murder and five

counts of kidnapping under a

California law which holds any

one who aids a major crime as

guilty as the direct participants.

Jerrold Ladar, assistant U.S.

attorney, said Sunday a serial

number check showed the shot-

gun was purchased at a San

Francisco pawn shop Aug. 8 by

the former UCLA instructor

who the regents refused to

rehire.

The search for Miss Davis

ranged from the West Coast to

Birmingham, Ala., and abroad

after Ladar disclosed that Miss

Davis, 26, had a passport.

## Israel Official Criticizes Laird

HERZLUSLEM (AP) — Foreign Minister Abba Eban strongly criticized U.S. Defense Secretary Melvin R. Laird today and said the Israeli government has definite proof that Egypt violated the new cease-fire long after it went into effect at midnight Aug. 7.

Laird said in a television interview Sunday that Egypt may have positioned Soviet missiles near the Suez canal after the cease-fire, but that these charges were difficult to prove or disprove.

The spokesman explained it was impossible to retrace the page and, "The only avenue open to us was to cut the picture."

He said the general "in no way" influenced the decision and wasn't told about it until after operation razor blade had begun.

He said Israel must insist on the "strictest precision in dealing with such complaints" and therefore it was "immaterial whether such violations were 12 hours before or after the cease-fire."

Jerusalem has complained twice to the United Nations—the second time on Aug. 13—that the Egyptians deployed SAM2 and SAM3 missiles in the 20-mile standstill zone along the canal.

Eban charged today that the Egyptians committed other violations after the Aug. 13 complaint "and we have recorded all the details."

MARINE FPP. SAMUEL G. GREEN, JR., right, of Cleveland, Ohio, and his lawyer, Capt. John J. Hargrove, of Babylon, N.Y., waited for verdict at court martial in Da Nang, South Vietnam. Green was later pronounced guilty for the murder of 15 South Vietnamese women and children in a village southwest of Da Nang which took place in February. (AP Wirephoto)

**Venus Space Probe Launched By Soviet**

MOSCOW (AP) — The Soviet Union today launched an unmanned space probe to explore the planet Venus.

Thus the spaceship, which it called the "automatic interplanetary station Venus 7," will "continue the exploration of the planet Venus, which was carried out earlier by Soviet automatic stations."

It said the spaceship was launched at 8:30 a.m. Moscow time—1:30 a.m. EDT—and together with the final stage of the rocket carrier was put into an interim orbit of the earth.

At 9:30 Moscow time, the report continued, the engine of the final stage was switched on for just over four minutes to boost the rocket out of orbit and on its way.

Tass said at noon Moscow time—5 a.m. EDT—Venus was more than 25,000 miles from earth.

Venus 4 was launched in June 1967.

"Venus 7 was put into a trajectory close to the present one," the Soviet news agency said.

"All the systems and scientific equipment on board the station are functioning normally. The flight is controlled by the long-distance space communication center."

The first man-made object to reach Venus was the Soviet Union's Venus 3, launched Nov. 16, 1965. It crashed on the planet March 1, 1966. It claimed that three subsequent Venus shots—Nos. 4, 5 and 6—landed on the planet's fiery surface and sent back information. The announcements made no mention of "soft landings," indicating the craft turned on reaching the surface or that their transmitting equipment went out because of the heat.

Venus 4 was launched in June 1967.

## Asians Bewildered, Skeptical Over New U.S. Foreign Policies

**WASHINGTON (AP)** — The administration's year-old policy aimed at shrinking the nation's military posture and foreign aid programs has created anxiety, bewilderment and skepticism throughout Asia, diplomatic sources say.

Japan, meanwhile, is said to have emerged as a reluctant beneficiary of the so-called Nixon Doctrine, which was spelled out by the President on Guam in August of last year.

### Tokyo Prestige Up

Ranking Asian and American officials in 10 countries from Japan to Pakistan commented in

interviews on the effect of the doctrine.

There is agreement that Tokyo's prestige and influence has soared as non-Communist Asia, faced with declining American involvement, looks to Japan to fill whatever gaps the departing Americans may leave.

The prospect of a greatly expanded role has somewhat alarmed Japanese leaders who now are urging the United States to go slow in carrying out the de-Americanization program in Southeast and Northeast Asia.

The Japanese would much

prefer to be strictly an economic partner while the United States continues to shoulder the major security burden for the region.

### Sale For Investment

American officials—stung by congressional criticism that U.S. sacrifices have succeeded in making Southeast Asia safe for Japanese investment—are calling on the government of Prime Minister Eisaku Sato to take on more responsibility, particularly in stepped up aid to Vietnam and Cambodia.

The Nixon Doctrine has been met by considerable skepticism

in India. It is not clear, say Indian authorities, exactly what is meant by the Guam declaration.

On one hand, there is the reduction announced for U.S. ground forces in Vietnam, Korea, Thailand and the Philippines.

On the other, they say, it is the U.S. desire to get these countries to build up their own ground combat forces, in pursuance of whatever international policy the United States wishes.

### No U.S. Withdrawal

Consequently, the Indians argue, there is no American withdrawal under this interpre-

tation, but merely a change in the composition of U.S. and allied forces.

India's foreign policy makers, who keep an uneasy eye on mainland China, hope and expect that Hanoi will be the most powerful single factor in any grouping of Southeast Asian nations after the Vietnam war is ended.

The Indians say Hanoi is willing to allow South Vietnam a separate existence, although it may not last for very long—perhaps five or ten years.

The Indians say they would go along with a coalition govern-

ment imposed on Saigon from the outside, because it would be impossible to hold free elections under the present conditions.

### Coalition Rejected

In Vietnam, the Indian view of a coalition is vehemently rejected on the ground that the government cannot choose to share its power without popular sanctions.

An election in which the national Liberation Front could participate, however, has been offered.

The Saigon government has taken a matter-of-fact attitude toward the Nixon doctrine and

the Vietnamization program. Officials point out that South Vietnam has built up its armed forces from 900,000 to close to 1.1 million men who are supplied with guns and ammunition by the U.S.

"But who is going to pay for the salary and the maintenance of these men when the level of U.S. financial aid remains static?" it is asked.

### Less Revenue Cited

Decreasing U.S. forces mean less revenue at a time when Saigon must spend more on combat operations and they expect the U.S. to pay the difference.

At the same time, high American officials have pointed out that Japan is selling Vietnam three times as much in consumer goods as the United States.

U.S. officials have asked Japan to do more for Vietnam's economic rehabilitation than so far offered.

### U.S. Doubts Move

## Police Doubt Authenticity Of Kidnap Note

### 'Operation Razor Blade'

## Airmen 'Cut Up' At Lackland AFB

**MONTEVIDEO, Uruguay (AP)** — Uruguayan police noted several major differences Sunday night between a new ransom note delivered to a Brazilian newspaper and earlier confirmed notes from antiguovernment rebels holding an American agronomist and a Brazilian diplomat as hostages.

The police said they doubted the message's validity or that its threat to kill Brazilian consul Aloysio Mares Dias Gomide came from the Tupamaros guerrillas.

Brazilian police brought the communiqué to Montevideo Sunday afternoon. Delivered to a paper in Porto Alegre, Brazil, it said Dias Gomide's execution date would be set unless the Uruguayan government released 183 prisoners by 11 a.m. Tuesday.

The note did not mention Claude L. Fly, 65, of Fort Collins, Colo., an adviser to the Agriculture Ministry who was kidnapped Aug. 7. Dias Gomide, 41, and Daniel A. Mitrione, 50, of Richmond, Ind., were abducted July 31. Mitrione was murdered Aug. 10 after the government refused to comply with a guerrilla ultimatum demanding that all political prisoners be released. President Jorge Pacheco Areco said the prisoners were criminals, and he has refused to negotiate with the Tupamaros.

Police sources said the message from Brazil was discounted because it was handwritten instead of typed or mimeographed, was numbered 14 when the last confirmed message was numbered 10, and the government is holding 206 suspected Tupamaros instead of 183.

The search for Miss Davis ranged from the West Coast to Birmingham, Ala., and abroad after Radar disclosed that Miss Davis, 26, had a passport.

Miss Davis is charged with one count of murder and five counts of kidnapping under a California law which holds anyone who aids a major crime as guilty as the direct participants.

Jerrold Ladar, assistant U.S. attorney, said Sunday a serial number check showed the shotgun was purchased at a San Francisco pawn shop Aug. 5 by the former UCLA instructor who the regents refused to rehire.

The search for Miss Davis continued from the West Coast to Birmingham, Ala., and abroad after Radar disclosed that Miss Davis, 26, had a passport.

Police sources said the message from Brazil was discounted because it was handwritten instead of typed or mimeographed, was numbered 14 when the last confirmed message was numbered 10, and the government is holding 206 suspected Tupamaros instead of 183.

paper at Lackland Air Force Base, Tex., was distributed there was an unexplained hole, three columns wide and 2½ inches deep, neatly carved in the center of page 5.

### Badly-Cropped Picture

An official spokesman for the base public information office was quoted in a Texas newspaper as saying the space had been occupied by a badly cropped photograph of Maj. Gen. John S. Samuel, Lackland's commander, which was "very inappropriate for a general."

The photograph showed Samuel receiving the Legion of Merit from Lt. Gen. Arthur W. Oberbeck, director of the Air Force's Weapons Systems Evaluation Group. It was cropped narrowly, displaying views of the heads of the two generals and that of Samuel's wife.

Oberbeck's three stars could not be seen.

The spokesman explained it was impossible to reprint the page and, "The only avenue open to us was to cut the picture to fit."

### Didn't Influence Decision

He said the general "in no way" influenced the decision and wasn't told about it until after operation razor blade had begun.

Sen. William Proxmire, complaining of the incident in a letter to Secretary of the Air Force Robert C. Seamans Jr., said, "If these facts are accurate, I think this was a violation of freedom of the press and a waste of the taxpayer's money."

## Highways, Lakes Take 30 Lives In State

By The Associated Press  
Two triple fatalities pushed Michigan's weekend traffic fatality toll to 17.

State Police reported that three persons were killed in a car-train crash in rural southern Gratiot County Sunday and three others died in a grinding two-car crash in Western Michigan.

Other weekend traffic victims included:

Vicki Lee Pickens, 18, of Albion, killed Sunday in a two-car collision at a rural intersection just north of I-94 near Albion.

Jerri Schultz, 12, of Rivenna, killed Sunday when a car struck the bicycle he was riding in

miles east of U. S. 27 in Gratiot County.

Barbara Kauanis, 26, and Laurel, Kauanis, 9, both of Walled Lake, and John Les Brown, 29, of Ludington, died when their car collided with another car at an intersection in Riverton Township of Mason County.

Almont, who died when his motorcycle crashed head-on with an automobile Friday night in Waterford Township, outside Pontiac.

James Robley, 18, Detroit, killed when a tire blew out Saturday sending his car careening off I-94 and overturning at Taylor.

Gary Fisk, 22, Monroe, who was killed when his motorcycle collided Friday night with an automobile turning onto Newport Road, north of Monroe.

Thomas James Flanagan, 17,

Moreland Township of Muskegon County.

Maxwell Frey, 48, of Fremont, died after his motorcycle veered off a road in Dayton Township of Newaygo County Sunday.

James Robley, 18, Detroit, killed when a tire blew out Saturday sending his car careening off I-94 and overturning at Taylor.

Gary Fisk, 22, Monroe, who was killed when his motorcycle collided Friday night with an automobile turning onto Newport Road, north of Monroe.

Thomas James Flanagan, 17,

Almont, who died when his motorcycle crashed head-on with an automobile Friday night in Waterford Township, outside Pontiac.

Leo Bellamy, 62, Newaygo, who was killed in the head-on collision of his automobile and another Friday night on U.S. 31 about eight miles south of Cadillac.

Alexander Moore, 50, Detroit, who was killed Sunday in a two-car broadside collision at a Detroit intersection.

Daniel Graham, 16, of Grantville, who was killed when his motorcycle collided with a car

Sunday night on I-196 in Wyoming in Kent County.

Alva Clare Swaze, 75, of Brown City, and his wife Ethel May Swaze, 76, killed when their car went out of control and crashed into a ditch just south of Brown City in Sanilac County Sunday.

Authorities said John Jemison, 15, and his brother Ellis, 16, apparently drowned when they fell off a dock while trying to untangle a fishing line on Shanty Creek in Monroe County Saturday.

Lenawee County officials are continuing their dragging operations today in Round Lake 15 miles west of Adrian for the body of a drowning victim whose identity they have not released.

Authorities said John Jemison, 15, and his brother Ellis, 16, apparently drowned when they fell off a dock while trying to untangle a fishing line on Shanty Creek in Monroe County Saturday.

THIRTY UNARMED, UNIFORMED PANTHERS served as honor guard and as pallbearers at a funeral of Jonathan Jackson and William Christmas held in St. Augustine's Episcopal Church in Oakland, Calif., Saturday. Both were killed in San Rafael during kidnap-escape try in which Marin County Judge Harold Haley was slain. A crowd jammed the streets outside the church. (AP Wirephoto)

### Players Slate Tryout Dates

The Players de Noc, Inc., today announced that tryouts for the comedy, "Romance and Juliet" by Peter Ustinov will be held this Wednesday, Thursday and Friday, at 7:30 p.m. in room 10 of Bay de Noc Community College.

Unlike its title might suggest, "Romance and Juliet" is not simply an updated version of the Shakespearean tragedy, but is instead a story of present day life containing the elements of love, understanding, communication and hope for peace in our modern society, said a players de Noc spokesman. Due to Ustinov's subtly profound style of writing, these human emotions are projected in a thoroughly entertaining and amusing manner.

Needed for the cast are nine men and four women. Characters range in age from the young hero to an ancient Archbishop. Previous acting experience is not required as tryouts consist merely of reading bits of dialogue from the script informally along with other individuals and the director.

Following final tryouts, the director selects a cast according to vocal qualities, general appearance and suitability for the roles. Scripts are available for reading prior to tryouts by contacting director Glenn Berger at 788-3038.

Membership in Players de Noc, Inc. is not a requirement for participation.

A meeting of the general membership will be held Tuesday at 7:30 p.m. in room 10 of the college. Interested persons of the community are invited.

### Briefly Told

Two Escanaba bankers were among 763 banker-students from 48 states, the District of Columbia, Canada, Puerto Rico, and Nicaragua, who attended the 10th summer session of the three-year School for Bank Administration Aug. 2-14 at the University of Wisconsin in Madison. They were August Brazeau, cashier, First National Bank and Trust Co. and Paul H. Laviolette, cashier, State Bank of Escanaba.

In 1968 Mr. Labuhn wrote a guide "Planning Effective Meetings" which was published by Northern Michigan University's conference department.

The U.P. health association is financed by a \$43,800 grant from the U.S. Dept. of Health, Education and Welfare, a \$15,800 grant from the Michigan Office of Comprehensive Health Planning and \$16,829 from Upper Peninsula governmental units. Through its 340 volunteer members in four sub-area Health Planning Councils, the association plans to devote a major portion of its first year efforts to organizational development of health planning and seek to improve emergency health care in the U.P.

The association will be headquartered at 504 W. Magnetic St., Marquette.

### Rapid City Fire Damages Church

RAPID CITY (AP) — Fire caused an estimated \$80,000 damage Sunday to the Baptist Church and parsonage in Rapid City. Firemen from Rapid City, Kadlec, Bellaire and Williamsburg helped bring the flames under control. Two firemen were overcome by smoke.

## Delta Democrats Name Convention Delegates

Delegates to the State Democratic Convention, which will be held in Grand Rapids on Aug. 22-23, were elected Saturday evening at the Delta County Democratic Convention.

The elected delegates were Ann S. Villeneuve, Pearl Tobin, Sandra Green, Elinor Vader, Norbert C. Murphy, Robert Rivard, Richard Peterson, Leeland Wellman, James Chapekis, Maurice Harrison and Kenneth West.

Alternates named were Carl Anderson, Harry Leveque, George Dunlap, Victor Brock, William Butler, Harold Finner, Myrtle Otterson, Stanine Vader, resolutions.

The Delta County Democrats also went on record as endorsing candidates Philip A. Hart for United States Senator, G. Mennen Williams as a Justice of the Michigan Supreme Court, Nine Green as congressman from the 11th District and Michael J. Neisoen as state representative from the 10th District.

### Two Injured In Traffic Mishaps

An Escanaba girl suffered minor injury when she rode her bicycle into the path of a car in the 1900 block of 23rd Ave. N. at 7:45 a.m. today, city police reported.

Robert Latshaw, 10, of 2319 S. Main St., was struck by a snowplow moving east driven by William Martin, 36, of 3440-2-23rd Ave. N., whom she turned in front of him, officers said.

Madison, Wis., reported a record low of 40 for the date as a Canadian air mass filtered across the border and surrounded the Great Lakes area.

South of the cold front, the temperatures remained in the 60s and 70s with high humidity.

Thunderstorms fell along coastal areas of the Southeast, in the Gulf region and in the Northwest. The Far West was clear and dry.

CLASSTIME AND COST  
LITTLE BUT DO A BIG JOB

GRAND RAPIDS (AP) — A 45-year-old Grand Rapids housewife who faces Gerald Ford in the November election blasted the house minority leader and Republicans in general this weekend at the Kent County Democratic Convention.

Mrs. Jeann McKee said Ford probably doesn't feel the pinch of inflation, thanks to a \$12,000 pay raise voted by Congress last year.

Mrs. McKee asserted the Nixon Administration for what she called misordered priorities which allocated money for Asia that could better be spent at home.

An outspoken critic of the Vietnam War, Mrs. McKee is a Democratic candidate for the 15th congressional seat held by Ford.

# Candidates Schedule Visits To Fair, U.P.

The two biggest names in Michigan's Republican party for the fall election—Gov. William Milliken and Mrs. George Romney—will visit the Upper Peninsula and the U.P. State Fair at Escanaba this week.

Mrs. Romney will be in Escanaba Thursday as part of a four-day campaign tour of the U.P., while Gov. Milliken will visit the fair on Governor's Day Friday after a morning meeting in Marquette with the Upper Peninsula Legislative Council.

The Democrats will counter with a visit to Escanaba Wednesday by G. Mennen Williams, candidate for the Supreme Court of Michigan.

#### Luncheon Program

Milliken, who will be the guest of honor at the Governor's Day Luncheon Friday at the Dells, is scheduled to leave Lansing at 7:30 a.m. Friday, flying to Marquette for a 9:30 meeting at the Holiday Inn with the Legislative Council.

The Council, which Milliken named last spring as an alternative to the U.P. liaison man proposed last fall in the 10-point program of Commerce Director Richard Whitmer for the Upper Peninsula, is composed of all five state representatives and the two state senators from Upper Peninsula districts.

The governor is scheduled to arrive in Escanaba about 11:30 a.m. Friday, attend the lunch-

eon, speak at 2 p.m. at the afternoon grandstand performance and tour the fairgrounds before leaving for Traverse City.

Saturday he will visit Drummond Island and Beaver Island and also tour several state parks in northern Lower Michigan.

#### To Visit Manistique

Mrs. Romney will visit Sault Ste. Marie, Newberry, Manistique, Munising, Negaunee, Marquette, Ishpeming, L'Anse, Houghton, Mohawk, Hancock, Escanaba, Ontonagon, Iron River,

## Death Claims Mrs. Eriksson

Mrs. Erik (Elen C.) Eriksson, 84, of 303 N. 18th St., died at 5:15 p.m. Saturday at St. Francis Hospital where she had been a patient for one month. She was born July 10, 1886 in Dalarna, Sweden.

She is survived by her husband, Erik; two sons, Justa of Chillicothe, Ohio and Arne E. of Orange, Texas; two grandchildren and two great grandchildren and several relatives in Sweden.

Friends may call at the Anderson Funeral Home from 4 to 9 p.m. today and complete funeral services will be conducted at 11 a.m. Tuesday at the funeral home with the Rev. Dr. Walfred Nelson officiating. Burial will be in Gardens of Rest Cemetery.

Williams is scheduled to be the guest of honor at a dinner program Wednesday at 6 p.m. at the Sherman Hotel. Following the dinner, he also will tour the fairgrounds.

#### NMU Appoints Business Dean

MARQUETTE — The Board of Control at Northern Michigan University, at its monthly meeting Saturday, named Dr. Donald Hangen as the university's Dean of the School of Business.

Hangen, who presently serves as the director of the Bureau of Business Services and Research at San Fernando Valley State College, Calif., is a 1953 graduate of UCLA.

He received his master's in marketing, finance and accounting from Stanford University in 1957, and his doctorate in marketing and international business from the University of Southern California (USC) in 1969.

Hangen's appointment is part of the personnel and curriculum developments underlying the planning of the School of Business and Management, which has been underway at Northern for the past two to three years.

#### Bear Hunting Licenses Out

State Department of Natural Resources offices and agents have placed licenses for the 1970 bear hunting season on sale.

In the Upper Peninsula, bears may be taken from Sept. 10 to Nov. 5 with either gun or bow. They also may be shot during the regular deer hunting season during the second half of November. The limit is one adult bear a calendar year.

## Players Slate Tryout Dates

The Players de Noc, Inc., today announced that tryouts for the comedy "Romanoff and Juliet" by Peter Ustinov will be held this Wednesday, Thursday and Friday, at 7:30 p.m. in room 10 of Bay de Noc Community College.

Unlike its title might suggest, "Romanoff and Juliet" is not simply an updated version of the Shakespearian tragedy, but is instead a story of present day life containing the elements of love, understanding, communication and hope for peace in our modern society, said a players de Noc spokesman. Due to Ustinov's subtly profound style of writing, these human emotions are projected in a thoroughly entertaining and amusing manner.

Needed for the cast are nine men and four women. Characters range in age from the young hero to an ancient Archbishop. Previous acting experience is not required as tryouts consist merely of reading bits of dialogue from the script informally along with other individuals and the director.

Following final tryouts, the director selects a cast according to vocal qualities, general appearance and suitability for the roles. Scripts are available for reading prior to tryouts by contacting director Glenn Bergey at 786-3038.

Membership in Players de Noc, Inc. is not a requirement for participation.

A meeting of the general membership will be held Tuesday at 7:30 p.m. in room 10 of the college. Interested persons of the community are invited.

# State Fair Opens Tuesday

## Entries Pour In For Start Of Exposition

By OLIVER DUNATHAN

The U.P. State Fair opens its six-day program on Tuesday and the grounds today are a scene of excitement and anticipation as final preparations are made for the exposition.

Thousands of entries are pouring in and will be received until 8 p.m. today by clerks at the entry office beneath the grandstand.

Beyond the color, the fun, and the carnival atmosphere of the midway are programs, projects and departments devoted to the development and encouragement of agriculture, industry, and education in the Upper Peninsula.

The exhibitors — with an eye on a part of the \$27,000 in premiums — have entered everything from livestock to jelly and jellies, and from pigs and poultry to paintings.

Persons wishing any information about entries are invited to call the Fair administration office 788-4611, reports Cliff Purvis, Fair manager.

### Safety Patrol Day

Gate admission is \$1 for adults with children under 12 free. There is no charge for parking on the grounds.

Tomorrow is Safety Patrol Day at the Fair when young people from school safety patrols around the Peninsula will be guests on the grounds.

Fairgoers note that something new has been added to Safety Patrol Day this year.

Any youngster, whether or not a Safety Patrol member, may enter the youth contests to be held on the racetrack field beginning at 2 p.m. Tuesday. A pie eating contest and a green-pig scramble are among the events.

### Country Music

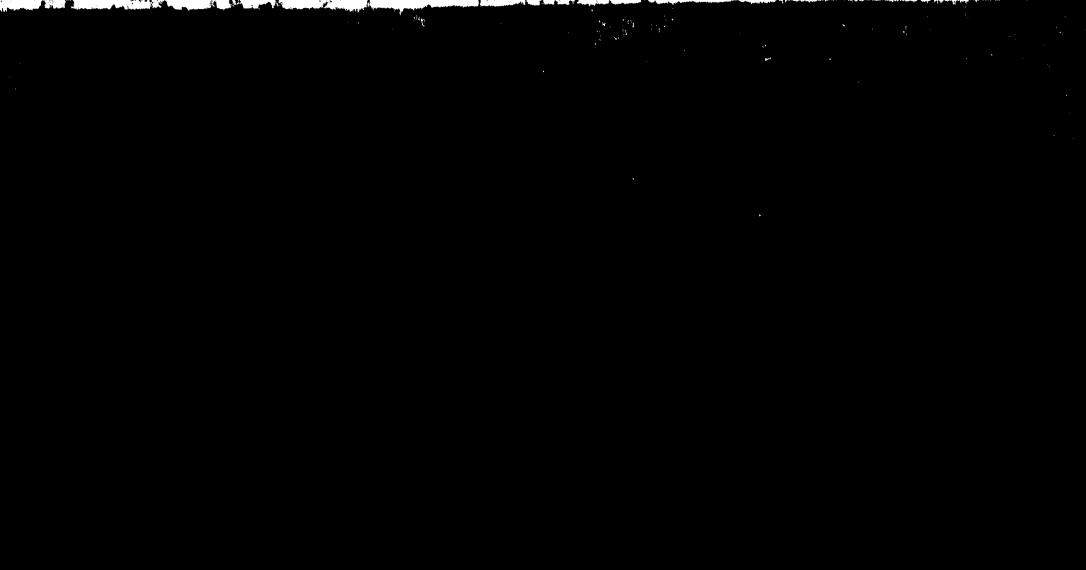

In the grandstand area Tuesday afternoon the popular "Overdrive" rock and roll band will play and there is no admission for the Tuesday afternoon activities. The public is invited to view the events from the grandstand, Purvis suggests.

### A Donut Derby at 8

## Rock

Rock Community Service annual membership dues will be collected at the Rock Co-op Store Friday, Aug. 21, from 8:30 a.m. until 5:30 p.m. There will be no door to door collections. Present membership dues expire Aug. 21. New members are accepted.

Mr. and Mrs. Arthur Brastrom and sons have returned to Taylor, Mich., after visiting with the Ronald Beauchamp family and other relatives and attending the Sayers - Beauchamp wedding last week.

ONE OF THE NEW BUILDINGS at the 1970 U.P. State Fair is this barn to house sheep and swine, an all-metal structure 76 feet long and 24 feet wide, reports Cliff Purvis, Fair manager. The building is located next to the chicken barn. (Courtesy Photo)

Tuesday will put the cap on Safety Patrol Day.

Wednesday is Senior Citizens Day at the Fair and persons 65 and older will be admitted to the grounds without charge.

Some of the top entertainment features of the grandstand shows will be presented on Wednesday afternoon and evening, including Billie Jo Spears of country and western music fame, and George Jones and the Jones Boys. Admission is \$1 for adults and shows are at 2 and 4 o'clock.

### Queen's Day

Miss of Miss Spears will recall her recording of "Mr. Walker, It's All Over," and her latest hits are "Easy to be Evil" and "The Stoopid."

Thursday is Queen's Day at the Fair when one of 18 candidates will be selected to reign as Miss Upper Peninsula.

### Governor's Coming

There is no charge for admission to the grandstand either in the afternoon or evening on Thursday, when Fairgoers will view the Queen contest finale, and will be entertained by the

## Immunization Clinic Thursday

An immunization clinic will be held at the Delta County Health Department from 10:15 a.m. Thursday instead of Thursday afternoon, due to fair activities. Measles vaccine is now available at the clinic.

### Disbarred

DETROIT (AP) — The State Bar of Michigan grievance committee has disbarred Detroit attorney James C. Worth. The suspension of Worth's license in practice law came after he was convicted in U.S. District Court of aiding and abetting the forgery of a government check.

Sunday afternoon's grandstand show features Dick Rodgers and his polka band and dancing and is free.

The suspension can be appealed to the Michigan Supreme Court.

## BOLENS HUSKYS

### Orbit Air mowers

Cut, mulch and clean in one pass

Our Orbit Air model 8240 push type lawn mower has a multi pitch blade that cuts a 22" path and adjusts from 1/4" to 2 1/4" for perfect cutting all season long. Fine cuttings are discharged downward to build humus.

Close-cut Self-Propelled Without Grass Catcher \$129.95

## Helen Belland Taken By Death

Helen E. Belland, 82, Rapid River, died Saturday afternoon at St. Francis Hospital, where she had been a patient for several weeks.

She was born on July 8, 1888, in Florence, Wis. Her husband, William J. Belland, preceded her in death on Jan. 31, 1966. She had been a member of St. Charles Church in Rapid River.

Survivors include two sons, Lloyd of Rte. 1 Rapid River and Neil of the Panama Canal Zone; one daughter, Mrs. Dorothy Moynihan of Washington, D.C.; two grandchildren; one brother, Dewey Trepander of Hickory Corners, Mich.; two sisters, Mrs. Harry Snyder of Hickory Corners and Mrs. Jean Smith of Homewood, Ill.

Friends may call at the Skradski Funeral Home after 4 p.m. today and parish prayers will be recited at 8 tonight. Funeral services will be conducted at 10 a.m. Tuesday at St. Charles Church with Rev. Robert Haas officiating. Burial will be in the Rapid River Cemetery.

## Asians Bewildered, Skeptical Over Foreign Policies

(Continued From page One)

Sung to miscalculate and attempt to reunify Korea by force. American officials see little chance that Kim would risk such a move unless an opportunity such as the lapse of the present government or its replacement by a weak regime suddenly offered an opportunity with very little risk.

"It is up to us to see that this does not happen," commented one American diplomat. Nevertheless, South Koreans want to see their armed forces modernized and their air defenses improved before the United States starts to withdraw the first 20,000 of some 61,000 troops.

The angriest reaction to current U.S. policy is in Thailand. According to Foreign Minister Tharat Khoman, "unconsciousness does not come from implementation of the Nixon Doctrine. The unconscious is caused by the present struggle between your executive and the legislative branches and the erratic behavior of some of the congressional elements."

**U. S. Policy Questioned**  
"Many people in the world, not only in Asia, question the soundness of U.S. policy," he said.

American authorities say there will be further scaling down of U.S. forces in Thailand as units are identified that are no longer required.

In Japan, Japanese leaders are speaking of "back-stabbing" with the United States maintaining its bilateral security commitments with Korea, Taiwan and the Philippines and Japan's role contributing to social stability.

The dentist, who wished to remain anonymous, said when contacted by newsmen that the ad expressed his dismay over the lack of enough trained female dental hygienists in Michigan.

"You have to offer everything to get one, he says. Hygienists clean teeth and take X-rays.

He said that since local universities have upped the course requirements from two years to four years, that many young women are ready to marry soon after graduation. Then, they leave their jobs.

Even if he reneges on his offer, he said he hopes to hire the 20 who have applied.

"If I don't get me one with this ad, next week I'm gonna offer 'em a junior partnership," he said.

More people see more news from newspapers than all other sources combined.

## Entries Pour In For Start Of Exposition

By CLINT DUNATHAN

The U.P. State Fair opens its six-day program on Tuesday and the grounds today are a scene of excitement and anticipation as final preparations are made for the exposition.

Thousands of entries are pouring in and will be received until 5 p.m. today by clerks at the entry office beneath the grandstand.

Behind the color, the fun, and the carnival atmosphere of the midway are programs, projects and departments devoted to the development and encouragement of agriculture, industry, and education in the Upper Peninsula.

The exhibitors — with an eye on a part of the \$27,000 in premiums — have entered everything from livestock to jelly and antiques, and from pigs and poultry to paintings.

Persons wishing any information about entries are invited to call the Fair administration office 786-4011, reports Cliff Perras, Fair manager.

### Safety Patrol Day

Gate admission is \$1 for adults with children under 12 free. There is no charge for parking on the grounds.

Tomorrow is Safety Patrol Day at the Fair when young people from school safety patrols around the Peninsula will be guests on the grounds.

Perras announces that something new has been added to Safety Patrol Day this year.

Any youngster, whether or not a Safety Patrol member, may enter the youth contests to be held on the racetrack infield beginning at 2 p.m. Tuesday. A pie eating contest and a grease-pig scramble are among the events.

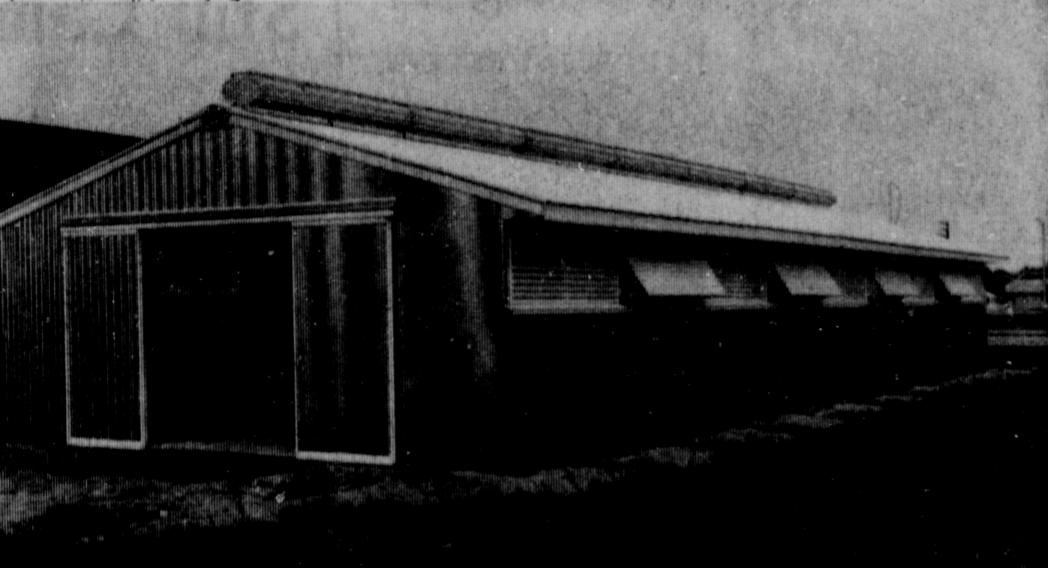

### Country Music

In the grandstand area Tuesday afternoon the popular "Porridge" rock and roll band will play and there is no admission for the Tuesday afternoon activities. The public is invited to view the events from the grandstand, Perras announces.

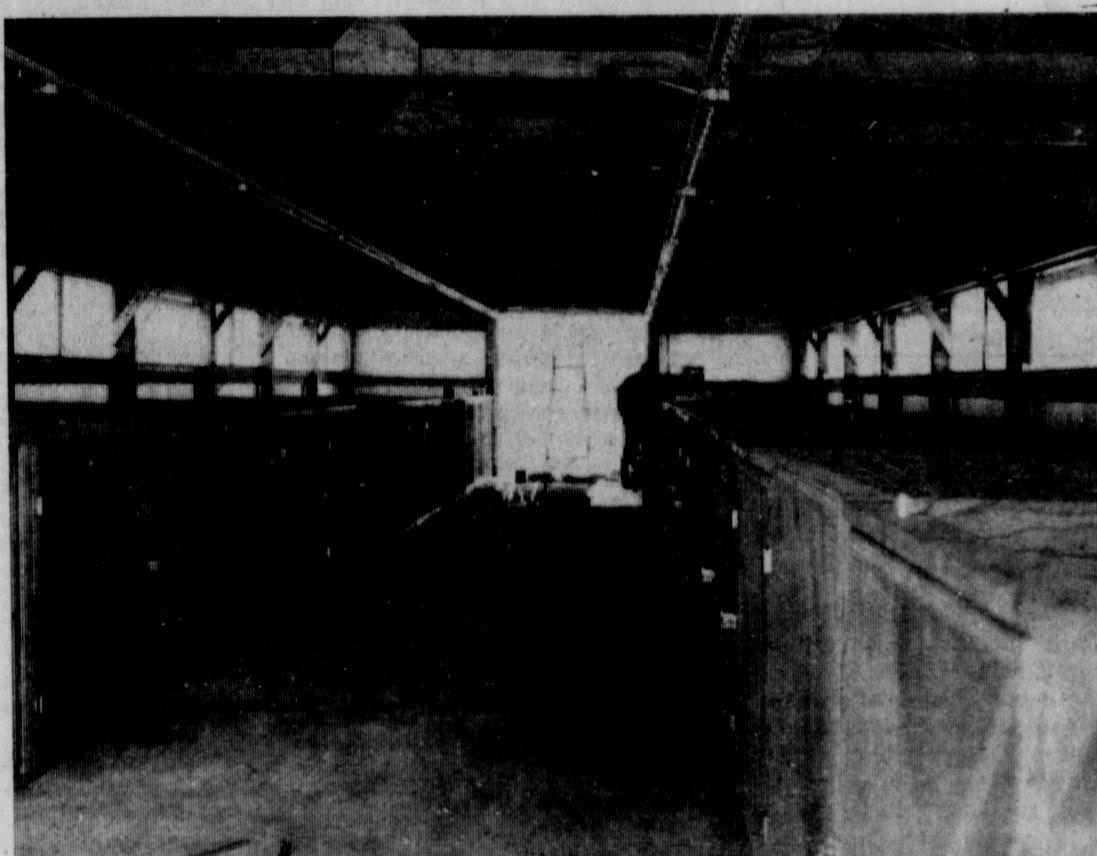

### A Demolition Derby at 8 Rock

Rock Community Service annual membership dues will be collected at the Rock Co-op Store Friday, Aug. 21, from 9:30 a.m. until 5:30 p.m. There will be no door to door collections. Present membership dues expire Aug. 31. New members are accepted.

Mr. and Mrs. Arthur Bransstrom and sons have returned to Taylor, Mich., after visiting with the Ronald Beauchamp family and other relatives and attending the Sayen-Beauchamp wedding last week.

ONE OF THE NEW BUILDINGS at the 1970 U.P. State Fair is this barn to house sheep and swine, an all-metal structure 76 feet long and 24 feet wide, reports Cliff Perras, Fair manager. The building is located next to the chicken barn. (Daily Press Photo)

p.m. Tuesday will put the cap on Safety Patrol Day.

Wednesday is Senior Citizens Day at the Fair and persons 65 and older will be admitted to the grounds without charge.

Some of the top entertainment features of the grandstand shows will be presented on Wednesday afternoon and evening, including Billie Jo Spears of country and western music fame, and George Jones and the Jones Boys. Admission is \$1 for adults and shows are at 2 and 8 o'clock.

### Queen's Day

Fans of Miss Spears will recall her recording of "Mr. Walker, It's All Over," and her latest hits are "Easy to be Evil" and "The Stephchild."

Thursday is Queen's Day at the Fair when one of 15 candidates will be selected to reign as Miss Upper Peninsula.

### Governor's Coming

There is no charge for admission to the grandstand either in the afternoon or evening on Thursday, when Fairgoers will view the Queen contest finals, and will be entertained by the

## Immunization Clinic Thursday

An immunization clinic will be held at the Delta County Health Department from 10:15 a.m. Thursday instead of Thursday afternoon, due to fair activities. Measles vaccine is now available at the clinic.

### Disbarred

DETROIT (AP) — The State Bar of Michigan grievance committee has disbarred Detroit attorney James C. Worth. The suspension of Worth's license to practice law came after he was convicted in U.S. District Court of aiding and abetting the forgery of a government check.

The suspension can be appealed to the Michigan Supreme Court.

Modified and sportsman car racing events are scheduled for both Saturday and Sunday nights with general admission at \$1.50 and reserved seats \$2.

Sunday afternoon's grandstand show features Dick Rodgers and his polka band and dancing and is free.

### Battle of the Comico Bands.

Friday will bring Gov. William Milliken to Escanaba and the Fairgrounds and an appearance at the 2 p.m. grandstand show featuring Bobby Vinton. The Governor will tour the Fairgrounds, view the exhibits, and meet visitors. The grandstand charge on Friday is \$1 with children admitted free.

Horse pulling contests beginning at 1 p.m. on Saturday are a feature of Farmer's Day at the Fair. There is no grandstand fee for the afternoon show.

Motors and sportsman car racing events are scheduled for both Saturday and Sunday nights with general admission at \$1.50 and reserved seats \$2.

Thursday is Queen's Day at the Fair when one of 15 candidates will be selected to reign as Miss Upper Peninsula.

Sunday afternoon's grandstand show features Dick Rodgers and his polka band and dancing and is free.

### Rock

Rock Community Service annual membership dues will be collected at the Rock Co-op Store Friday, Aug. 21, from 9:30 a.m. until 5:30 p.m. There will be no door to door collections. Present membership dues expire Aug. 31. New members are accepted.

Mr. and Mrs. Arthur Bransstrom and sons have returned to Taylor, Mich., after visiting with the Ronald Beauchamp family and other relatives and attending the Sayen-Beauchamp wedding last week.

## Helen Belland Taken By Death

**Asians Bewildered, Skeptical Over Foreign Policies**  
(Continued From Page One)

Helen E. Belland, 82, Rapid River, died Saturday afternoon at St. Francis Hospital, where she had been a patient for several weeks.

She was born on July 9, 1888, in Florence, Wis. Her husband, William J. Belland, preceded her in death on Jan. 31, 1966. She had been a member of St. Charles Church in Rapid River.

Survivors include two sons, Lloyd of Rte. 1 Rapid River and Neil of the Panama Canal Zone; one daughter, Mrs. Dorothy Moynihan of Washington, D.C.; two grandchildren; one brother, Dewey Trepianer of Hickory Corners, Mich.; two sisters, Mrs. Harry Snyder of Hickory Corners and Mrs. Jean Smith of Homewood, Ill.

Friends may call at the Skradski Funeral Home after 4 p.m. today and parish prayers will be recited at 8 tonight. Funeral services will be conducted at 10 a.m. Tuesday at St. Charles Church with Rev. Robert Haas officiating. Burial will be in the Rapid River Cemetery.

### Dentist's Ad 'Not Painful'

**BIRMINGHAM, Mich. (AP)—**A Birmingham dentist advertised in the local weekly paper promising the right dental hygienist \$750 per 12-hour week and:

A Cadillac convertible, free life insurance, a furnished apartment with all utilities paid, and use of a mink stole on weekdays and a full length mink coat on weekends.

The dentist, who wished to remain anonymous, said when contacted by newsmen that the ad expressed his dismay over the lack of enough trained female dental hygienists in Michigan.

"You have to offer everything to get one," he said. Hygienists clean teeth and take X-rays.

He said that since local universities have upped the course requirements from two years to four years, that many young women are ready to marry soon after graduation. Then, they leave their jobs.

Even if he reneges on his offer, he said he hopes to hire a suitable hygienist from among the 20 who have applied.

"If I don't get me one with this ad, next week I'm gonna offer 'em a junior partnership," he said.

**More people get more news from newspapers than all other sources combined.**

Sung to miscalculate and attempt to reunify Korea by force.

American officials see little chance that Kim would risk such a move unless an opportunity such as the lapse of the present government or its replacement by a weak regime suddenly offered an opportunity with very little risk.

"It is up to us to see that this does not happen," commented one American diplomat. Nevertheless, South Koreans want to see their armed forces modernized and their air defenses and sea defenses greatly improved before the United States starts to withdraw the first 20,000 of some 61,000 troops.

The angriest reaction to current U.S. policy is in Thailand.

According to Foreign Minister Tharat Khoman "uneasiness does not come from implementation of the Nixon Doctrine. The uneasiness is caused by the present struggle between your executive and the legislative branches and the erratic behavior of some of the congressional elements.

### U. S. Policy Questioned

"Many people in the world, not only in Asia, question the steadiness of U.S. policy," he said.

American authorities say there will be further scaling down of U.S. forces in Thailand as units are identified that are no longer required.

In Japan, Japanese leaders are speaking of "task-sharing" with the United States maintaining its bilateral security commitments with Korea, Taiwan and the Philippines and Japan's role contributing to social stability.

American officials say Japan also is in a position to provide limited military assistance not in the form of guns and weapons but in the form of such common use items as trucks, communications equipment and heavy construction equipment.

## Fairgrounds Future?

The Upper Peninsula State Fair, six days of bright lights, carnival, exhibits, barkers and all of the other things that go with the annual exposition, opens in Escanaba tomorrow after a couple of days of bustle, today's entry day and about a year of preparation by Cliff Perras, fair manager, and the Board of Managers.

It will be a week of excitement for Escanaba area and Upper Peninsula visitors, particularly the small fry, and a week of joy and heartbreak for the exhibitors who win or lose the champion rosettes.

And next Sunday when the gates close it will be all over until 1971, except for the administrative and cleanup tasks that necessarily follow a week-long exposition.

The fairgrounds gates will close and some of the most valuable property in the community sit largely idle for the greater part of another year.

The Peninsula Stock Car Association, of course, uses the grandstand and race track on Saturday nights from May through early fall. And from time to time the grounds or some of the facilities are used for special events — like the recent Farmer-Businessmen picnic, touring travel trailer club meetings, the Gem & Mineral Show and the annual Holy Name Booster Club sponsored carnival — but for the most part the site is vacant.

Perhaps it's an insoluble problem to develop year-around uses for a fairgrounds. And it certainly isn't unique to Escanaba.

But as land in the community continues to become more valuable, there has to be a time when the State Dept. of Agriculture is going to be faced with a decision on the site. Is it economically wise to hold onto a tract of land with substantial frontage on a four-lane highway (U.S. 2 and 41)? Can a six-day program justify 51-week idleness?

Fortunately, the fairgrounds property is owned by the state. In private ownership, the land would have been developed long ago.

But even government eventually recognizes economic factors.

And economically, Escanaba doesn't want to lose the fair. It brings thousands of people into the community.

The solution, then, is to start working on greater use of the property. If Escanaba with the cooperation of the Fair Board can begin developing additional uses for the fairgrounds, the property could become more valuable to the community than to a private developer.

Over the years, for example, there have been thoughts of staging a major snowmobile race at the fairgrounds during the winter. There also has been talk about the fairgrounds as a site for a new convention-type building. A tourist park or campground could be developed on the grounds. During warm weather, buildings could be used for more shows of the Gem & Mineral type. Perhaps community recreational areas — baseball fields, for example — could be constructed and then tournaments worked into the U.P. State Fair program. An Upper Peninsula Horseshoe tournament was staged last weekend at Bruce Crossing and a regular league competes every week in Escanaba during the summers. Horseshoe courts could be added and U.P. State Fair tournaments scheduled.

There is no hint at present that the State Dept. of Agriculture is considering disposing of the property and abandoning the Upper Peninsula State Fair, although there have been those rumors in the past. But what about 10 to 20 years from now, particularly if Escanaba grows?

The community should be prepared for the question.

And meanwhile, enjoy the fair.

## Needed Legislation

If reorganization of the federal government and pruning of its bureaucratic tangle ever is to begin in earnest, the currently pending Program Information Act is a necessary first step.

The bill, H.R. 3863, would create a comprehensive catalogue of all federal aid programs. It requires the executive branch of government to prepare and publish such a catalogue, updating it monthly to reflect any changes in domestic aid programs.

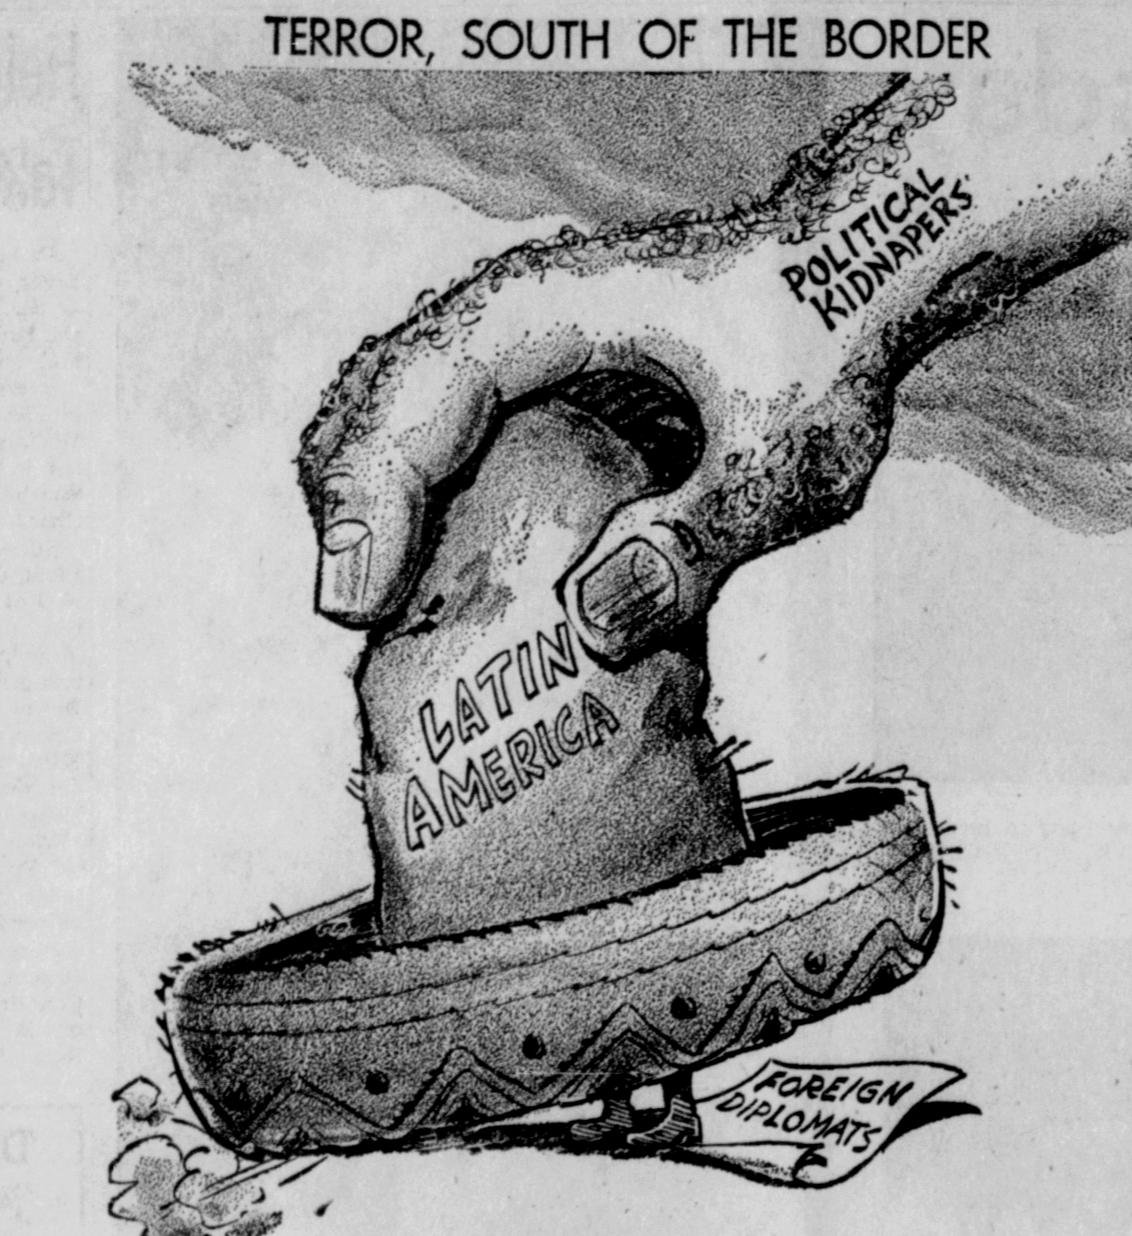

There really is nowhere else for a thorough streamlining and revamping of the federal government to begin. It is appalling, but true, that the federal government has become so big and so complicated that no one has a bird's eye view of the full extent of its far-flung activities. No one really knows how many aid programs it administers.

This startling discovery by a group of congressmen led to their drafting the Program Information Act. A catalogue published by the U.S. Office of Economic Opportunity lists close to 600 federal aid programs, but when these congressmen began their own inquiry they soon discovered that the total well exceeds 1,000. And as little known or forgotten programs continue to be brought to light, the final total still is not established.

Equally dismaying is the fact that many of these programs operate in the same general areas and often duplicate each other's functions. Confusion is compounded when such programs are not even administered by the same department of government.

An encouraging sign is that congressional consideration of the Program Information Act has begun with hearings on Capitol Hill. If this proposal becomes law, as is to be hoped, the nation at least will have an overall view of the cumbersome, top-heavy mechanism known as the federal government.

Perhaps then, with solid information on which to act, federal reorganizers can get on with the job of making the government more efficient and more responsive and understandable to the average citizen.

## Will Domestic Folly Sink Foreign Policy?

By JOHN CHAMBERLAIN

President Nixon has a great seventh-inning rally going in foreign policy.

The 90-day cool-off in the Middle East will take him through August, September, and October—virtually to election day. Unless the Palestinian Arab guerrillas upset things, Nixon's enemies won't be able to manipulate the Israeli-Arab confrontation to score points while the campaign is on.

And in South east Asia, the monsoon rains should keep that front at least relatively safe for the White House until some time in October.

But even if the Senatorial doves—and the college campuses—presumably won't have any Cambodias or Phantom-Jets-to-Israel crises to exploit on the hustings for a couple of months to come, Richard Nixon, who prides himself on his know-how in foreign affairs, may be digging his grave as an international statesman. Foreign policy in America will, in the long run, be no better than the U.S. dollar, and the Nixon domestic policies, far from being truly anti-inflationary, are designed, whether consciously or not, to break the bank.

At the rate that domestic spending will reach if the Nixon revised Family Assistance Plan passes Congress, there won't be any money left for high-grade defense programs, and what the Soviets will do with that opening is almost too horrible to contemplate. Our short-run success in the Middle East and Southeast Asia won't be worth a dime.

Other members of the finance committee — Senators John Williams of Delaware and Herman Talmadge of Georgia — echo Long's concern for the inflationary potential of Family Assistance.

Long admits that a guaranteed income plan designed to put every family over the \$4,741 mark (in welfare money, earnings and food stamps) would put 35 per cent of the people of Mississippi on welfare.

Long admits that a guaranteed income plan designed to put every family over the \$4,741 mark (in welfare money, earnings and food stamps) would put 35 per cent of the people of Mississippi on welfare.

Other members of the finance committee — Senators John Williams of Delaware and Herman Talmadge of Georgia — echo Long's concern for the inflationary potential of Family Assistance.

A good idea, but Nixon would have to veto it if he continues to insist on raising the number of U. S. families on welfare from 10 to 24 million.

Williams doubts that the "work incentive" aspects of the Plan would cause anyone on relief to do any extensive job hunting. Going from an unemployed status to full-time work at standard minimum wage rates would give family-assisted people only from 23 to 30 cents on the dollar. Yet, in spite of his doubts, Senator Long is committed to getting a bill out this year, and the majority on his committee will keep it from being anti-inflationary.

It isn't that President Nixon has done any elimination of other welfare spending to make Family Assistance palatable to budget balances. Says Senator Talmadge, "I attempted to find out where the trade-offs would be. I requested a detailed list of programs that the Administration intends to eliminate or reduce in order to pay for the welfare bill."

There was no response to the Georgia Democrat's request for information. So how is Nixon going to make it stick when he chastises the Democrats for spendthrift action? Senator Talmadge would be right there as a 'Truth Squad' of one to call the Republicans a bunch of phonies.

Senator Fannin of Arizona has offered a bill that would make it mandatory for Congress to balance the budget every year save in times of declared wars.

A good idea, but Nixon would have to veto it if he continues to insist on raising the number of U. S. families on welfare from 10 to 24 million.

Cohen attributes the Supreme Court victory to Roosevelt's overwhelming victory over Landon and to his efforts to enlarge the court. Cohen said "the Supreme Court got the message and began changing."

"That is why I say Roosevelt's effort to pack the court (add additional, friendly members) was successful," the Michigan professor said.

Arthur Altmeier, 79, first commissioner of Social Security, was to be on hand for today's ceremonies in Ann Arbor. He is the only surviving member of the original Social Security Board, Cohen said.

Cohen described Altmeier as one of the chief architects of the Social Security Act and a guiding force through the years. He described his own role with modesty, but many describe Cohen as the principal force behind the act which now provides benefits to 26 million persons. A colleague recalled an old Washington nugget which describes Cohen's role:

"A man who is an expert on Social Security could be described as a man with Wilbur Cohen's phone number."

The University of Michigan professor said Roosevelt would surely be surprised to hear that some of his old Republican foes had come to support Social Security. He said every American is affected now by the act and said that life insurance now in force under the act equals all the private life insurance in effect—or \$1 trillion.

## Quickie Divorce Ban Could Cost Mexico Plenty

JUAREZ, Mexico (AP) — President Gustavo Diaz Ordaz' plan to outlaw quickie divorces in Mexico would cost this border city \$3.2 million a year, says the man in charge of the municipal finances.

There really is nowhere else for a thorough streamlining and revamping of the federal government to begin. It is appalling, but true, that the federal government has become so big and so complicated that no one has a bird's eye view of the full extent of its far-flung activities. No one really knows how many aid programs it administers.

This startling discovery by a group of congressmen led to their drafting the Program Information Act. A catalogue published by the U.S. Office of Economic Opportunity lists close to 600 federal aid programs, but when these congressmen began their own inquiry they soon discovered that the total well exceeds 1,000. And as little known or forgotten programs continue to be brought to light, the final total still is not established.

Equally dismaying is the fact that many of these programs operate in the same general areas and often duplicate each other's functions. Confusion is compounded when such programs are not even administered by the same department of government.

An encouraging sign is that congressional consideration of the Program Information Act has begun with hearings on Capitol Hill. If this proposal becomes law, as is to be hoped, the nation at least will have an overall view of the cumbersome, top-heavy mechanism known as the federal government.

Perhaps then, with solid information on which to act, federal reorganizers can get on with the job of making the government more efficient and more responsive and understandable to the average citizen.

More people get more news from newspapers than all other sources combined.

## Social Security Plan Now 35 Years Old

ANN ARBOR, Mich. (AP) — Social Security, subject of ragging controversy in its infancy, was 35 years old today.

Some of the chief architects of the Social Security Act held a little party in Ann Arbor during a break in the 23rd annual Conference on Aging.

"It was a great day," recalled Wilber Cohen, who was a 22-year-old researcher in the Roosevelt Administration. "Everybody was elated about it." Cohen later worked for the Social Security Board and years later supervised Social Security operations as secretary of health, education and welfare under President Lyndon B. Johnson. He is now dean of the College of Education at the University of Michigan which is host to the Conference on Aging.

The loss in taxes alone would reach \$1.4 million to \$1.6 million annually, Ignacio Duarte, the tax collector, said. The rest would be living expenses for divorce seekers in this city across the Rio Grande from El Paso, Texas.

Diaz Ordaz is seeking a tougher national policy on divorce in keeping with "the respect that the people of Mexico have for the family as an institution."

Current law requires Mexican citizens to wait three months before a final decree is granted. But in some states—including this state of Chihuahua—for foreigners can obtain a divorce in a day by paying the necessary taxes.

Diaz Ordaz is seeking a tougher national policy on divorce in keeping with "the respect that the people of Mexico have for the family as an institution."

Current law requires Mexican citizens to wait three months before a final decree is granted. But in some states—including this state of Chihuahua—for foreigners can obtain a divorce in a day by paying the necessary taxes.

Cohen concedes there was much concern within the Democratic administration that Social Security would be killed by a strict interpretation of the constitution by the Supreme Court. The act prospered after 1937 when it was upheld by the Supreme Court.

K Q 5  
3

The bidding:

East South West North  
1 ♠ 1 ♠ Pass 2 NT  
Pass 3 ♠ Pass 4 ♠

Opening lead — two of clubs. When the Italians won their first world championship in 1957, they displayed a few bidding idiosyncrasies that left their American opponents slightly aghast.

Early in the match came this deal where Koytchou, the American East, opened with a club and Siniscalco overcalled with a spade.

Siniscalco's array of cards does not seem to justify a vulnerable overcall judged by ordinary standards, and, in fact, his hand appears better suited for gin than bridge.

Nevertheless, he did bid a spade and found his partner, Forquet, with a very good hand. Forquet jumped to two notrump and Siniscalco still could not bring himself to pass but bid three hearts instead — which Forquet cheerfully raised to four.

West (Ougst) led a club. East won the queen with the ace and shifted to the ace and another diamond, taken by the king. Siniscalco led the jack of hearts to the ace, both defenders following low, and it was at this point that the real drama of the hand occurred.

With a huge audience watching every play on a large screen that showed all four hands, Siniscalco returned a trump and eventually lost a spade to go down one.

But the audience saw what declarer did not see — that the contract could have been made.

Instead of returning a trump at trick five, Siniscalco should have taken the ace of spades and king of clubs, ruffed a club, and cashed the queen of diamonds. Then, and only then, should he have led a trump.

Koytchou would be forced to win with the king and return a diamond or a club, permitting declarer to ruff as the spade loser vanished from dummy. Had all this occurred, Siniscalco's fearless bidding would have been vindicated.

## People, Events Of Yesteryear

From the Files of the Escanaba Daily Press

25 Years Ago

Plans for the 1945 community chest and War Fund drive for Delta County were made at a meeting held in the Delta Hotel at Escanaba, with chairman H. D. Brackett presiding. It is expected the drive for funds to finance county-wide local organizations and the county's share in the National War Fund will be held in October.

Tommy Standing, son of Mr. and Mrs. Peter Standing, celebrated his third birthday with a party at his home. Games were played and a delicious birthday luncheon was served. Those in attendance at the party were Bonie Lou Cole, Billy and Patsy Putvin, Nancy and Sonny Holm, Peter Stock, Lois Karnitz, Jeanette Ingebrigtsen, Linda and Joyce Lambreg and Tommy's sister and brother, Judy and Jimmy.

## 50 Years Ago

W. E. Olds, superintendent of schools, soon will be able to publish the completed list of grade and high school teachers and their assignments to the various buildings. Olds, and the members of his family, have returned from a motor trip to various points in Lower Michigan during the superintendent's annual vacation.

Contractor Nels Gormsen is getting along nicely with the work of remodeling the Gladstone city hall. The excavation for the rear portion of the building has been completed and the concrete mixer was wheeled into position. Gravel is on the ground and the pouring of concrete will begin today.

## BUMPER QUIP

LOUISVILLE, Ky. (AP) — An almost ironic bumper sticker is appearing here: "Don't Be Un-American — Pollute Something."

## Ann Landers

### Ex-WAC Captain Still Calls Command

Dear Ann Landers: Help me, please. My mother is driving all my friends away. I am 15 and cannot afford to go through life without friends. The problem is that Mom was a captain in the Wacs and she has been giving orders ever since.

A few weeks ago she told a boy I hardly know (it was our first date) that his posture was terrible, and to stand up straight. She pulled back his shoulders, shoved his chin up and hit him in the stomach. He looked shocked. I almost passed out when she said, "Suck in your gut!" If I ever see her again it will be a miracle.

Today I came across seven unsigned requests for confidential answers. It makes me unhappy when I must disappoint people but I am powerless to help a reader if there is no signature. Please write again and this time sign your letter.

Confidential to All Doors Closed and Sinking Fast: I urge you to write to the National Headquarters of Recovery, Inc. This superb organization offers a systematic method of self help for former mental patients and people who are very depressed and feel they are cracking up. Address: 116 S. Michigan Ave., Chicago, Illinois 60603.

Drinking may be "in" to the kids you run with—but it can put you "out" for keeps. You can cool it and stay popular. Read "Booze And You—For Teen-Agers Only." Send 35¢ in coin and a long, self-addressed and stamped envelope with your request.

## AMOCO Photo Shows Symbols In Michigan

Michigan photo shows symbols in state's auto state car with the license plate "MICH".

Also available for the government freely used by his wife, is a car with the plate "MICH".

The MICH stands for Michigan State Government. The four numbers are state symbols.

For instance, Secretary of State James Hare, who leases his license plates, has MICHGO. Atty. Gen. Frank Kelley, who recently had his official state car swiped, has MICHGO.

But Michigan, the nation's auto state, did not invent the license plate idea or over the state symbols.

According to historians, the world's first vehicle license plates were issued by this Republic before the birth of Christ.

The Romans drove their chariot roadway through the streets of Rome and their empire.

So some smart Roman emperor thought of the idea of issuing tags to identify the horse-drawn chariot.

Individual Romans immediately demanded less numbers so they would be recognized as very important people.

The lower the Roman number, the higher you were in government.

The Romans even invented levying a tax on the chariot, lawmaker of our car registration fee.

The former Austro-Hungarian empire is thought to have issued the first license plates in our modern era, in 1900.

New York was the first state in the United States to issue

license plates—in 1901.

Michigan, home base of the auto industry, caught up with its vehicle licensing law passed in 1903. At that time the license cost only 25¢.

It wasn't until 1923 that Michigan began using letters in conjunction with numbers on plates.

This year was the first time Michigan used three letters on plates.

There still are some amusing combinations.

For instance, EWD, which citizens remember as underworld, is listed in the Newaygo area.

LHD is one plate letter combination in the Detroit area.

HLT is listed in the Alpena area and could mean honest, hot, two and three.

PLY is listed from Lansing and means you are a real swingin' flier.

### Gordon Peninsula

Pirkko Blome, 18, of Lahemaa, Finland, arrived at the Charles Rasmussen home on Monday, Aug. 10 for a year's stay with the Rasmussen family.

Ulrika is a Swede exchange student through the Youth for Understanding Organization in Ann Arbor and will attend Big Bay de Noe High School in Nahma this year.

Mr. and Mrs. Fred Miller of Marshall have returned to their home after spending a month and a half here visiting with the Edmond Morliers and other relatives in the area.

Mrs. Joe W. Davis and son Jody left Saturday, Aug. 15 for Green Bay where they will visit with Mr. Davis aboard the USS Martham.

Mr. and Mrs. Donald Keuton and family of Oshkosh are visiting in the area with relatives and with his mother, Oiga, who is a patient at the Schoolcraft Medical Facility in Manistique.

## GLADSTONE

ONE OF THE FEATURES of a weekend celebration in Gladstone was a parade that included the appearance of the Escanaba City Band. The events on Saturday were related to the Citizens Band Radio Jamboree; and on Sunday there was a chicken barbecue at Van Cleve Park sponsored by the Rotary and Lions clubs at which 600 dinners were served. Proceeds went to Gladstone community projects and to the Scholarship Foundation. (Daily Press Photo)

### Man Being Held In City Stabbing

CHICAGO (AP) — Authorities were holding a man in connection with the stabbing of three Michigan women Sunday morning on the city's near north side.

Two of the victims were hospitalized. Nancy Dikrin, 24, of Hamtramck, was listed in good condition with a chest wound and Susan Domrowski, 21, of Detroit was reported in fair condition with cuts on the face and hand.

The third woman, Claudia Gilbert, 21, of Ferndale, was treated and released.

A 28-year-old amateur operator, Ben A. Austin of Chicago was apprehended after a five-block chase. He has been charged with aggravated battery.

Mrs. Joe W. Davis and son Jody left Saturday, Aug. 15 for Green Bay where they will visit with Mr. Davis aboard the USS Martham.

Mr. and Mrs. Donald Keuton and family of Oshkosh are visiting in the area with relatives and with his mother, Oiga, who is a patient at the Schoolcraft Medical Facility in Manistique.

### Garage Damaged By Fire Sunday

The roof and interior of a two-car, cement block garage, owned by Raymond Demouse of 410 Michigan Ave., were severely damaged in a fire Sunday afternoon.

The fire department was called by neighbors at 4:30 p.m. since the Demouses were not at home at the time.

Firemen removed four bikes and a lawnmower from the garage, but were unable to save two snowmobiles.

### Diamond-Studded Snowball Gives Up Ring Worth \$198

ALCONA (AP) — When Robert Wagner of Alcona threw a snowball into the woods five years ago he gulped.

His ring with two diamonds, valued at \$198, went with it. This week, Wagner gulped again.

After five spring thaws, he walked into the woods and found his ring.

### Fire Danger

DETROIT (AP) — The U. S. Weather Bureau warned Sunday that fire danger still remains very high in Michigan, particularly in northern areas of the state.

## License Plates Status Symbol In Michigan

By BOB VOGES

LANSING (AP)—Gov. William Milliken rides around the state in a sleek black car with the license plate MSG000.

Also available for the governor, mostly used by his wife, is a car with the plate MSG100.

The MSG stands for Michigan State Government. The low numbers are status symbols.

For instance, Secretary of State James Hare, who issues the license plates, has MSG002.

Atty. Gen. Frank Kelley, who recently has his official state car swiped, has MSG003.

But Michigan, the nation's auto state, did not invent the license plate idea or even the status symbols.

According to historians, the world's first vehicle license plates were issued by the Romans before the birth of Christ.

The Romans drove their chariots recklessly through the streets of Rome and their empire.

So some smart Roman senators thought of the idea of issuing tags to identify the horse-drawn chariots.

Influential Romans immediately demanded low numbers so they would be recognized as very important people.

The lower the Roman numeral the higher you were in government.

The Romans even invented levying a tax on the chariots, forerunner of our car registration fee.

The former Austro-Hungarian empire is thought to have issued the first license plates in our modern era, in 1900.

New York was the first state in the United States to issue

license plates—in 1901. Michigan, home base of the auto industry, caught up with its vehicle licensing law passed in 1905. At that time the license cost only \$2.

It wasn't until 1933 that Michigan began using letters in conjunction with numbers on plates.

This year was the first time Michigan used three letters on plates.

The secretary of state's office was very careful to omit vowels from the letters. Otherwise, unmentionable and objectionable words might appear on license plates.

There still are some amusing combinations.

For instance, BVD, which oldsters remember as underwear, is issued in the Newaygo area.

LSD is one plate letter combination in the Detroit area.

BLT is issued in the Alpena area and could mean bacon, lettuce and tomato.

FLY is issued from Lansing and means you are a real swinging flier.

Garden Peninsula

Pirkko Rinne, 16, of Luhanka, Finland, arrived at the Charles Rasmussen home on Monday, Aug. 10 for a year's stay with the Rasmussen family.

Uirkko is a foreign exchange student through the Youth for Understanding Organization in Ann Arbor and will attend Big Bay de Noc High School in Nahma this year.

Mr. and Mrs. Fred Mullen of Marshall have returned to their home after spending a month and a half here visiting with the Edmond Merciers and other relatives in the area.

Mrs. Joe W. Davis and son Jody left Saturday, Aug. 15 for Green Bay where they will visit with Mr. Davis aboard the USS Markham.

Mr. and Mrs. Donald Kaufer and family of Oshkosh are visiting in the area with relatives and with his mother, Olga, who is a patient at the Schoolcraft Medical Facility in Manistique.

### Man Being Held In City Stabbing

CHICAGO (AP) — Authorities were holding a man in connection with the stabbing of three Michigan women Sunday morning on the city's near north side.

Two of the victims were hospitalized. Nancy Durian, 24, of Hamtramck, was listed in good condition with a chest wound and Susan Domrowski, 21, of Detroit was reported in fair condition with cuts on the face and hand.

The third woman, Claudia Gilbert, 21, of Ferndale, was treated and released.

A 29-year-old machine operator, Don A. Austin of Chicago was apprehended after a five-block chase. He has been charged with aggravated battery.

### Events

#### Legion Meeting

August Mattson Post 71, American Legion, will meet at the Legion clubrooms tonight at 7:30. A business meeting will be held and members are reminded that dues are payable at this time.

### Garage Damaged By Fire Sunday

The roof and interior of a two-car, cement block garage, owned by Raymond Demeuze of 410 Michigan Ave., were severely damaged in a fire Sunday afternoon.

The fire department was called by neighbors at 4:20 p.m. since the Demeuze were not at home at the time.

Firemen removed four bikes and a lawnmower from the garage, but were unable to save two snowmobiles.

### Diamond-Studded Snowball Gives Up Ring Worth \$198

ALCONA (AP) — When Robert Wagner of Alcona threw a snowball into the woods five years ago he gulped.

# Women's Activities

## Mrs. Watson To Keep Her Barberry Bushes

WASHINGTON (AP) — The government wanted to cut down her barberry bushes as hazards to farm crops, shrubs that have graced Mrs. Byron Watson's home for many years in Bad Axe, Mich.

But 86-year-old Mrs. Watson asked they be spared until she died.

Please! Please! Don't take them," Mrs. Watson wrote M. E. Turner, the Agriculture Department supervisor in Lansing, Mich. "It will ruin the entrance to my home."

"I've had them for years, as you know," she said. "We have neither wheat fields nor many birds in or near this town."

"The first time you came, I asked you to let me have them till I died. I just have had a presentiment, for never in my four-years-short-of-ninety span of life have I been so near the end."

Mrs. Watson's letter to Turner was written on July 15. Turner's job was to enforce a 52-year-old ban on barberry bushes in major crop areas. The plants are prime sources of devastating stem-rust disease which can ravage millions of acres of grain.

You said you were coming this fall to get my gorgeous berries," Mrs. Watson wrote Turner. "You would love them, the rains have been wonderful for them."

Mrs. Watson will keep her barberries.

The Agriculture Department has announced the bushes she has pruned for so long will be spared.

But as a safeguard against spreading stem rust, authorities will go to Bad Axe each year and pick the berries from Mrs. Watson's bushes to prevent their spread to crop areas.

## People

Shirley Grenfell returned home from Detroit Saturday for the birthday of her mother, Mrs. Jean Grenfell, 425 S. 11th St. She will be at home for two weeks.

Mrs. Anna Wagener and a family friend, Paul Schneicher, both of Deuz, Germany arrived in the United States July 16 to visit with her sister, Sister M. Roberta of St. Francis Hospital.

While here they attended Sister Roberta's golden jubilee of religious profession held July 23, visited many points of interest throughout the Upper Peninsula and especially enjoyed playing miniature golf. They left Aug. 14 to return to their homes.

### STAR LIKES WORK

NEW YORK (AP) — Paul Lipson, star of "Fiddler On The Roof," the hit musical, likes to work. He'd rather play Tevye than take vacations. The Pittsfield, Mass., born Tevye of "Fiddler" has never missed a single performance in the six years that he has played in the Harold Prince production in New York and with the national company from coast to coast.

In that time he has only taken two weeks off. He has played "Fiddler" over 2,560 times and more than 1,100 as Tevye.

## Tricia Nixon, Edward F. Cox Attend Wedding

GROSSE POINTE (AP) — Tricia Nixon, blonde daughter of President Nixon, attended a wedding at Grosse Pointe Saturday, where she was accompanied by Edward Finch Cox of New York.

Cox, a student at Harvard Law School, flew to Detroit from Mexico, where he has been for two weeks. Miss Nixon flew in from Washington. In the ceremonies, Susan Hinks of Grosse Pointe was married to Jonathan Colby of Washington. Only 36 guests were at the ceremonies.

Cox, a good friend of the groom, has been an escort for Miss Nixon on many occasions in the last five years.

Asked by reporters about the possibility of an engagement to Cox, Miss Nixon said "I'd rather not talk about it. It's my private life."

Miss Nixon wore a sleeveless blue-and-white embroidered cotton dress.

Tossing a shoe after newlyweds, or tying to the bumper of a honeymoon convertible, survives in part from the time when the bride's family gave their son-in-law a sandal to signify transfer of chattel — their daughter — according to National Geographic.

## Births

HAYWARD — Mr. and Mrs. Garon C. Hayward of Escanaba Rte. 1 are the parents of a son, Geoffrey Scott, born at 4:10 a.m. on Aug. 14. The infant weighed 7 pounds and 13 ounces at birth. The mother is the former Bonnie Roundy.

ALLPORT — At 7:15 a.m. on Aug. 14, a daughter, Diane Lynn, weighing 7 pounds and 4 ounces, was born to Mr. and Mrs. Robert E. Allport of Gladstone Rte. 1. Mrs. Allport was Bonnie Micheau.

CHOUINARD — A son, Thomas Marvin, weighing 7 pounds and 6 ounces, was born to Mr. and Mrs. Marvin P. Chouinard of 1515 N. 16th St. at 5:14 a.m. on Aug. 15. The mother was Nancy Sivertsen.

MARTIN — Mr. and Mrs. Louis K. Martin of 1315 Wisconsin Ave., Gladstone, are the parents of a daughter, Katherine Louise, born at 2:19 p.m. on Aug. 16. The infant weighed 6 pounds and 5 ounces at birth. Mrs. Martin was Beverly Ninital.

Hunters in some parts of Africa dance and sing atop 12-foot-high termite mounds to lure the insects out into grass traps. Dried termites, considered highly nutritious, are used to season many African dishes.

## Children's Conference Planned In Washington

WASHINGTON (AP) — The White House children's conferences—one every 10 years since Theodore Roosevelt called the Conference on Children says he first in 1909.

"Never has this ... conference come at a time of greater national questioning," President Nixon said in announcing it last December.

Lieber is executive assistant to Stephen Hess, whom Nixon appointed national chairman of the White House Conference on Children and Youth.

### Recommendations

Each group, made up of 15 experts from such fields as medicine, law, education and the social sciences as well as young people and parents, is to come up with two specific recommendations for the 4,000 convention delegates to consider.

"We don't want experts sitting around reading papers to one another," Lieber said. "Our emphasis will be on action."

### Rights Identity

Since the conference "should be a reflection of our times," he said many recommendations probably will center on individual rights and identity.

Subjects to be considered by the forums include child development and the mass media, myths of education, family planning, children and prejudice, the rights of children and—Lieber says there's a lot of interest in—the child advocate.

"Children have no constituency, you know. They have no political power," he said. "Maybe we need someone to speak up for them."

### Every 10 Years

There have been six previous

MISS MYSTERY SHIP of Menominee is Barbara Ann Cole. She is sponsored by the Fun-O-Rama Corp., of Menominee and will be a contestant in the 1970 U.P. State Fair Queen contest. Miss Cole is 5' 3" tall and is 19 years old. She was first runner-up in the Miss Fun-O-Rama Pageant. Her hobbies are singing, dancing and sports in general. At present she is a secretary at Gustman's Garage in Marinette.

## Bible School Concluded At Adventist Church

Pastor L. A. Pomeroy of the Escanaba Seven-day Adventist Church, 210 S. Lincoln Road, has made the following announcements:

The Escanaba Adventist Church has successfully completed two sessions of Vacation Bible School in this area. They were in charge of Mrs. James Tardiff and Mrs. J. K. Snowden.

Pastor John Hayward of Lancing was the guest speaker at the Adventist Church on Saturday. His subject was Ezekiel's Vision of the Valley of Dry Bones from Ezekiel, Chapter 37.

The work on the youth camp at Sagola is continuing. Ten young people from Lower Michigan are assisting this week with the roofing of the lodge.

Literature evangelists Edward Pomeroy of Chesanay, brother of Pastor Pomeroy, and D. W. Walton of Traverse City were visitors here on Saturday and took part in the church services.

The Adventist Church will have a booth at the U.P. State Fair again this year. Pastors of the U.P. churches, assisted by lay members, will be in charge "Smoking Sam," will again demonstrate how smoking affects his "lungs." Short movies will be shown. The theme of the booth displays this year is, "Wayout."

More people get more news from newspapers than all other sources combined.

## Report Successful Desegregation News, Nixon Tells South

WASHINGTON (AP) — President Nixon has asked news executives in the South to emphasize successful school integration efforts this fall.

At his first regional briefing session on government policy, Nixon told executives he recognized the media's "responsibility to report the news whether it is good or bad."

"But I know of no time in our nation's history when the country needs to hear of those many, many successes where men and women of good will worked out the problem rather than hearing only of those few instances that might be failures," he said.

Nixon made the remark in New Orleans as he added a new feature to the White House road-show-news briefing on govern-

ment policy for regional publishing and broadcasting executives.

The roadshow is designed to bring the White House to the people.

Nixon personally is taking part in briefing the news media. Aides said the next session will be in the West when Nixon returns to San Clemente, Calif., later this week. A midwestern meeting will be held in Chicago sometime after Sept. 1.

In meeting Friday with some 60 specially picked southern and border states news executives at the Royal Orleans Hotel, the President let them know he reads their editorials and knows some of the strong opinions they express.

Last they think he is influenced mainly by Washington and Eastern newspapers, it was pointed out the President has a news briefing system in which his White House staff calls items from 34 newspapers across the country.

They provide Nixon with a daily news and television summary of events and commentaries.

High level background briefings for the media, where spokesmen are not quoted, have been a frequent occurrence in Washington. Now, Nixon is seeking to extend this format around the country.

Representatives of all 15 counties in the Upper Peninsula are expected for the annual fall meeting of the group.

Whitmer's report is scheduled during the noon luncheon, a joint meeting with the U.P. Association of County Commissioners. The commissioners will meet following the lunch.

UPCAP delegates will discuss the initiation of a comprehensive working plan for U.P. development in the 1970s. Other business will include delegate body discussion and action on the report and recommendations of the UPCAP Committee on Evaluation and Organization on incorporation; change in bylaws to recognize UPCAP's reconstitution as a regional planning commission under Act 281, and restructuring of UPCAP. The great renewal application to the Economic Development Administration also will be considered.

Registration will begin at 8:30 a.m. The meeting is open to the public.

**C.R. Johnson Taken By Death**

Chester Roosevelt Johnson, 67, of 1834 Sherman Road, died Sunday morning at the Medical Center where he had been a patient for two and a half months.

He was born Sept. 6, 1903 in Escanaba and was a veteran of World War II, serving with the U.S. Army. Mr. Johnson was the owner and operator of Chet's Tavern in north Escanaba. He was also very active in the Golden Gloves activities in Escanaba during past years and was known as "Tiger" Johnson.

Friends may call at the Anderson Funeral Home from 4 to 8 p.m. today and complete funeral services will be conducted at the funeral home with the Rev. Ray Peterson officiating and burial will be in Lakewood Cemetery.

**Sluggish Economy Tops Milliken, Nixon Conference**

WASHINGTON (AP) — The sluggish economy and what the federal government can do to help Michigan weather it was on Gov. William Milliken's agenda today at a meeting with President Nixon.

Milliken was scheduled to fly to Washington to present Nixon with a resolution adopted by the Midwestern Governors Conference and the National Governors Conference, supporting the creation of a national clearing house for registering and monitoring chemicals released into the environment by industry.

But Milliken said before he left he would also consult the President on a bulging portfolio of topics affecting Michigan, including primary means by which the federal government could ease the adverse impact the nation's downturned economy has on Michigan.

He also said he wanted to make several specific requests for youth employment programs, manpower training public works projects, housing and transportation.

He said he hoped he and the President could exchange views and talk about possible solutions to America's drug scourge.

More people get more news from newspapers than all other sources combined.

**Young Girl Hurt In Car Accident**

Mariene Judith Kutches, 9, Rte. 1 Gladstone, is listed in good condition today at St. Francis Hospital, where she was admitted Sunday afternoon after being struck by a car driven by Lawrence Chouinard, 57, Rte. 1 Gladstone.

The accident occurred at 2:30 p.m. on County Road 416, one half of a mile east of County Road 525. Chouinard was attempting to turn into a private driveway when Mariene stepped into the road, State Police officers said.

## District Court

Robert E. Miller, Holmes Beach, Fla., paid a \$10 fine and \$20 costs after pleading guilty to fishing without a license.

Michael B. Rose, Kenosha, Wis., pleaded guilty to fishing without a license and paid a \$10 fine and \$20 costs.

Patrick J. Morrow, 201 S. 16th St., pleaded guilty to being a minor in possession of alcoholic beverages and paid a \$15 fine and \$7.50 costs.

David L. Brunette, 1423 N. Lincoln Rd., was sentenced to seven days in the Delta County Jail after he was found guilty of violating probation.

## Hospital

Mrs. Alfred Deruha of 119 N. 10th St. is a medical patient at St. Francis Hospital. Her room is 240.

# NOTICE OF REGISTRATION

## NOTICE OF REGISTRATION OF THE QUALIFIED ELECTORS OF BARK RIVER-HARRIS SCHOOLS DELTA AND MENOMINEE COUNTIES, MICHIGAN

### TO THE QUALIFIED ELECTORS OF SAID SCHOOL DISTRICT:

Please Take Notice that the Board of Education of Bark River-Harris Schools, Delta and Menominee Counties, Michigan, has called a special election to be held in said School District on Monday, September 28, 1970.

THE THEREFORE, TAKE NOTICE THAT the Township registration records will be used in the special election called to be held on Monday, September 28, 1970, and only such person may vote at said election whose name is registered as an elector in the Townships of Bark River and Harris. Persons planning to register with the Bark River and Harris Township Clerks must ascertain the days and hours on which the Clerks' offices are open for registration.

THE LAST DAY FOR REGISTERING IS FRIDAY, AUGUST 28, 1970, ON WHICH DAY THE OFFICES OF THE BARK RIVER AND HARRIS TOWNSHIP CLERKS WILL BE OPEN FOR THE PURPOSE OF TAKING REGISTRATIONS FROM 8:00 O'CLOCK A.M. UNTIL 5:00 P'CLOCK P.M.

This Notice is given by order of the Board of Education of Bark River-Harris Schools, Delta and Menominee Counties, Michigan.

## 'Regular' Haircut In Country Short Item

By WILLIAM CHASE

JONESBORO, Ga. (AP) — A word to those who like his looks a trifle long: Don't sit down in a country barber shop and order a "regular haircut" and expect to remain fashionably shaggy.

The country barber's conception of a regular haircut often just a hair short of a scolding. The product is instant giddiness.

I stopped off a few days ago in a small community south of Atlanta for a soft drink at a service station. I needed a haircut and decided, in a spasm of daring, that the small, one-chair barber shop down the road would be equal to the task.

The shop was colorfully rustic with year-old copies of *The Police Gazette* and detective magazines on the rack, a yellowing motor oil calendar on the wall, ragged carpet on the floor and the barber himself: mid-length-barbered—daringly shaggy in his patched leatherette chair.

Throwing caution to the wind, I woke him and ordered the \$1.25 regular special which, according to the chart on the wall, was a general shortening. He told me I looked like a man whose tastes in reading materials were more hazy than Gazette. He produced a tattered *Zane Grey* western and said the courthouse crowd had read it several times.

My eyebrows have been kind about the haircut.

The boy tried to cheer me by saying that a year from now, a haircut like mine will be in style. Nice fellow.

## State Trooper's Quick Thinking Stops Mishap

MONROE (AP) — State Trooper Douglas Kennedy took his training with him on vacation.

It earned him the commendation of Gov. William Milliken, who praised Kennedy for his "courage and quick action in the face of extreme emergency."

The governor, who personally commanded Kennedy at Monroe County Fair Saturday, said he learned of the trooper's deeds from a letter from a South Carolina man.

Charles Taylor of Georgetown, S.C., said Kennedy's action prevented a traffic accident which could have claimed the lives of Taylor and three members of his family.

Taylor said that his car's brakes went out in the Great Smoky Mountains between Murphy and Andrews, N.C., last month and his car sped down a hill.

He said that Kennedy, who was driving, braked a bit when he noticed his face had turned red upon approaching the Taylor car.

"I'd do better next time," said my friend. "Takes me one or two haircuts to learn a lesson. Your's is bummer than most, as you can see now. I must admit, though, that's not a bad one for a start."

My eyebrows have been kind about the haircut.

The boy tried to cheer me by saying that a year from now, a haircut like mine will be in style. Nice fellow.

## Minnesotan Wins Ironwood Marathon

IRONWOOD — A 26-year-old Minnesotan came from behind to upset favored Jay Dickson and shave 16 minutes from Dickson's record time last year to win the second annual Peavey Miners Marathon Saturday.

Bruce Mortenson, Minneapolis, running for the Twin-City Track Club pounded across the finish line on Hurley's famed Silver St. at 10:20 Saturday, 2:38:46, after he left the starting line at Upson—26 miles and 265 yards to the west.

Dickson, last year's winner, jumped to an early lead but suffered a painful cramp in his side at the 14-mile mark and Mortenson pulled ahead and maintained his lead all the way to the finish line.

Charles Taylor of Georgetown, S.C., said Kennedy's action prevented a traffic accident which could have claimed the lives of Taylor and three members of his family.

Taylor said that his car's brakes went out in the Great Smoky Mountains between Murphy and Andrews, N.C., last month and his car sped down a hill.

He said that Kennedy, who was driving, braked a bit when he noticed his face had turned red upon approaching the Taylor car.

## Familiar Names, Faces Disappear On Wall Street

By JOHN CUNIFF

NEW YORK (AP) — Familiar names and faces have been disappearing from Wall Street and optimists can't help but think of the 1920s.

Five member firms of the New York Stock Exchange are in the process of being liquidated because they couldn't meet capital requirements, another already has been liquidated, and last week five more candidates were added to the list.

Moreover, many firms have been forced into the arms of more well-to-do suitors, strictly

marriages of convenience with stronger firms, dictated solely by financial considerations. Other firms have had frightening confrontations with illegality.

This has been the greatest shakeout since the Great Depression, but there the comparison may end. The remaining firms, we are told, will be stronger for having battled their way through the crisis of recent years.

At first the problems resulted from an avalanche of orders that brokers were unable to handle efficiently. Now, in an ironclad fix, the problem is a lack of volume.

Last year, the NYSE estimated, a daily volume of 12 million shares was needed for member firms to break even. Volume averaged 11.4 million. This break-even point this year is lower, but not as low as volume, which fell to 9.7 million.

This past week the crisis深ened, for only 28.4 million shares were traded for the entire week, or an average of only 7.7 million. And to the previous week the volume was only 40.6 million.

Dealers took a narrow lead over advances among the issues traded on the New York Stock Exchange.

Brokers said the downturn was not unexpected. They said it might take some unexpected developments to stir the market before Labor Day.

Analysts noted that there was little in the news background to bring investors back into the market during the normally slow August period.

One broker said the recent decline carried the market into an oversold condition which though modest compared to other declining phases this year, still has put the market in a position where it could be responsive to even a small amount of good news.

The declines ran through rubber issues and tobacco, while most other categories were mixed.

The Associated Press 60-stock average at noon was off 1.1 to 28.2, with industrials off 1.5, rails down 1.2, and utilities ahead 3.

War Nerve Gas Heads For 'Grave'

ABOARD THE U.S.S. HARTLEY (AP) — A rusty surplus Liberty ship carrying a cargo of nerve gas and several rabbits well-worn through the Atlantic under tow today, headed for a watery grave 200 miles east of Cape Kennedy, Fla.

The LeBaron Russell Bridge is scheduled to be towed in 16,000 feet of water Tuesday, carrying with her to the bottom 418 steel-jacketed concrete vaults containing more than 12,000 nerve gas rounds.

The way for the controversial disposal of the deadly gas was cleared Sunday when Florida Gov. Claude Kirk and the Environmental Defense Fund said they were abandoning a court fight against the Army's plans to rid itself of the rounds. They claimed the gas represented an extreme danger to the ocean environment.

## Report Successful Desegregation News, Nixon Tells South

WASHINGTON (AP) — President Nixon has asked news executives in the South to emphasize successful school integration efforts this fall.

At his first regional briefing session on government policy, Nixon told executives he recognized the media's responsibility to report the news whether it is good or bad."

"But I know of no time in our nation's history when the country needs to hear of those many, many successes where men and women of good will worked out the problem rather than hearing only of those few instances that might be failures," he said.

Nixon made the remarks in New Orleans as he added a new feature to the White House road-show-news briefing on govern-

**REPEATS DENIAL** — Capt. Jeffrey MacDonald (above) repeated at an investigation at Ft. Bragg, N.C., that it was three men and a young woman who invaded his living quarters and murdered his wife and two daughters. The U.S. Army is trying to determine if he should be court-martialed.

## Mrs. A. Gaber Dies Saturday

Mrs. Andrew (Anna) Gaber, 78, of LaBranche died Saturday evening at the Pinecrest Medical Care Facility at Powers

High level background briefings for the media, where spokesmen are not quoted, have been a frequent occurrence in Washington. Now, Nixon is seeking to extend this format

She is survived by her husband; five sons, Joseph, Walter and Frank of LaBranche and Anthony and Stanley of Chicago; three daughters, Mrs. Charles (Helen) Roshak of Perronville, Mrs. Enes (Anna) Peña of LaBranche and Mrs. John (Julia) Lucas of Chicago; 12 grandchildren and five great grandchildren.

Chester Roosevelt Johnson, 67, of 1624 Sheridan Road, died Sunday morning at the Medical Center where he had been a patient for two and a half months.

He was born Sept. 6, 1902 in Escanaba and was a veteran of World War II, serving with the U.S. Army. Mr. Johnson was the owner and operator of Chet's Tavern in north Escanaba. He was also very active in the Golden Gloves activities in Escanaba during past years and was known as 'Tiger' Johnson.

He is survived by four sisters, Mrs. Bjarme (Cora) Larsen of Stonington, Mrs. Edna C. Johnson of Detroit, Mrs. Gustaf (Thelma) Gustafson of Escanaba and Mrs. Clyde (Lodema) Ward of Wells; two brothers, Lloyd of Escanaba and Arthur of Detroit.

Friends may call at the Anderson Funeral Home from 4 to 9 p.m. today and complete funeral services will be conducted at the funeral home with the Rev. Emmett Nordin officiating and burial will be in Lakeview Cemetery.

## Sluggish Economy Tops Milliken, Nixon Conference

WASHINGTON (AP) — The sluggish economy and what the federal government can do to help Michigan weather it was on Gov. William Milliken's agenda today at a meeting with President Nixon.

Milliken was scheduled to fly to Washington to present Nixon with a resolution adopted by the Midwestern Governors Conference and the National Governors Conference, supporting the creation of a national clearing house for registering and monitoring chemicals released into the environment by industry.

But Milliken said before he left he would also consult the President on a bulging portfolio of topics affecting Michigan, including primary means by which the federal government could ease the adverse impact the nation's downturned economy has on Michigan.

He also said he wanted to make several specific requests for youth employment programs, manpower training public works projects, housing and transportation.

He said he hoped he and the President could exchange views and talk about possible solutions to America's drug scene.

More people get more news from newspapers than all other sources combined.

## District Court

Robert E. Miller, Holmes Beach, Fla., paid a \$10 fine and \$9 costs after pleading guilty to fishing without a license.

Michael B. Rose, Kenosha, Wis., pleaded guilty to fishing without a license and paid a \$10 fine and \$9 costs.

Patrick J. Morrow, 301 S. 16th St., pleaded guilty to being a minor in possession of alcoholic beverages and paid a \$15 fine and \$7.50 costs.

David L. Brunette, 1423 N. Lincoln Rd., was sentenced to seven days in the Delta County Jail after he was found guilty of violating probation.

## Hospital

Mrs. Alfred Derusha of 119 N. 10th St. is a medical patient at St. Francis Hospital. Her room is 240.

# NOTICE OF REGISTRATION

## 'Regular' Haircut In Country Short Item

By WILLIAM CHAZE

JONESBORO Ga. (AP) — A word to the man who likes his locks a trifle long: Don't sit down in a country barber shop and order a "regular haircut" and expect to remain fashionably shaggy.

The country barber's conception of a regular haircut stops just a hair short of a scalping. The product is instant generation gap.

I stopped off a few days ago in a small community south of Atlanta for a soft drink at a service station. I needed a haircut and decided, in a spasm of daring, that the small, one-chair barber shop down the road would be equal to the task.

The shop was colorfully rustic with year-old copies of The Police Gazette and detective magazines on the rack, a yellowing motor oil calendar on the wall, ragged carpet on the floor and the barber—himself indifferently barbecued—dozing fitfully in his patched leatherette chair.

Throwing caution to the wind, I woke him and ordered the \$1.25 regular special which, according to the chart on the wall, was a general shortening. He told me I looked like a man whose tastes in reading material were more lofty than Gatzette. He produced a tattered Zane Grey western and said the courthouse crowd had read it several times.

Then the barber nudged me into the chair, wrapped a kitchen towel around my neck and began his labors. My hair was

moderately long and the barber squinted at it reproachfully.

He began snipping away with a rusty-looking pair of scissors.

"Regular haircut, eh?" he said, then cackled.

All the while the clippers were roaring in my ears. There was no mirror in front of me but a fearful amount of hair fell onto the towel and through a hole onto my shirt front.

As I turned page six of the novel, the barber suddenly stood back and angrily rapped his clippers against the washbowl. "Clogged 'em with hair, darn it," he exclaimed. "Weren't made for this long hair of today."

A few minutes later he was finished. He looked a bit worried.

"You did say regular, right?" he asked. His face brightened when I repeated the order.

He held up a hand mirror in front of me. He had left perhaps an inch of hair on top but the sides were short and clean. Nothing was there except for stubble, like a five o'clock shadow on the sides of my head. I felt weak.

"I'll do better next time," said my friend. "Takes me one or two haircuts to learn a head. Yours is bumptier than most, as you can see now. I must admit, though, that's not a bad one for a starter."

My coworkers have been kind about the haircut.

The boss tried to cheer me by saying that a year from now, a haircut like mine will be in style. Nice fellow.

## State Trooper's Quick Thinking Stops Mishap

MONROE (AP) — State Trooper Douglas Kennedy took his training with him on vacation.

It earned him the commendation of Gov. William Milliken, who praised Kennedy for his "courage and quick action in the face of extreme emergency."

The governor, who personally commended Kennedy at Monroe County Fair Saturday, said he learned of the trooper's deeds from a letter from a South Carolina man.

Charles Taylor of Georgetown, S.C., said Kennedy's action prevented a traffic accident which could have claimed the lives of Taylor and three members of his family.

Taylor said that his car's brakes went out in the Great Smoky Mountains between Murphy and Andrews, N.C., last month and his car sped down a hill.

He said that Kennedy, who was on vacation, was in car ahead and realized what was happening to the Taylor car.

Kennedy adjusted the speed of his car to that of the runaway vehicle and then let it ram into his rear bumper. Kennedy then applied his brakes, bringing both cars to a halt.

Kennedy, stationed with the Erie Post, resides at Samaria in Monroe County. He is married and the father of four children.

## Minnesotan Wins Ironwood Marathon

IRONWOOD — A 26-year-old Minnesotan came from behind to upset favored Jay Dirksen and shave 7½ minutes from Dirksen's record time last year to win the second annual Paavo Nurmi Marathon Saturday.

Bruce Mortenson, Minneapolis, running for the Twin-City Track Club pounded across the finish line on Hurley's famed Silver St. at 10:25 Saturday, 2:25; .02.8 after he left the starting line at Upson—26 miles and 385 yards to the west.

Dirksen, last year's winner, jumped to an early lead but suffered a painful cramp in his side at the 14-mile mark and Mortenson pulled ahead and maintained his lead all the way to the finish line.

Perfect weather conditions prevailed for the race, despite a murky start under overcast skies following a downpour that began late Friday night and continued through the early morning hours Saturday.

Pataunaude, who experienced a harrowing four-day bus journey here from his home in Canada, complimented the Hurley Chamber of Commerce and officials of the Olympia Sports Village for a fine course.

Pataunaude said, "This was better than the Boston Marathon."

Mortenson turned in the best time he had ever run, completing the circuit four minutes faster than his previous best time.

Mortenson almost sprinted the last two miles, covering the course in slightly over 10 minutes.

## Briefly Told

Senior Citizens of Christ the King Lutheran Church will meet Tuesday at 10 a.m. at the church. Members and friends are invited.

The Delta County Building will be closed Thursday afternoon because of Delta County Day at the U.P. State Fair. The offices will be open until 12 noon on that day.

Holy Name Band members will meet Tuesday, Wednesday and Thursday at 6 p.m. at the high school. Members are to bring their instruments.

James Boushard, 59, Green Bay, Wis., was arrested by the State Police Sunday at 6:25 p.m. and charged with driving under the influence of liquor.

Lemmer School Safety Patrol students are to report to the grandstand area on Tuesday at 10:45 a.m. when Louis Diedrich, Lemmer School principal, will distribute Safety Patrol Fair tickets.

Persons having reserved seats for the Green Bay Packers-Buffalo Bills exhibition football game at Green Bay Sept. 12 today were asked by Chamber of Commerce officials to pickup their tickets at the building in Escanaba.

State Police reported that three area youths were arrested at 2:15 a.m. Sunday and charged with being minors in the whereabout and activities of Collins on July 23, 1969, the day the murder victim, coed Karen Sue Beineman disappeared.

Before the reading of Davis's testimony began, two motorcyclists were identified as belonging to Collins were removed from the courtroom.

Seven minutes after the bespectacled Mortenson loped over the finish line to the cheers of the large throng lining both sides of Silver St. and the ruffles and flourishes played by the Iron County Ambassadors Drum and Bugle Corps.

Norm Pataunaude of Victoria, British Columbia strode in to take second place with a time of 2:32; 45.

Close behind Pataunaude came a tightly-packed bunch led by Peter Farwell, Northbrook, Ill. at 2:33:05; Hag Higdon, Michigan City, Ind.; Dirksen and Larry Potinen.

Perfect weather conditions prevailed for the race, despite a murky start under overcast skies following a downpour that began late Friday night and continued through the early morning hours Saturday.

Pataunaude, who experienced a harrowing four-day bus journey here from his home in Canada, complimented the Hurley Chamber of Commerce and officials of the Olympia Sports Village for a fine course.

Pataunaude said, "This was better than the Boston Marathon."

Mortenson turned in the best time he had ever run, completing the circuit four minutes faster than his previous best time.

Mortenson almost sprinted the last two miles, covering the course in slightly over 10 minutes.

## Jury Demanding Another Re-Run In Collins Case

ANN ARBOR (AP) — The jury in the John Norman Collins murder trial interrupted its third day of deliberation today to ask that testimony of Collins' former roommate be re-read to it.

The six men and six women on the jury panel resumed their efforts to seek a verdict at 8:30 a.m. today and two hours later notified the court they wanted to hear again excerpts from the testimony of Arnie Davis, Collins' fraternity brother and former roommate at an Eastern Michigan University boarding house.

It marked the sixth witness whose testimony was read again to the jury at its request. Much of Davis's testimony concerned the whereabouts and activities of Collins on July 23, 1969, the day the murder victim, coed Karen Sue Beineman disappeared.

Before the reading of Davis's testimony began, two motorcyclists were identified as belonging to Collins were removed from the courtroom.

## Birth Records

Delta County Clerk William E. Butler today urged all parents of children entering kindergarten this fall to get birth certificates for their children as soon as possible.

Butler said that phone orders for certificates will be accepted and certificates will be made to be picked up on specified dates.

The County Clerk's office is open Monday through Friday from 8 a.m. to 12 noon and 1 p.m. to 4 p.m.

## Familiar Names, Faces Disappear On Wall Street

Ecc. Merchants 6, Paper Mill 1

Ecc. Merchants 8, Flat Rock 3

Ecc. Merchants 18, Goebel 4

Paper Mill 1, Flat Rock 0 (9 Innings)

Veteran Bill McGovern setted four hits and fanned eight as the Escanaba Merchants came out of the losers bracket to win four straight games. McGovern blanked the Escanaba Paper Mill 8-0 Sunday night at the Memorial Field, as his team took top honors in the Class A-B-C District softball tournament.

With the Class A title under their belts, the Merchants will now advance to the U.P. Class A tournament in Ishpeming Friday, Aug. 21, against the top team from the Copper Country, Houghton Bosch, which comes into the meet with an outstanding record of 33 wins against only 3 setbacks for the year.

The runner-up Papermakers will be participating in the U.P. Class B tournament and as of today are facing a team that has yet to be determined.

Flat Rock and Goebel will represent Escanaba in the Class C tournament at Steamboat with both teams swinging into action on Saturday, Aug. 20. Flat Rock will meet a familiar foe in the first game on Thursday night playing Blue Lakes Tire of Neoguineas, a team that was runner-up to Wisconsin National Life in the

## Michigan Pair Wins Skate Title

LINCOLN, Neb. (AP) — Ron and Gell Robovitsky, a brother-sister team from Troy, Mich., turned in a near-perfect performance to win the mixed pairs title Sunday night at the 18th World Roller Skating championships at Pergow Auditorium.

Ron, 21, and his sister, 18, totaled 55 points to add the world title to the national crown they had won earlier in the week.

They have been skating together ten years.

They replaced Jack Courtney and Sherry Trueman of Marion, Ind., as title holders. Courtney and Miss Trueman were the crown at the last world championships two years ago at Vigo, Spain, and the Robovitsky pair finished second.

The Robovitsky's received a 5.9 rating on the 6 point scale from six of the seven judges. Their other score was 5.8.

Second place went to the national champions of Great Britain, Richard Hall and Michelle Chapman, with 50.8 points.

## EMU Guard Quits Green Bay Club

GREEN BAY, Wis. (AP) — Green Bay Packer Coach Phil Bengtson announced today that rookie offensive guard Bob Lantz a 14th round draft choice from Eastern Michigan, has quit the team.

Lantz gave no reason for his withdrawal from pro football, Bengtson said.

**SETS COLORADO MARK**  
MERRINO, Colo. (AP) — Marino high in Northeast Colorado set an all-time high for prep basketball victories in Colorado with 43 straight over two seasons. Marino high then stretched its victory streak to 44 in a row while winning its second consecutive Class A state title.

Escanaba Invitational Softball Tournament this past summer. Goebel will make its debut at 7:30 on Thursday, meeting the Iron Mountain No. 8 team.

Escanaba Merchants scored more than enough runs to win the championship in the first inning against the Papermakers when the champions tallied three times.

Bill Goodreau started things off for the Merchants with one out when he lined a single to centerfield. Bob Corriveau then connected for a single. With two out, Don Martinus singled, scoring Goodreau with the first run of the game. Jim Morin then followed by hitting a double, putting the Merchants out front 3-0.

Merchants continued their assault in the third when Jan Morin hit a grand-slam homer that all but wrapped up the game for the Merchants.

## Midland Wins Legion Games

MANISTIQUE (AP) — Midland then went on to beat previously undefeated Detroit Redison Sunday to force the American Legion double elimination tournament play into a final game today.

In Sunday's opener, Midland put together a pair of walks, a bunt single, a delayed steal home, and a sacrifice fly for their 10th inning winning runs. Ypsilanti pitcher Steve Rhoden allowed only three hits in the 11 innings he pitched (the most allowed by a pitcher in tournament play). The score was tied 3-3 going into the 14th.

In the day's finale, Midland's Steve Lange, starting for the first time in six weeks, pitched a five-hitter and struck out eight to defeat Detroit.

The winner of the Midland-Detroit contest today advances to the American Legion regional tournament at Canton, Ill., to be held the week of Aug. 25.

## Clark Scores Hole-in-One

Mrs. Mary Clark, daughter of Ernie Flott of Escanaba, playing at the Highland Club Saturday, had a hole-in-one on the 185 yard, par 3, 16th hole, using a four wood.

Mary was playing with her sister, Linda Flott and her father, Ernie. Her father remarked that he has been golfing for over 40 years and still hasn't had a hole-in-one, but one of these days...

Bob Corriveau, right fielder for the Merchants, put the final touches on the Merchants' championship by hitting a two-run circuit in the fourth.

Veteran Toddy Butler, who struck out 11 Merchants, took the defeat for the Papermakers.

In a semi-final game, the Merchants gained revenge for their only loss in the tourney to the Paper Mill by stopping the Papermakers 6-3 behind the eight-hit pitching of Tony Derkos.

Jan Morin and Al Erickson carried big bats for the Merchants with each batting homers.

In other semi-final games, Bill McGovern, who won three games for the Merchants, stopped Flat Rock 5-3 on a 10-hitter while Bill Smith, who tossed an eight-hitter for Flat Rock, took the defeat. Wally Flath led the winners with a homer while Smith and Jim Michaud paced Flat Rock with three hits apiece.

The Merchants broke the game wide open against Goebel's in the fourth inning by scoring nine times and won their first game of the tourney 13-4. McGovern again picked up the mound decision by tossing a four-hitter in the five-inning affair.

Cliff O'Donnell homered for the Merchants while Greg Johnson connected for Goebel's.

In one of the best pitching duels of the year, Toddy Butler and the Papermakers edged Flat Rock and Bill Smith 1-0 in nine innings on Saturday. The score was tied 3-3 going into the 14th.

In the day's finale, Midland's Steve Lange, starting for the first time in six weeks, pitched a five-hitter and struck out eight to defeat Detroit.

The winner of the Midland-Detroit contest today advances to the American Legion regional tournament at Canton, Ill., to be held the week of Aug. 25.

## Clark Scores Hole-in-One

Mrs. Mary Clark, daughter of Ernie Flott of Escanaba, playing at the Highland Club Saturday, had a hole-in-one on the 185 yard, par 3, 16th hole, using a four wood.

Mary was playing with her sister, Linda Flott and her father, Ernie. Her father remarked that he has been golfing for over 40 years and still hasn't had a hole-in-one, but one of these days...

THE ESCANABA MERCHANTS (top) receive the Class A District softball championship trophy from Clarence Konas, tournament manager, after the Merchants upended the Paper Mill in the final game. The team members are Bill McGovern, Tony Derkos, Wally Flath, Bill Goodreau, Keith Gluesing, Bob Corriveau, Don Martinus, Jan Morin, Al Erickson, Cliff O'Donnell and Manager Denny Moreau. Bottom photo shows the Papermakers Manager Bob Wellman receiving the Class B trophy from Konas. The Papermakers are Todd Butler, John Martinac, Bill Curtis, Mike Sgouros, Rick Taylor, Ron Smith, Mike LaFleur, George Martinson, Buck DeMentier, Rick Lancer, Dick Ruska, Harold Anderson, John Vanderville and Dave Elliot.

Beaten By Fort Des Moines, Iowa 5-3

## Manistique Little Leaguers Bowed Out Like Champions

DES MOINES, Iowa — The bid of the Manistique Little League team to become the second Upper Peninsula baseball team ever to reach the Little League World Series at Williamsport, Pa., ended here Saturday.

After eight straight victories in the tournament, Manistique fell 8-3 to Fort Des Moines, Iowa.

A victory would have sent

Manistique to the Central States Regional tournament at Kokomo, Ind., this week and brought the team to within two more victories of a spot in the World Series. The only U.P. team ever to reach the World Series was the 1937 team from Escanaba.

As it is, Fort Des Moines will get the opportunity as Manistique was unable to overcome the Iowa team's 5-0 lead

fashioned in the first three innings.

Pitcher Jim Lankford put the winners ahead 1-0 with a first inning homer, but it was the three-run second inning that was decisive.

And the damage all came after two were out.

Davidson singled to lead off the inning and stole second, but Manistique's Jay Ketek disposed of the next two hitters before Wyon doubled to score Davidson. Wyon, who had

three hits in the game, moved to third as Fouts was safe on an error at first base, putting runners on first and third.

Mac Pergola of the Bears missed all three of his field goal attempts (35, 23 and 42 yards) besides an extra point that could have been the winning point. Lustig missed his first attempt from the 33 and Lustig missed from the 28 and 22.

"Boeing Like Crazy" Lustig, however, felt the full voice of the fans' displeasure when he lined up his angle field goal attempt.

"They were boozing like crazy," he said, "and it gave me kind of a lousy feeling but there's nothing I can do but kick. I knew it was good when I laid into it."

Lee Roy Caffey, former Packer linebacker now with the Bears, said: "What else could they do? They weren't running on us all night and with only 10 seconds left, it was the right call."

The 8-8 deadlock was the second straight for the Packers, who last week rallied to tie the New York Giants, 31-31. Tie games are the result of an equal number of mistakes by both teams.

The hidden error in the Packers' offense was the failure of Dave Hampton and rookie Ken Ellis to hand any of Booby Joe Green's punts. As a result, the Chicago kicker averaged 38 yards on five punts, eliminating good field position for the Packers.

"That was the darnest thing I've seen," Bengtson said about Hampton and Ellis misjudging Green's punts. "Sure, he's a great punter. But a 38 yard average? That's ridiculous."

Even veteran Willie Wood, who replaced Ellis on a third quarter return, had trouble.

"We told Willie to do nothing but call for a fair catch," Bengtson recalled. "He catches the ball, runs and fumbles."

48 Yards Per Game

It was not a good night for place kickers, either, although Green Bay scored all its points

on a 48 yard field goal by Joe Runk in the third quarter and Lustig's pressure kick from the 12.

Mac Pergola of the Bears missed all three of his field goal attempts (35, 23 and 42 yards) besides an extra point that could have been the winning point. Lustig missed his first attempt from the 33 and Lustig missed from the 28 and 22.

Both Bengtson and Coach Jim Dooley of the Bears said the high grass was a definite factor in that it concealed too much of the ball when it was placed down. Apparently, the groundskeeper felt a high turf would hold up better to the beating of a football game with baseball returning the next afternoon.

Percival, however, blamed himself. "I just wasn't hitting it," he said. "It was the kind of game that gives you nightmares."

The Chicago specialist said Jack Conneron fumbled the snap from center that cost the Bears that vital extra point.

Bengtson noticed the kickers were having trouble during the pregame warmup and said he debated whether to let Runk try his 48 yarder, that was good.

The Chicago thorn in the Packers' side, according to Bengtson, was middle linebacker Dick Butkus.

"Any defense with Butkus in the middle will be difficult to run against," Bengtson said of the Packers' 66 total yards on the ground. "He's fantastic. We had one screen pass working against him and on the next one he kills (Perry) Williams for a seven yard loss."

Caffey said he "busted his arch" on the second play of the game chasing Donny Anderson but Anderson said: "I won't know how he could have done that because he didn't have to chase me very far."

Indeed, he didn't. Anderson

indeed, gained 7 yards in 7 attempts.

## Stockton Snare First PGA Title

TULSA, Okla. (AP) — Young Dave Stockton of Westlake, Calif., is the new PGA champion because he believed in a dream and refused to be shaken by an antagonistic Arnie's Army.

"I came here with a positive attitude," the good looking, 28-year-old professional's son said after collecting the \$40,000 first prize Sunday and crushing Arnold Palmer's bid for the only major title he hasn't won.

"All week I thought about how I'd play the 18th hole if I came down to it with a two-stroke lead—I really felt it would happen."

Had 3 Stroke Lead

Stockton came to the final hole of the 72-hole championship with a three-stroke lead and refused to be swayed by an eagle deuce.

"Burv it in the sand, Davey."

"Shank it," another screamed.

Stockton sank the short pitch shot for an eagle deuce.

"At the tough 13th, Stockton's jinx hole throughout the tournament, Dave dumped his second into the lake and heard one of the Army scream: 'Yahoo! Go get him now, Arnie!'

"That really burned me up,"

Stockton said. "I wanted to sink my chip shot just for spite. I told myself if I did I would take the ball and crawl it down that guy's throat."

Great Shot

Stockton almost holed out with a magnificent chip which he said saved the tournament for him. The ball stopped less than a foot from the hole.

Stockton then sank long putts

on the 16th and 17th and played conservatively short on the 18th to preserve his edge.

He said tears welled up in his eyes when he saw his wife, Kathy, standing near the 18th green and he didn't think he would be able to put it out. But he did, after his caddie handed him a towel to wipe his face.

Played With Palmer

Stockton played in the final twosome with Palmer, who is out," he said afterward.

## Twins Snap Jinx; Rip Red Sox 9-6

By The Associated Press  
The go-go power had gone to the Minnesota Twins' hitting machine... and MacGregor Bill Rigney was seeing double.

"Hitting's been the big problem... and for that matter, so has our pitching," said a distracted Rigney, his team stuck in a nine-game losing slide before Sunday's game at Boston.

But all bad things come to an end sooner or later—and Minnesota's Twin-barreled offense suddenly was switched on, turned on... and out of sight.

Typical Pastime

The Twins broke out in typical fence-busting fashion with four homers that beatened Boston 9-6 in a free-swinger at Fenway Park.

The victory boosted Minnesota's West Division American League lead to 4½ games over Oakland, which lost 5-1 to Baltimore.

"Well, we've managed to make a race out of the West Division," said Rigney, who had good reason to crow happily.

The Twins had a 10-game lead over second-place California on Aug. 8, before the start of the Great Skid. Oakland got hot and won six of eight, took over second and had a .500 mark.

Gus Gil drove in Roberto Pena with a ninth inning single that the "Brewers" won their fourth, one-run game in a row.

Pena worked a walk off Dennis Higgins to open the ninth and was sacrificed to second

# Merchants Class A Champs, Face Bosch

Esc. Merchants 13, Goebel 4

Paper Mill 1, Flat Rock 0 (9 Innings)

Veteran Bill McGovern scattered four hits and fanned eight as the Escanaba Merchants came out of the losers bracket to win four straight games. McGovern blanked the Escanaba Paper Mill 9-0 Sunday night at the Memorial Field as his team took top honors in the Class A-B-C District softball tournament.

With the Class A title under their belts, the Merchants will now advance to the U.P. Class A tournament in Ishpeming Friday, Aug. 21, against the top team from the Copper Country, Houghton Bosch, which comes into the meet with an outstanding record of 33 wins against only 3 setbacks for the year.

The runner-up Papermakers will be participating in the U.P. Class B tournament and as of today are facing a team that has yet to be determined.

Flat Rock and Goebels will represent Escanaba in the Class C tournament at Stambaugh with both teams swinging into action on Thursday, Aug. 20. Flat Rock will meet a familiar foe in the first game on Thursday night playing Blue Lakes Tire of Negaunee, a team that was runner-up to Wisconsin National Life in the

## Michigan Pair Wins Skate Title

LINCOLN, Neb. (AP) — Ron and Gail Robovitsky, a brother-sister team from Troy, Mich., turned in a near-perfect performance to win the mixed pairs title Sunday night at the 15th World Roller Skating championships at Pershing Auditorium.

Ron, 21, and his sister, 19, totaled 82 points to add to the world title to the national crown they had won earlier in the week.

They have been skating together ten years.

They replaced Jack Courtney and Sheryl Truemann of Marion, Ind., as title holders. Courtney and Miss Truemann won the crown at the last world championships two years ago at Vigo, Spain, and the Robovitsky pair finished second.

The Robovitskys received a 5.9 rating on the 6 point scale from six of the seven judges. Their other score was 5.8.

Second place went to the national champions of Great Britain, Richard Balls and Michelle Chapman, with 78.5 points.

## EMU Guard Quits Green Bay Club

GREEN BAY, Wis. (AP) — Green Bay Packer Coach Phil Bengtson announced today that rookie offensive guard Bob Lints, a 14th round draft choice from Eastern Michigan, has quit the team.

Lints gave no reason for his withdrawal from pro football, Bengtson said.

**SETS COLORADO MARK**  
MERINO, Colo. (AP) — Merino High in Northeastern Colorado set an all-time high for prep basketball victories in Colorado with 42 straight over two seasons. Merino High then stretched its victory skein to 44 in a row while winning its second consecutive Class A state title.

Call 517-764-2153

Escanaba Invitational Softball Tournament this past summer.

Goebels will make its debut at 7:30 on Thursday, meeting the Iron Mountain No. 2 team.

Escanaba Merchants scored more than enough runs to win the championship in the first inning against the Papermakers when the champions tallied three times.

Bill Goodreau started things off for the Merchants with one out when he lined a single to centerfield. Bob Corriveau then connected for a single. With two out, Don Martineau singled, scoring Goodreau with the first run of the game. Jan Morin then followed by hitting a double, putting the Merchants out front 3-0.

Merchants continued their assault in the third when Jan Morin hit a grand-slam homer that all but wrapped up the game for the Merchants.

In other semi-final games, Bill McGovern, who won three games for the Merchants, stopped Flat Rock 5-3 on a 10-hitter while Bill Smith, who tossed an eight-hitter for Flat Rock, took the defeat. Wally Flath led the winners with a homer while Smith and Jim Micheau paced Flat Rock with three hits apiece.

The Merchants broke the game wide open against Goebels in the fourth inning by scoring nine times and won their first game of the tourney 13-4. McGovern again picked up the mound decision by tossing a four-hitter in the five-inning affair.

Cliff O'Donnell homered for the Merchants while Greg Johnson connected for Goebels.

In one of the best pitching duels of the year, Toddy Butler and the Papermakers edged Flat Rock and Bill Smith 1-0 in nine innings in the first game on Saturday.

Butler fanned 14 batters and allowed two hits while Smith struck out nine and gave up five hits.

## Beaten By Fort Des Moines, Iowa 5-3

# Manistique Little Leaguers Bowed Out Like Champions

DES MOINES, Iowa — The bid of the Manistique Little League team to become the second Upper Peninsula baseball team ever to reach the Little League World Series at Williamsport, Pa., ended here Saturday.

After eight straight victories in the tournament, Manistique fell 5-3 to Fort Des Moines, Iowa.

A victory would have sent

Manistique to the Central States Regional tournament at Kokomo, Ind., this week and brought the team to within two more victories of a spot in the World Series. The only U.P. team ever to reach the World Series was the 1957 team from Escanaba.

As it is, Fort Des Moines will get the opportunity as Manistique was unable to overcome the Iowa team's 5-0 lead

fashioned in the first three innings.

Pitcher Jim Lankford put the winners ahead 1-0 with a first inning homer, but it was the three-run second inning that was decisive.

And the damage all came after two were out.

Davidson singled to lead off the inning and stole second, but Manistique's Jay Ketcik disposed of the next two hitters before Wyon doubled to score Davidson. Wyon, who had

son's fly was caught near the fence in center field.

Manistique's team returned home Sunday and more than 1,000 fans turned out to welcome them home. As signs and banners were waving from Cooks to Manistique. One sign read: "Cookes is proud of you, you are still champs in our books," which resembles the feelings of the entire area.

## LL Team Advances

MAUMEE, Ohio (AP) —

South Farmington, Mich.,

has won the right to compete in the National Little

League Divisional Play-off

in Kokomo, Ind.

The baseball team won the

honor by defeating East Liver-

pool, Ohio, 3-2 Saturday as

Dave Duelle won his 23rd

straight game.

Mac Percival of the Bears

missed all three of his field

goal attempts (35, 23 and 42

yards) besides an extra point

that could have been the win-

ning point. Lusteg missed his

first attempt from the 32 and

Runk missed from the 28 and

22.

Both Bengtson and Coach

Jim Dooley of the Bears said

the high grass was a definite

factor in that it concealed too

much of the ball when it was

placed down. Apparently, the

groundkeeper felt a high turf

would hold up better to the

beating of a football game with

baseball returning the next af-

ternoon.

Percival, however, blamed him-

"I just wasn't hitting it," he said. "It was the kind of a game that gives you night-

mares."

The Chicago specialist said

Jack Concannon fumbled the

snap from center that cost the

Bears that vital extra point.

Bengtson noticed the kick-

ers were having trouble during

the pregame warmup and said he debated whether to let

Runk try his 43 yarder, that was good.

Manistique struck back in the

fourth inning as Jim Nelson

singled, Ketcik singled and Jeff

Miller doubled for two runs.

Miller's bases empty homer in

the sixth made the final score

5-3.

Manistique also threatened in

the fifth inning as Burt Chan-

dler reached base on an error

and John Ozanich walked, but

Jack Weber struck out and Nel-

son's fly was caught near the

fence in center field.

Manistique's team returned

home Sunday and more than

1,000 fans turned out to wel-

come them home. As signs and

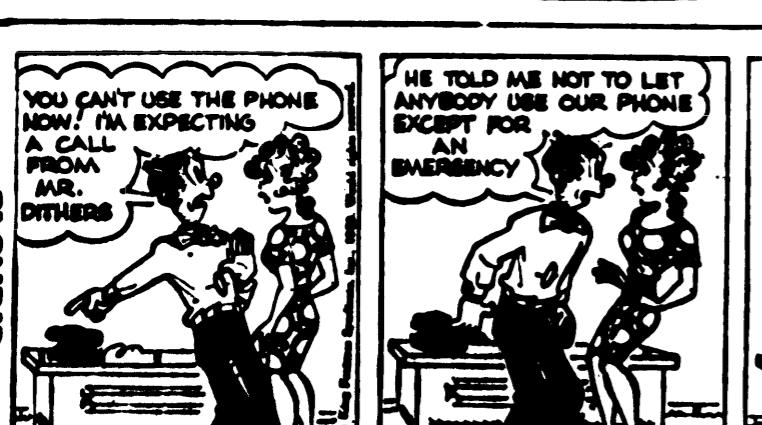

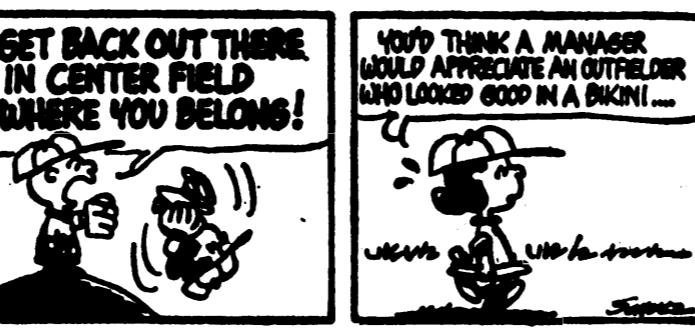

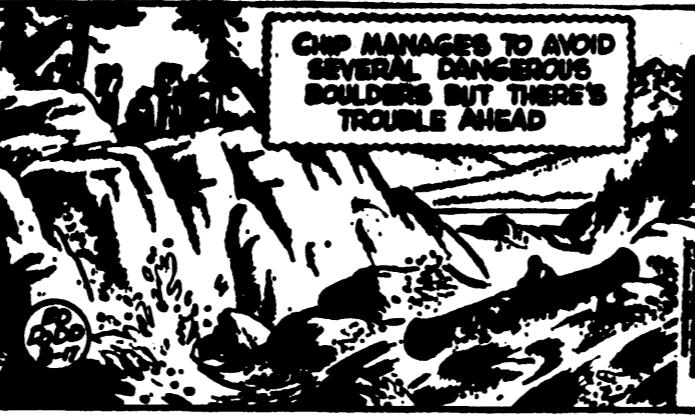

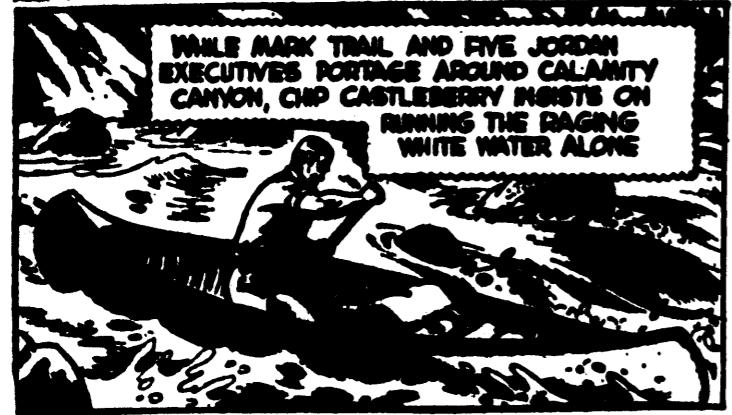

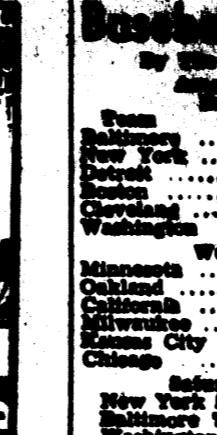

banners were waving from

Cooks to Manistique. One sign

read: "Cookes is proud of you,

you are still champs in our

**Another Paper In Wisconsin Calls It Quits**

OSHKOSH, Wis. (AP)—The Paper for Central Wisconsin, one of Wisconsin's three morning newspapers, announced Saturday it will cease daily publication and become a twice-weekly, free distributed newspaper.

It was the second Wisconsin morning paper in two months to discontinue daily publication. The Eau Claire Leader withdrew from the morning field and was replaced by the Leader-Telegram which now publishes three afternoon editions.

The Paper, with a paid circulation of 23,581 in central Wisconsin, made its surprise announcement in Saturday morning's editions.

The announcement by co-publishers Alberta Kimball and Ted Leyhe said that effective immediately the paper would be published Wednesday and Sunday mornings. It will be distributed free to 36,330 families in Oshkosh, Neenah-Menasha, Ripon, Berlin, Green Lake and other towns in the Oshkosh trade area.

"Subscribers who paid in advance will receive a refund next week," the announcement said. "Publication dates will meet the growing need for local advertising media."

Neither of the publishers were available for comment, but editor Raymond Moucha said the decision to withdraw from the daily field was "well thoughtout, deliberate, and dictated by economic reasons."

Moucha said the news staff consisting of 35 full-time and six part-time employees would be reduced to two. The paper will carry about two pages of news copy, he added.

The Paper, which began publication Oct. 8, 1967, was the winner of numerous awards for excellence in typography, color and photography.

Its withdrawal from the daily field leaves Wisconsin with only two morning papers, the Milwaukee Sentinel, published daily except Sunday by the Journal Co., and the Wisconsin State Journal, published at Madison daily, including Sunday.

**Flier Injured**

WATERFORD TOWNSHIP (AP)—Joan P. Coppers, 33, of Lansing, was reported in critical condition at Pontiac General Hospital today, where she was taken after her single-engine plane crashed on approach to the Lake Angelus Airport in Waterford township Sunday.

Authorities said the plane was heavily damaged.

## MANISTIQUE

### Police Seeking 'Runaway' Girls

Two 16-year old runaway girls are being sought by Michigan State Police. The girls left Fayette State Park, where they were camping with their parents, about 1 p.m. Thursday and were later reported hitchhiking on County Rd. 483, between Fayette and Garden, police said.

The girls, both from Battle Creek, were identified as Paula Glasmeyer and Helen Love. Anyone having information on their whereabouts should contact the Manistique Post of the Michigan State Police.

"Paula is 5-5 ft. tall, has brown eyes and light brown hair and weighs about 106 pounds. She was wearing blue jeans and a striped t-shirt. Helen is 5-6 ft. tall, brown eyes and light brown hair and weighs about 120 pounds. She was wearing a pink t-shirt and tan jeans."

The girls' families left Saturday morning to return to their homes in Battle Creek, troopers said.

### Lesica Given Army Medal

Sgt. Major Lesica received Army Commendation Medal for demonstrating outstanding professional competence, inspiring leadership and administrative excellence in the performance of his duties with his discharge from the U.S. Army. The son of Mr. and Mrs. Ferdinand Lesica, 536 Park Ave., recently completed a 12-month duty tour in the Republic of South Korea. He held an Adjutant General staff position in Uijeongbo, about 15 miles south of Seoul.

A 1968 graduate of the University of Michigan, he received his commission through the Reserve Officer Training Corps program. He will enroll in the University of Michigan Law School on Aug. 20.

### Hospital

Admitted to Schooncraft Memorial Hospital Friday were Steven Harry, Howard Goss, Dennis Niedens, Patricia Heinz and Zitter Backus.

Discharged were James Whiting, Lydia Klaudie, Charles Kene, Leona Riverd and Mary Kettner.

### Births

BERRY—A daughter, weighing six pounds and twelve ounces, was born to Mr. and Mrs. Roger Berry, Engadine, on Friday, August 14, at the Schoolcraft Memorial Hospital. The mother is the former Dawn Lee Kempf.

### NOTICE OF MEETING

The annual meeting of the Indian Lake Property Owners Association will be held Wednesday, Aug. 19 at 7:30 p.m. at the Hiawatha Township Hall (old Maple Grove School).

## Milliken 'Defeathers' Goose Lake Festival

LANSING, Mich. (AP) — Claiming that young people are being victimized by huckster drug pushers, Michigan Gov. William Milliken Sunday night assured Michigan residents there would be no recurrence of rock festivals similar to the one held last week at Goose Lake Park.

His speech was carried over many Michigan television and radio stations in an address Milliken called unprecedented.

### Drug Sales Banned

Selling of drugs at the 300-acre park near Jackson, Mich., was open and widespread, Milliken said. Over 300 persons were arrested outside the park during the three-day event, with more arrests coming later from information obtained there by plainclothes police. Milliken said some major drug pushers were among those arrested.

Milliken said that authorities estimate that more than half of the 150,000 persons attending the event used drugs. Other estimates have placed the crowd as high as 300,000. Milliken said it was "this open and flagrant violation of the law" that has led him to ask his legal advisors to work with Jackson County officials in preventing a similar festival originally scheduled over the Labor Day weekend.

### Rape Drug Abuse

While he said rock festivals themselves were not objectionable, "if we can't have them without drug abuse, we won't have them at all," he said.

Promoters of the park last week expressed dismay over the drug problem that had developed and promised to shorten the event to a one day rock show.

Nevertheless, Milliken's statement indicated that even the one day event would be fought. "We need additional time to develop safeguards," he said.

In outlining the steps he and state officials have taken to deal with the problems of large gatherings of people, Milliken said his aides were drafting a "tough but fair" ordinance which could be adopted by local governments to protect themselves.

Milliken said he would discuss the problems of narcotics with President Nixon when he meets him today in Washington.

Drug Problem Alred

The governor made his address after meeting with law enforcement officials with whom he discussed the problems of drug abuse and the Goose Lake Rock Festival.

In addition, they prepared

testimony for a legislative hearing on Goose Lake today.

The governor said every resource of the state would be used to prevent the young from being victimized by drug sellers. Milliken also said in his speech that the federal government has given the state the deed to the Marine Hospital in Detroit. The governor said it would be used to provide drug treatment for persons throughout Michigan.

**Not Enough Officers**

Uniformed law enforcement authorities did not enter the Goose Lake Park during the rock festival, Milliken said. The decision not to do so was based on the assumption that such a move would almost certainly have resulted in bloodshed. He also said "we knew there weren't enough police officers to do the job."

Milliken said that authorities estimate that more than half of the 150,000 persons attending the event used drugs. Other estimates have placed the crowd as high as 300,000. Milliken said it was "this open and flagrant violation of the law" that has led him to ask his legal advisors to work with Jackson County officials in preventing a similar festival originally scheduled over the Labor Day weekend.

We don't want to deny the constitutional rights of assembly but we can beef up legal protection and that's exactly what we are doing," he said.

"Mass rock festivals are such a new phenomenon on the American scene that methods of policing them or controlling the size of the crowds, or preventing illegal drug sales, or providing full medical care have not been fully developed," he said.

He said such methods are finally needed and that they are being developed by state officials now. He said that they are to submit recommendations to him within a week.

### Drug Control Plan

Milliken's seven steps to prevent drug abuse and control rock festivals included:

1. His legal adviser is supporting the Jackson County prosecutor in seeking an injunction against the scheduled Labor Day event. Local officials said they intended to prove in court the park was a public nuisance.

2. Milliken said his office and that of the attorney general is drafting a "tough but fair" ordinance which would threaten the public safety. It calls for such things as performance bonds, health measures and requirements for guards among other things.

3. The governor said Atty.

Gen. Frank Kelley has created a task force of his lawyers who would be available on an around-the-clock basis to advise local officials on meeting potentially dangerous crowd situations.

The lawyers will provide quick access to criminal laws and civil procedures.

**Would Detain Users**

4. Milliken said he is instructing state officials to develop a plan for detaining and processing large numbers of arrested persons if that should become necessary.

5. He said that state officials are working closely with federal agencies and officials in other states to halt the flow of illegal drugs. He said "well over half the people" at the Goose Lake rock festival came from out of state.

6. He said that a statute is being drafted to "regulate the holding of events of this kind."

7. He said his office is drafting a proposed amendment to the Uniform Narcotic Drug Law which would make promoters of events where drugs are used, or sold, subject to criminal prosecution. Milliken said there will be no sanctuary for drug use.

### Beyond Goose Lake

"The drug abuse problem obviously goes far beyond Goose Lake," said Milliken. "Already this year, through bipartisan cooperation, much has been done on rehabilitation as well as improved enforcement."

He listed such steps as the creation of a governor's office on drug abuse to the appropriation of more than \$1 million to improve narcotic detection capability.

"We must get at the cause of it. We must increase our efforts to rehabilitate those who have crossed over into the nightmare world of drug addiction," he said.

The governor said a major responsibility of telling about the dangers of drug abuse rests squarely on the shoulders of parents.

AIRMAN Tim A. Carley, son of Mr. and Mrs. Joel Carley of Cooks, has completed basic training at Lackland AFB, Tex. He has been assigned to Chanute AFB, Ill., for training as a fire protection specialist. Airman Carley is a 1969 graduate of Big Bay de Noc High School.

## 2 Given Tickets After Accidents

Two motorists were ticketed for improper left turns after their automobiles were involved in separate accidents on Friday, State Police said.

Carla Laux, Fayette, received her summons after her car struck a vehicle operated by Lucille Gruhl of Lansing on County Rd. 483, Fairbanks Township, Delta County, at 4:20 Friday afternoon.

Kay Ann Wagner, Star Rte., Gulliver, got her ticket at 12:05 Friday afternoon on U.S. 2, Doyle Township, after her car turned in the path of an automobile driven by Robert Orange Belcher of Ypsilanti.

Troopers also ticketed Patrick J. Cournay, Rte. 1, and Randy Diro, 304 Lake St., for littering on a public highway. The two, who will appear in District Court, were ticketed at 11:45 p.m. Friday on U.S. 2 in Doyle Township.

Cars driven by Janet Huisenga, S. Holland, Ill., and Rodney Hardesty, Rte. 3, Rapid River, sideswiped on a curve on FFH-22-24 at 11:30 Friday morning in Garden Township. An automobile operated by John Heffnerfelder, Lakewood, O., was struck in the rear by a car driven by Kenneth McQueen, Mt. Pleasant, at 2:45 p.m. Thursday on U.S. 2 in Mueller Township. No tickets were issued in either accident.

The driver of a car driven by Timothy Flynn, Escanaba, broke and scattered on an oncoming car driven by Edward Frank of Milan at 9:05 Friday morning on U.S. 2 near Cooks, troopers said. Some damage was reported to the Frank vehicle.

## Education Board Sets Special Meet

The Manistique Area Schools board of education meet in special session Tuesday night at 7:30 in the high school to discuss cost figures for converting the boilers in the high school and at Lakeside School to oil and replacing the Lincoln School boiler.

The board will also hear a report on the need for juvenile detention facilities plus reports from the health, hospital and building and grounds committees and county treasurer.

## Milliken 'Defeathers' Goose Lake Festival

LANSING, Mich. (AP) — Claiming that young people are being victimized by huckster drug pushers, Michigan Gov. William Milliken Sunday night assured Michigan residents there would be no recurrence of rock festivals similar to the one held last week at Goose Lake Park.

His speech was carried over many Michigan television and radio stations in an address Milliken called unprecedented.

### Drug Sales Hit

Selling of drugs at the 380-acre park near Jackson, Mich., was open and widespread, Milliken said. Over 200 persons were arrested outside the park during the three-day event, with more arrests coming later from information obtained there by plainclothes police. Milliken said some major drug pushers were among those arrested.

Milliken said that authorities estimate that more than half of the 150,000 persons attending the event used drugs. Other estimates have placed the crowd as high as 200,000. Milliken said it was "this open and flagrant violation of the law" that has led him to ask his legal advisors to work with Jackson County officials in preventing a similar festival originally scheduled over the Labor Day weekend.

### Raps Drug Abuse

While he said rock festivals themselves were not objectionable, "if we can't have them without drug abuse, we won't have them at all," he said.

Promoters of the park last week expressed dismay over the drug problem that had developed and promised to shorten the event to a one day rock show.

Nevertheless, Milliken's statement indicated that even the one day event would be fought. "We need additional time to develop safeguards," he said.

In outlining the steps he and state officials have taken to deal with the problems of large gatherings of people, Milliken said his aides were drafting a "tough but fair" ordinance which could be adopted by local governments to protect themselves.

Milliken said he would discuss the problems of narcotics with President Nixon when he meets him today in Washington.

### Drug Problem Aired

The governor made his address after meeting with law enforcement officials with whom he discussed the problems of drug abuse and the Goose Lake Rock Festival.

In addition, they prepared

## CUPEDD Official To Address Board

George Rusch, executive chairman of the Central Upper Peninsula Economic Development District (CUPEDD), will discuss comprehensive county planning with the Board of Commissioners during their Tuesday night meeting. The board meets at 7 p.m. in the court house.

The board will also hear a report on the need for juvenile detention facilities plus reports from the health, hospital and building and grounds committees and county treasurer.

testimony for a legislative hearing on Goose Lake today. The governor said every resource of the state would be used to prevent the young from being victimized by drug sellers.

Milliken also said in his speech that the federal government has given the state the deed to the Marine Hospital in Detroit. The governor said it would be used to provide drug treatment for persons throughout Michigan.

### Not Enough Officers

Unified law enforcement authorities did not enter the Goose Lake Park during the rock festival. Milliken said the decision not to do so was based on the assumption that such a move would almost certainly have resulted in bloodshed. He also said "we knew there weren't enough police officers to do our job."

"We don't want to deny the constitutional rights of assembly but we can beef up legal protection and that's exactly what we are doing," he said.

"Mass rock festivals are such a new phenomenon on the American scene that methods of policing them or controlling the size of the crowds, or preventing illegal drug sales, or providing full medical care have not been fully developed," he said.

He said such methods are fully needed and that they are being developed by state officials now. He said that they are to submit recommendations to him within a week.

### Lists Control Plans

Milliken's seven steps to prevent drug abuse and control rock festivals included:

1. His legal adviser is supporting the Jackson County prosecutor in seeking an injunction against the scheduled Labor Day event. Local officials said they intended to prove in court the park was a public nuisance.

2. Milliken said his office and that of the attorney general is drafting a "tough but fair" ordinance that local units of government can adopt as a protection against large gatherings which threaten the public safety. It calls for such things as performance bonds, health measures and requirements for guards among other things.

3. The governor said Atty. Gen. Frank Kelley has created a task force of his lawyers who would be available on an around-the-clock basis to advise local officials on meeting potentially dangerous crowd situations. The lawyers will provide quick access to criminal laws and civil procedures.

4. Milliken said he is instructing state officials to develop a plan for detaining and processing large numbers of arrested persons if that should become necessary.

5. He said that state officials are working closely with federal agencies and officials in other states to halt the flow of illegal drugs. He said "well over half the people" at the Goose Lake rock festival came from out of state.

6. He said that a statute is being drafted to "regulate the holding of events of this kind."

7. He said his office is drafting a proposed amendment to the Uniform Narcotic Drug Law which would make promoters of events where drugs are used, or sold, subject to criminal prosecution. Milliken said there will be no sanctuary for drug use.

Beyond Goose Lake

"The drug abuse problem obviously goes far beyond Goose Lake," said Milliken. "Already this year, through bipartisan cooperation, much has been done on rehabilitation as well as improved enforcement."

He listed such steps as the creation of a governor's office on drug abuse to the appropriation of more than \$1 million to improve narcotic detection capability.

"We must get at the cause of it. We must increase our efforts to rehabilitate those who have crossed over into the nightmare world of drug addiction," he said.

The governor said a major responsibility of telling about the dangers of drug abuse rests squarely on the shoulders of parents.

# Bay College Launches 7th Year

Bay de Noc Community College is starting its seventh year of service to the Delta County area when it opens its doors for the fall semester on August 22.

The college expects an enrollment of about 700, says Dr. Richard L. Rinchart, president.

The course offerings will be the most numerous in the history of the college.

The capacity of the college to accommodate the growing public demand for higher education and for vocational and technological instruction will also be at new highs.

The Catherine Bonifas building on North Campus will be in use, with the third to follow in the fall. This shift of operations means essentially that Bay de Noc College is enlarging its facilities and not that it is abandoning its old quarters.

#### Two Major Roles

It has need for all its facilities until the new North Campus can be developed sufficiently.

Six years of operation have now impressively justified the faith of the founders of the college, the board of trustees,

the public and the community that in "doubtful" or "not yet" days to build a great contribution to community attitudes, abilities and careers.

The college has developed two major roles of service.

Most of its students take general courses and prepare for transfer to four-year colleges and universities after two years of living at home

and attending Bay College.

The other role, vocational-technical, which can be completed in two years or less and which trains students for employment in skilled work.

Therefore in both major phases of the college are now equally and fully its students sharing in the advantages that they have attained a distinctancy in their choice made vi-

tionally and nationally.

There are many roads to success that this is one.

However the community college is the fastest growing element in higher education and there are good reasons for this. Increased enrollment will prevent the Wayne Community College eventually, with an enrollment larger than Michigan's present No. 1 educational giant, Michigan State University, with more than 40,000 enrolled.

In a time of high enrollment and high cost in education, the community college is a natural solution to big problems.

And it is uniquely suited to the new accent on vocational education—the preparation of young people for jobs. For many years the accent in Michigan's high schools has been on the interests of the students who were going on to college, even though they were a minority until recently.

The result is that the sizeable community without a college or a community college is under a serious handicap. Its people must spend much more on higher education and vocational education than if they had a local community college.

This situation has led the Michigan State Board of Education to adopt a goal of: "Everyone in Michigan in a community college district."

According to an official report from New Delhi, the Indian army was called in to maintain law and order 12 times last year, five times the year before and 24 times in 1957.

## No Life Without Water

The national campaign for environmental purity concentrates most heavily on clean water and clean air.

Bay de Noc Community College is supporting leadership for the State of Michigan in this great crusade for ecological wholeness by offering education in water purification.

Taught by a staff headed by Kenneth Maki, who came to the college from governmental employment in water treatment, the Bay program trains water technicians.

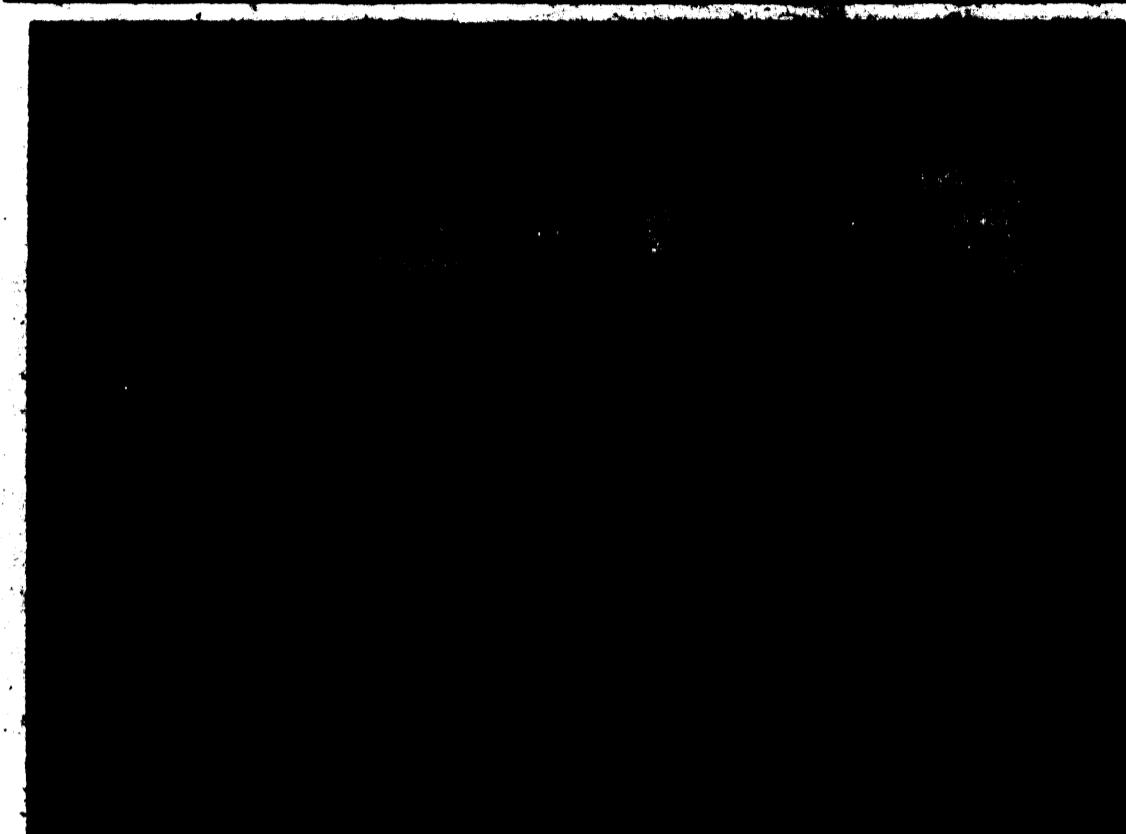

"We will be supplying the personnel working between the workmen who turn the valves and the scientists who administer the water facilities," said Maki. "There is need for large numbers of technicians skilled in water treatment if we are to have clean public waters and pure water for our domestic needs and Bay College has the staff to teach technicians the facilities for communication and the affiliation with industry and with government to provide optimal participation in this important field of public resource management."

"There is a future in careers in water purification which can only expand."

**READING WORDS**  
CHICAGO (AP)—An adult's average reading vocabulary ranges between 30,000 and 40,000 words, says a language specialist.

Dr. William A. LaPlante, director of curriculums and materials development for Borg-Warner Educational Systems, said despite the impressive number there are only about 300 words that make up about 50 per cent of the words most frequently appearing in general adult reading material.

A teaching system he has devised with the aid of audio-visual systems teaches that the 300 word-core vocabulary was devised through research. It showed that it was essential to a youngster's needs.

Jean Wozniak, of the Bay de Noc Community College Student Council, and Dorothy Franklin, another on a tour of the new classroom building on the college's new campus. They are pictured in the library area of the building with a picture window view of the woods to the north of the campus.

# Bay College Launches 7th Year

Bay de Noc Community College is starting its seventh year of service to the Delta County area when it opens its doors for the fall semester on August 23.

The college expects an enrollment of about 700, says Dr. Richard L. Rinehart, president.

The course offerings will be the most numerous in the history of the college.

The capacity of the college to accommodate the growing public demand for higher education and for vocational and technological instruction will also be at new highs.

The Catherine Bonifas building on North Campus will be in use, with the third to follow in the fall. This shift of operations means essentially that Bay de Noc College is enlarging its facilities and not that it is abandoning its old quarters.

#### Two Major Roles

It has need for all its facilities until the new North Campus can be developed sufficiently.

Six years of operation have now impressively justified the faith of the founders of the college, the board of trustees,

the public and the administration in the ability of the college to make a great contribution to community attitudes, abilities and acumen.

The college has developed two major roles of service.

Most of its students take general courses and prepare for transfer to four-year colleges and universities after two years of living at home

and attending Bay College.

The rest take vocational-technical courses which can be completed in two years or less and which train students for employment in skilled work.

Enrollees in both major phases of the college are now equally and fully its students, sharing in its certification that they have attained a competency in their chosen fields of

study, shop practice or whatever.

#### Historical Change

It has been said by many persons that the creation of Bay de Noc Community College to extend the public obligation for schooling two years beyond high school is probably the most significant thing happening in the community in this period, educa-

tionally and culturally.

There are many signs to indicate that this is so.

Statewide the community college is the fastest growing element in higher education and there are predictions that the state's largest educational establishment will probably be Wayne Community College eventually, with an enrollment larger than Michigan's present No. 1 educational giant, Michigan State University, with more than 40,000 enrolled.

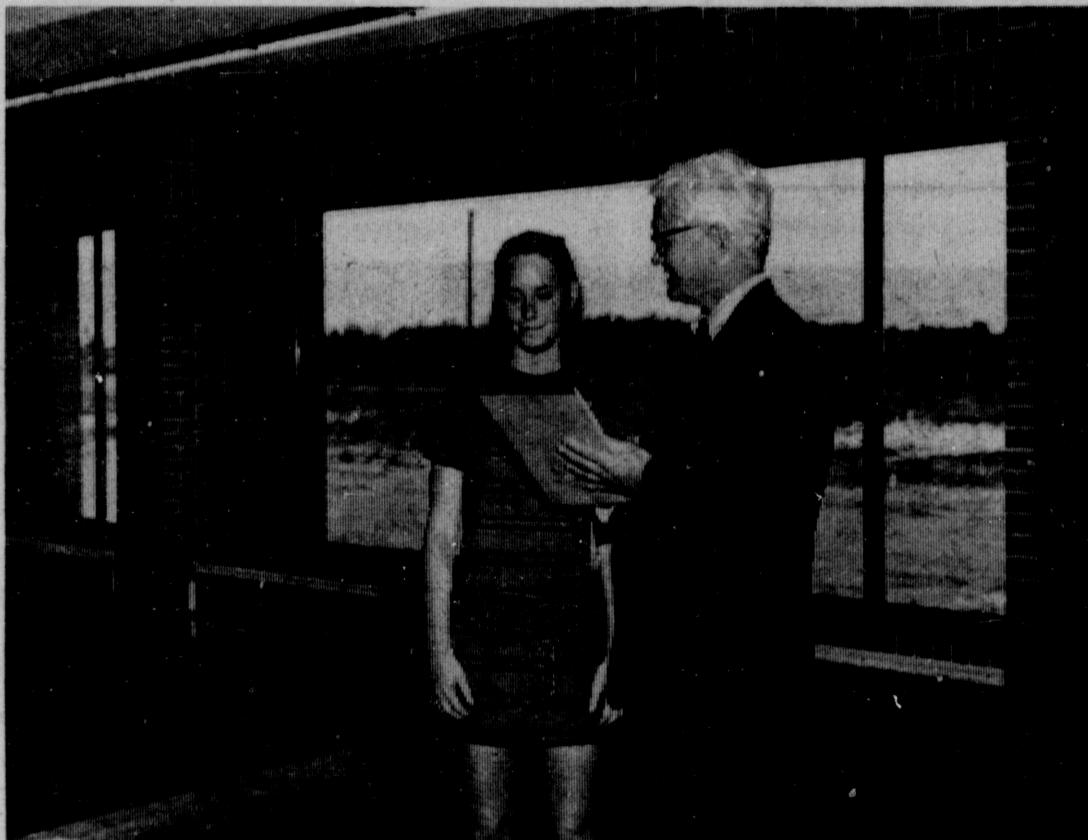

In a time of high enrollment and high cost in education, the community college is a natural solution to big problems.

And it is uniquely suited to the new accent on vocational education—the preparation of young people for jobs. For many years the accent in Michigan's high schools has been on the interests of the students who were going on to college, even though they were a minority until recently.

The result is that the sizeable community without a college or a community college is under a serious handicap. Its people must spend much more on higher education and vocational education than if they had a local community college.

This situation has led the Michigan State Board of Education to adopt a goal of: "Everyone in Michigan in a community college district."

According to an official report from New Delhi, the Indian army was called in to maintain law and order 12 times last year, five times the year before and 14 times in 1967.

JEAN WORTH, of the Bay de Noc Community College faculty, and Debbie Richards, Gladstone freshman, confers on a tour of the new classroom building on the college's new campus. They are pictured in the library suite of the building with a picture window view of the woods to the north of the campus.

## No Life Without Water

The national campaign for environmental purity concentrates most heavily on clean water and clean air.

Bay de Noc Community College is supplying leadership for the State of Michigan in this great campaign for ecological wholesomeness by offering education in water purification.

Taught by a staff headed by Kenneth Maki, who came to the college from governmental employment in water treatment, the Bay program trains water technologists.

"We will be supplying the personnel working between the workmen who turn the valves and the scientists who administer the water facilities," said Maki. "There is need for large numbers of technologists skilled in water treatment if we are to have clean public waters and pure water for our household needs and Bay College has the staff to teach technicians, the facilities for demonstration and the affiliations with industry and with government to provide practical experience in this important field of public resource management."

"There is a future in careers in water purification which can only expand."

#### READING WORDS

CHICAGO (AP)—An adult's average reading vocabulary ranges between 30,000 and 40,000 words, says a language specialist.

Dr. William A. LaPlante, director of curriculum and materials development for Borg-Warner Educational Systems, said despite the impressive number there are only about 300 words that make up about 50 per cent of the words most frequently appearing in normal adult reading material.

A teaching system he has devised with the aid of audio-visual systems teaches that the 300 word-core vocabulary was devised through research. It showed that it was essential to a youngster's needs.

# ANDERSON-BLOOM

1204 Ludington St.

Escanaba

Phone 786-3104

STEVE FISHER (23) goes up for another two points for the Bay de Noc Community College Norsemen. Fisher averaged 21 points per game and was also the leading rebounder on the team. He will be back to play for Bay this fall.

## Athletics Come To Bay Campus

Basketball was introduced at Bay de Noc Community College as its first intercollegiate sport in the fall of 1968 and Bay teams have been playing hard for the past two seasons and finding that victories do not come easy.

This fall however, the Norsemen will be playing for the first time in their own gym and so the coming season is one of unusual expectancy and stimulation for them.

### Lettermen Return

The coming season, says James Henderson, Bay College instructor in physical education, should be a very interesting and successful one, with six lettermen back to begin the year.

These lettermen include Steve Fisher, Mark Weber, Tom Boyle, Rod Kivioja, Dave Livermore and Steve Hutchens. Fisher and Weber led Bay in scoring last season, with Fisher averaging 16 points per game. Fisher was also the leading rebounder, averaging 13 rebounds per game.

These players, along with the new group of freshmen, should provide Bay with its strongest team in its brief history, says Henderson.

In the spring of 1970 Bay College participated in several sports with other colleges. Bay finished second to Northern Michigan University in their annual interscholastic bowling tournament. Steve Douch bowled the highest game at the tournament, with a 246 count. Other members of the bowling team were Josh Busick, Gary Brayak, Ken Turner and Dwayne Klein.

### Golf and Tennis

Bay also participated in golf and tennis meets at the University of Wisconsin Center at Marinette. It was the first time in golf and tennis for Bay and its teams won in both sports.

"We at Bay would like very much to continue the bowling

## Art Classes At College Enliven Life's Adventure

By ALICE POWERS

The purpose of teaching art at Bay de Noc Community College is not primarily to produce skilled artists, although now and then a talented individual appears and receives a part of his art training here.

The primary purposes of the art courses at Bay de Noc are:

- To make life a more vivid and interesting adventure;
- To awaken greater awareness of color, design, pattern, texture and all the other elements of art which surround people wherever they may be;
- To provide the joy and pleasure and satisfaction of taking part in an extremely individual creative act by providing a place and materials and methods and guidance for the student.

### Five Courses

Five courses in art are offered at Bay de Noc Community College:

1. The first is Introduction to Art. In this course, most of the students are working in art for the first time. They are exposed to several different media, such as drawing and painting with water colors, pencil, charcoal, pen and ink. They do some three dimensional work; they are encouraged to do research and they are given basic study in such things as lettering, perspective, two and three dimensions forms and composing a surface.

2. The second course is Design. In this course problems are posed which go into greater refinement and subtlety, with emphasis on values, color, composition types, balance, harmony, and tension (opposition); always stressing basic elements of composition.

3. The third course is Composition. This is for students who have taken the first two courses. Great emphasis is put on individual needs and individual direction. Students are encouraged to work longer in a single media and to concentrate in fewer areas, if they are ready, to narrow their field.

4. The fourth course is Figure Drawing for those who have taken the three pre-requisites, or who have a special ability in this field. Models are used, the work of the masters is studied and a knowledge of the construction of the human body is pursued, with use of a skeleton, anatomy books and other aids.

5. The fifth course, Art History, has no pre-requisite courses and may be taken by anyone who is interested. By the use of slides, reproductions,

lectures and field trips some sense of what has been produced in the past in art is important.

Interesting results of this course are student realization that the art of any age ex-

presses the ideas of the people of its time, and understanding of the tremendous shift in the ideas of art, especially the great revolution which occurred with the invention of the camera.

# *Technology Is Major Part Of Bay College's Program*

By ANNE ALEXANDER  
Associate, Penn Community  
July 26, 1946 Community Col-  
lege has developed several  
two-year associate degree and  
one-year technical training  
programs to meet demands  
of modern industry.

to help members of the  
of this technical advisory committee  
study each technical problem  
in planned and deliberate way.  
The aim of the advisory committee  
is so that it is fitted author-  
atively to the real needs of  
industry for technical advice.  
These advisory committees are  
small groups of selected spe-  
cialists from industry in each  
technical field.

At the present time, Bay de  
Noc Community College offers

# Tecnicion

A "Wachstum" is one which job covers the middle-ground between the skilled craftsman and the unskilled artisan, or professional, and is associated with the growth of the technical and scientific, as well as of general knowledge. For the technician to acquire most of the basic knowledge required to practice his trade he must be more given to the theoretical than the practical side of his work, and, therefore, receive the educational by no way different in character and method from that of theory and to have specialized education."

technical education in Drafting and Design; Electrical Technology, and Water Purification. A degree program in Alternative Technology is also being planned for the near future.

The following section contains a brief history of the development of the technique of electron microscopy. The discussion is limited to electron microscopy mainly because it is the most advanced technique at present. The discussion is divided into the following sections: the early development of electron microscopy, the early applications of electron microscopy, the early applications of electron microscopy to biology, the early applications of electron microscopy to medicine, and the early applications of electron microscopy to industry.

part of the original system.  
Doubtless, part of the system  
was destroyed by the  
explosion, but it is  
probable that the  
explosion did not  
destroy all of the  
system. A  
large number of  
systems were  
damaged, but  
not destroyed.

## **Milliken Will Name 'Objective' School Leaders**

**LANSING (AP) —** Gov. Milliken has assured Detroit residents that he would nominate or re-nominate "objective" and "fair" members to the Detroit Board of Education rather than seek to achieve any particular balance of political philosophy on the board.

Four board members were recalled in the Aug. 4 election after supporting a high school desegregation plan.

Speaking at a press conference in Lansing, Menden said he would seek men "competent to the problems" of the school system and those with proven "competence" rather than looking at the political views of potential members.

The appointmentees are not expected to come before a federal court looks into the controversy surrounding Detroit's use of a computerized ballot system. The federal agency will delay official certification of the election, for at least a week.

and useful opportunity to prepare for life and jobs at the college and high school levels.

and technical subjects on  
various topics.

**THE TO MANUFACTURER**

Recently a cooperative arrangement was made with several local businesses to provide part-time employment for Negro students in technical schools. This program basically serves two purposes: It provides financial assistance to Negro students interested at Tuskegee, Community College, and Negro students who are employed.

# Water Treatment Offers A Future

# Water Treatment Offers A Future

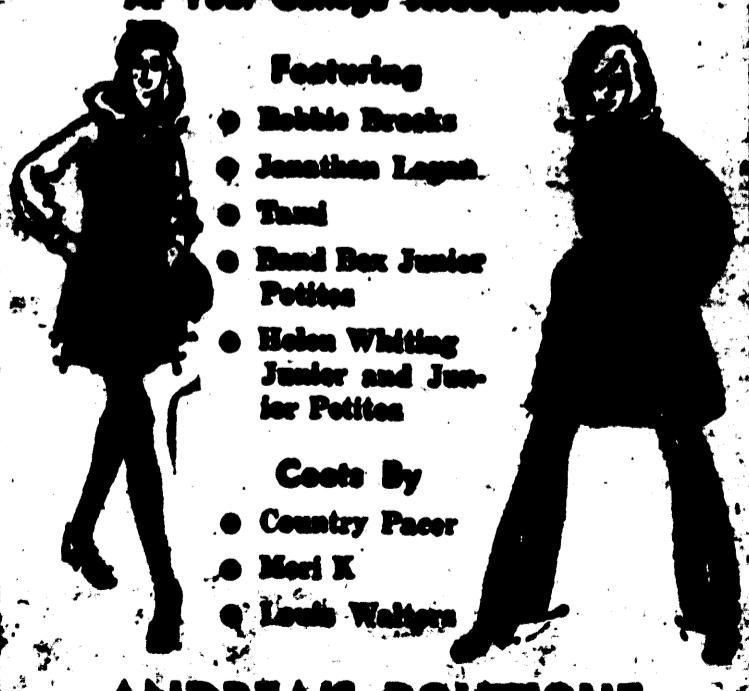

Graduates of the two-year associate degree program at Bay de Tros Community College will find employment in positions of increasing responsibility in the field of water

Specific areas of work include: pure and applied research, pollution abatement facilities in both private and technological sectors, potable and process water treatment, fluid transportation and pumping, mining, industrial and municipal sales and service, and many others.

The field is ideally suited to the person who desires a blend of theory and its practical application in the construction of mathematical probability. It ranges from causal theories based on causality concepts to laboratory empirical data and of those various approaches.

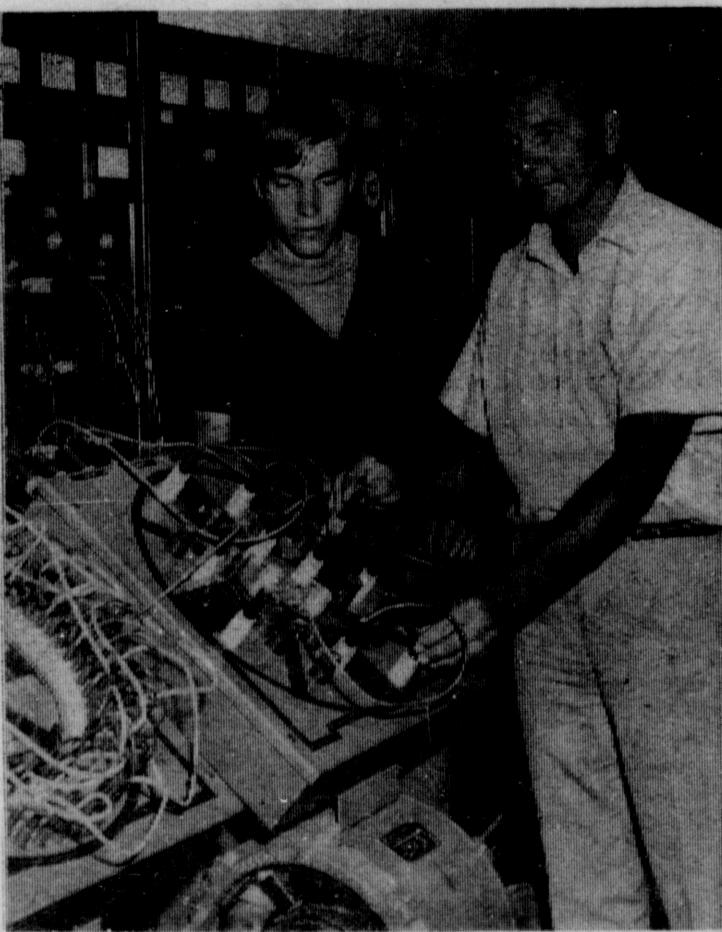

environment together study in the following specified areas:

**Solid Up Your Fashion Reputation  
At Your College Headwear**

# **ANDREA'S BOUTIQUE**

**"Everyone's Most Fashionable Address!"**

ARNE ANDERSON, assistant to the dean, technology, shows student Richard Germain, Escanaba Rte. 1, a motor-generator in the Bay de Noc Community College electrical technology laboratory on the new campus. An electric distribution panel is also shown.

## Industrial Technology Program Provides Practical Experience

The Industrial Technology program at Bay de Noc Community College was enlarged from Drafting and Design to include Arc Welding in 1968 and Machine Operation in 1969.

The welding program core consists of four college courses: Introduction to Arc Welding; Advanced Arc Welding; Combination Welding; and on-the-job cooperative training in industry.

Purpose is to offer a broad yet practical vocational training program in arc welding that includes basic skills, applied theory, and general subjects to prepare students for the practical world with a job entry skill, and to prepare him for future development.

### Welding Courses

The first course, Te 141, Introduction to Arc Welding, teaches basic welding skills in arc and semi-automatic welding and some gas flame cutting. The second course, Te 142, Advanced Arc Welding, continues with more application and additional techniques with ferrous and non-ferrous materials.

The third course, Te 243, Combination Welding, adds skills in gas welding and more practice with electric arc welding.

The fourth course, Te 272, Cooperative Training, actually allows the student to work in industry at a welding job, with weekly seminars at the college to discuss progress.

Excellent welding equipment was donated to the college by the Harnischfeger Corp. There are "stick", semiautomatic, and inert gas welding machines, gas, and flame cutting equipment in the welding shop, which is in the old Northern Motor Rebuilders shop at 800 1st Ave. N. The welding shop will eventually be moved out to the new college campus.

Welding is such a basic technique in industry, maintenance and service that the skill is applicable to a very wide range of jobs.

### Machine Tool Operators

The purpose of the machine tool operators' program is to

provide vocational training in the operation of the basic machine tools used by industry. It includes allied theory and applicable general subjects to give the student a job entry skill and prepare him for future career development.

The core of the program is four sequential courses: Te 131 is Basic Machine Tool Operation; Te 132, Intermediate Machine Tool Operation; Te 233, Advance Machine Tool Operation; and Te 272, Cooperative Training.

The three on-campus courses introduce the student to and give practice and experience on the fundamental tools: lathes, drills, mills, grinders, and shapers. Measuring tools, hand tools, and safety are emphasized in all courses. The last semester, on cooperative training, involves actual job experience in industry, with weekly critique seminars at the college to evaluate experience and progress.

Training is as broad and basic as possible so that the student can use it in a variety of manufacturing and service fields.

### High School Vo-Ed

The college is also offering a wide program of high school vocational education for high school juniors and seniors in welding, machine tool operation, electricity, and drafting. The high school welding and electricity programs have been in operation since 1968, and high school drafting and machine tool operation are starting in 1970.

High schools participating with the college are Bark River-Harris, Holy Name, Big Bay de Noc, Rapid River, and Powers-Spalding. Other area high schools are encouraged to participate.

Personnel in the Vocational-Technical Division are Arthur Pope, division chairman, Lowell Dennis in electricity, Arne Anderson and Norman Clark in drafting, Gordon Reveal in welding, and Ken Maki in water treatment.

The vocational programs offer area students a practical

## Technology Is Major Part Of Bay College's Programs

By ARNE ANDERSON

Assistant Dean: Technology

Bay de Noc Community College has developed several two-year associate degree and one-year technical training programs to meet essential needs of modern industry.

To keep abreast of the needs of this technical society effectively, each technical program is planned and developed with the aid of an advisory committee, so that it is fitted authoritatively to the real needs of industry for worker skills. These advisory committees are small groups of selected specialists from industry in each technical field.

At the present time, Bay de Noc Community College offers

### Technician

A "technician" is one whose job covers the middle-ground between the skilled craftsman and the engineer, scientist, or professional. The accelerated industrialization of the nation has created a climate of great opportunity for the technician to perform many of the duties formerly assigned to professionals with four or more years of college. These job opportunities require the technician to be well grounded in scientific and mathematical theory and to have specialized education."

technical education in Drafting and Design, Electrical Technology, and Water Purification. A degree program in Automotive Technology is also being planned for the near future.

### Electrical Technology

Technicians trained in electrical technology usually work in generation and distribution of electrical power, in the manufacture and sale of electrical equipment and machinery, or in maintenance and repair of electrical systems.

Draftsmen are part of an engineering team that converts engineering and the technical knowledge into graphic forms, like mechanical drawings, blueprints, etc. A draftsman may be involved not only in making working drawings,

### Milliken Will Name 'Objective' School Leaders

LANSING (AP) — Gov. Milliken has assured Detroit residents that he would endeavor to name "objective" and "fair" members to the Detroit Board of Education rather than seek to achieve any particular balance of political philosophies on the board.

Four board members were recalled in the Aug. 4 primary election after supporting a high school decentralization-integration plan.

Speaking at a press conference in Lansing, Milliken said he would seek men "sensitive to the problems" of the school system and those with proven "competence" rather than looking at the political views of potential members.

The appointments are not expected to come before a federal court looks into the controversy surrounding Detroit's use of a computerized ballot system. The federal inquiry will delay official certification of the election for at least a week.

and useful opportunity to prepare for life and jobs at the college and high school levels.

sketching, detailing and illustrating in design and development of an industrial product, but also in making calculations, tests, and technical reports on manufactured items.

Because of the need for job knowledge in technical education, instructors must have industrial experience and be specialists in their teaching fields. It is both a college and state requirement that instructors in technical education have a comprehensive background to meet these high standards to be vocationally certified.

### Ties To Industry

Recently a cooperative arrangement was made with several local industries to provide part-time employment for advanced students in technical education. This program basically serves two purposes: It provides financial assistance to students enrolled at Bay de Noc Community College and college credits are also earned while working in an actual industrial atmosphere.

The facilities of Bay de Noc Community College are especially designed for classroom and laboratory instruction in each field of technology offered. These facilities have been used by the high schools of the surrounding area on alternate days, which enables high school juniors and seniors to pursue vocational studies at the community college while the regular courses are attended at their home schools.

A recent development of the college's technological division is a special Apprenticeship Training Program that is hosted by Bay de Noc in conjunction with the United Brotherhood of Electrical Workers Local No. 979, Carpenters and Millwrights Local No. 1832, and Plumbers and Pipefitters Local No. 506.

For each trainee this is a four-year program in which an itinerant state instructor is used who meets on alternate weeks for one full day to teach the complex related training for each trade.

## Water Treatment Offers A Future

Graduates of the two-year associate degree program at Bay de Noc Community College will find employment in positions of increasing responsibility in the field of water purification.

Specific areas of work include: pure and applied research, pollution abatement facilities in both private and municipal sectors, potable and process water treatment, field investigation and pollution monitoring, industrial and municipal sales and service, and many others.

The field is ideally suited to the person who desires a blend of theory and its practical application in the operational control of treatment processes. It ranges from actual in-plant control of operating equipment to laboratory analytical control of these various processes.

The complex nature of pollution and its effects on our environment require study in the following specialized academic areas:

Chemistry—3 semesters including foundation courses as well as an advanced applied course in Sanitary Chemistry in which laboratory process control is stressed.

Physical Science and Mathematics—3 semesters, including Technical Physics, Technical Math or College Algebra and Trigonometry and Applied Hydraulics provide further background for advanced course work in Water Purification Technology.

Applied Technology in the field of water treatment is the emphasis in advanced courses such as Water and Waste Water Microbiology and Water and Waste Water Treatment Plants 1 & 11.

These courses, in combination with actual in-plant experience during the final semester of study, are intended to provide the blend of theory and its practical application which is required in this highly complex field.

"Escanaba's Most Fashionable Address"

# Science Courses Probe Environment

By DR. DAVID E. MERRILL

Faculty, Chemistry

Can life be extracted from the "dead" elements of the universe? What are man's obligations to the environment? Can man live off and apart from the environment? Can man's actions affect the environment? How much knowledge are science concepts? How fast does man change his environment? Can the question "Why?" be answered?

These questions, and others, are being asked by scientists and concerned citizens.

Man is integrally involved with his environment. It has presently become an all-important concern because of the immediate threat to his life. The water he uses and the air he breathes are filled with contaminants that threaten his existence. The weather he endures and the resources available for his use, both for the necessities and the comforts, all play a part in his everyday life. Man has just begun recognizing the extent to which his environment dominates both his physical and mental functioning.

## Man Orders Environment

Man has always been aware of the world around him. The primary objective for this has been to provide food and clothing as well as increase the number of creature comforts enjoyed. Man has observed natural happenings and then proceeded to use his observations to imitate natural phenomenon.

He has developed a systematic method of observing, hypothesizing, and proving his theories about the way nature behaves. Based on this knowledge he has proceeded to order the environment for the expected purpose of improving his own interactions with nature. Instead of being subjected to forces beyond his control, man can now anticipate happenings and act to minimize their impact on his daily life. Instead of offering sacrifices to a rain god or sun god, he now uses his knowledge of his physical surroundings to produce desired changes.

**Nature Dominated**  
Having determined that there is an orderly process in nature and that order does exist in the universe, man has turned his attention to manipulating it

for his own benefit. Instead of waiting for natural happenings to occur, man can now plan for humans to question which would not naturally be asked.

May de Noc Community College offers students who are interested in solving present day problems an opportunity to become involved in the area that might yield the answer to the more fundamental problem: How may the environment be kept livable?

The College Sciences Department offers courses which allow study aspects of the environmental problem to be examined from different perspectives. The student is encouraged to take the knowledge gained from his study of a limited number of sciences and his problem solving skills required and apply this knowledge to the larger problems of today.

## Health Care?

What are the alternatives to the internal combustion engine? Can electric or steam power provide sufficient useful work to take its place? Is it possible to control the air pollution so that nuclear power may be used in the generation of electricity? How do NASA technicians determine courses and velocity corrections for space travel? The fundamentals for answering these and other questions are available in the various physics courses offered.

What are the contaminants in our air, water, and food? How may they be identified? Which procedures should be used for their removal? What compounds are essential for life, and how do they react with other compounds (drugs) not normally consumed by the body? The chemistry courses offered provide insight into the answers for these and other problems.

Why are there so many kinds of plants and animals? What role do they play in each other's lives? What are the food chains in Nature? What constitutes the minimum acceptable environment with respect to plants, animals, nutrients, etc.? What are the essential nutrients for maintaining life? How does the body convert food into energy? What procedures are used to provide data for obtaining solutions to problems? The answers to these questions are not al-

ways concise but the biology courses attempt to handle the "how" and "why" of living systems.

What is the "new math" and for what is it used?

What are the mathematical skills required

to study engineering, drafting, surveying, etc.? The mathematics courses at Bay de Noc are designed to assist every student regardless of his objectives.

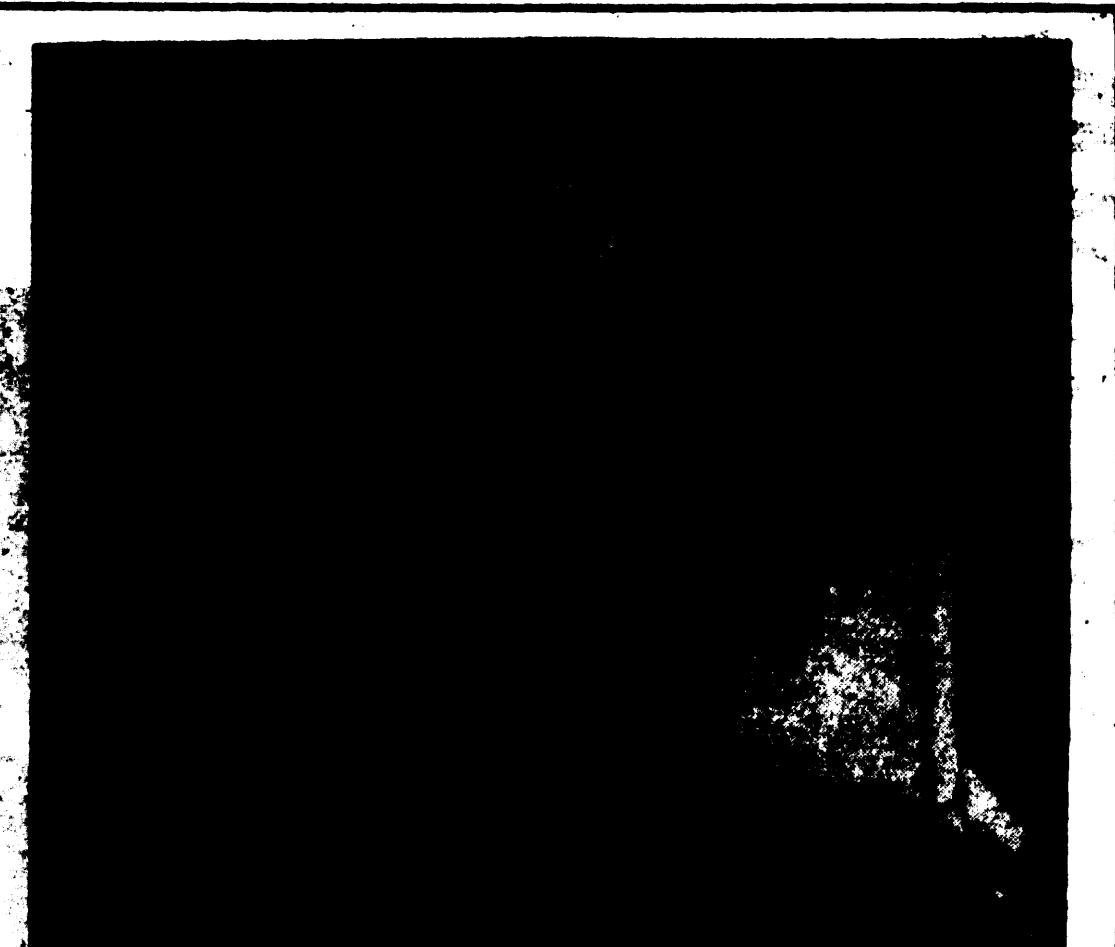

What is the "new math" and for what is it used?

What are the mathematical skills required

to study engineering, drafting,

Bay de Noc students are shown here in establishing the specimen collection in the Biology Laboratory, destroyed by a fire earlier this year. Watching the cataloging of specimens by Richard Moeller, assistant professor of biology, center, are two students, Linda Norlander of Gladstone, who is entering as a freshman, and John Gucky of Escanaba, a sophomore.

# Science Courses Probe Environment

By DR. DAVID R. HITTLE

## Faculty: Chemistry

Can life be created from the "raw" elements of the universe? What energy sources are available to replace oil and coal? Is it possible to reprocess the refuse created by the affluent society? Can pollution be eliminated? How much knowledge can science generate? How fast can man change his environment? Can the question "Why?" be answered?

These questions, and others, are being asked to scientists and concerned citizens.

Man is integrally involved with his environment. It has presently become an all-important concern because of the immediate threat to his life. The water he uses and the air he breathes are filled with contaminants that threaten his existence. The weather he endures and the resources available for his use, both for the necessities and the comforts, all play a part in his everyday life. Man has just begun recognizing the extent to which his environment dominates both his physical and mental functioning.

## Man Orders Environment

Man has always been aware of the world around him. The primary objective for this has been to provide food and clothing as well as increase the number of creature comforts enjoyed. Man has observed natural happenings and then proceeded to use his observations to imitate natural phenomenon.

He has developed a systematic method of observing, hypothesizing, and proving his theories about the way nature behaves. Based on this knowledge he has proceeded to order the environment for the expressed purpose of improving his own interactions with nature. Instead of being subjected to forces beyond his control, man can now anticipate happenings and act to minimize their impact on his daily life. Instead of offering sacrifices to a rain god or sun god, he now uses his knowledge of his physical surroundings to produce desired changes.

## Nature Dominated

Having determined that there is an orderly process in nature and that order does exist in the universe, man has turned his attention to manipulating it

for his own benefit. Instead of waiting for natural happenings to arouse his curiosity, man has looked for answers to questions which would not ordinarily be asked.

Bay de Noc Community College offers all those who are interested in solving present day problems an opportunity to become involved in the area that must yield the answer to the more fundamental problem: How may the environment be kept liveable?

The College Science Department offers courses which allow many facets of the environmental problem to be examined from different perspectives. The student is encouraged to take the knowledge gained from his study of a limited number of concepts and the problem solving skills acquired and apply this knowledge to the larger problems of today.

## Electric Cars?

What are the alternatives to the internal combustion engine? Can electrical or steam power provide sufficient useful work to take its place? Is it possible to control thermal pollution so that nuclear power may be used in the generation of electricity? How do NASA technicians determine courses and velocity corrections for space travel? The fundamentals for answering these and other questions are available in the various physics courses offered.

What are the contaminants in our air, water, and food? How may they be identified? Which procedures should be used for their removal? What compounds are essential for life, and how do they react with other compounds (drugs) not normally consumed by the body? The chemistry courses offered provide insight into the answers for these and other problems.

Why are there so many kinds of plants and animals? What role do they play in each other's lives? What are the food chains in Nature? What constitutes the minimum acceptable environment with respect to plants, animals, nutrients, etc? What are the essential nutrients for maintaining life? How does the body convert food into energy? What procedures are used to provide data for obtaining solutions to problems? The answers to these questions are not al-

ways concise but the biology courses attempt to assist the student in formulating his answers to these questions.

Where can I learn the mathematical skills required for the

science courses? What is the "new math" and for what is it used? How do computers operate and what mathematical knowledge is necessary to operate them effectively? What

mathematical skills are required to study engineering, drafting, surveying, etc.? The mathematics courses at Bay de Noc are designed to assist every student regardless of his objectives.

BAY DE NOC COMMUNITY COLLEGE is re-establishing the specimen collection in its Biology Laboratory, destroyed by a fire earlier this year. Watching the cataloging of specimens by Richard Haeusler, assistant professor of biology, center, are two students, Linda Norlander of Gladstone, who is entering as a freshman, and John Gucky of Escanaba, a sophomore.

## SCHEDULE OF COURSES FALL SEMESTER - 1970

### CONTINUING EDUCATION

Most courses are open to persons wanting to enroll for continuing education. Registration for these people will be Thursday, August 20, from 8:30-9:30 P.M. and Saturday, August 22, from 8:30-11:30 A.M.

Special registration for the following courses will also be permitted at the first meeting of the course:

Course Title	Time	Room	Day
Introduction to Forestry	T 6-8 P.M.	231	New Campus
National Electric Code	T 6-8 P.M.	122	New Lab. Bldg.
Hospital Reading	M 6-8 P.M.	124	New Lab. Bldg.
Introduction to Auto Welding	M, W 6-8 P.M.	Shop	Ind. Tech. Bldg.
Introduction to Art	M, W 6-8 P.M.	206	South Campus
Music Appreciation	M, W 6-8 P.M.	106	South Campus

### ACADEMIC CALENDAR

August 20 thru 22	Registration Classes Begin
August 24	Labor Day Holiday
September 7	Thanksgiving Break
November 26 thru 29	Final Exams
December 15 thru 18

# Nursing Program Began In 1965

Bay de Noc Community College started its School of Nursing to train Licensed Practical Nurses in 1965, with admission of new nursing classes in the fall and in February.

The other nursing schools it has changed its admissions policy and now welcomes a class of new nurse students only in the fall, articulated with the college calendar. They study for one year and are then ready for a career in practical nursing, with an average of 60 turned out each year from the Escanaba college.

Nursing students are members of the Bay de Noc Community College student body. Those studying general courses as transfer students or taking technological courses.

## Men Welcome

The School of Nursing is open to both men and women and at Bay College the number of men students preparing for careers in nursing and development of its specialties like anesthesiology and psychiatric nursing is increasing, as it is in the nation.

Bay de Noc Community College's School of Nursing has been designated for a quota of nurse trainees under the federal Manpower Development & Training Act and 30 nursing students are enrolled in the course from the Upper Peninsula and Northern Lower Peninsula under this federal aid program.

The School of Nursing is affiliated for training purposes with St. Francis Hospital, the Veterans Administration Hospital in Iron Mountain, the Medicenter in Escanaba, Pinecrest Medicare Unit, Powers; the Escanaba Area Public Schools, Camp Harstad at Ford River; physicians' offices in Delta County, the Delta-Monroe Public Health Department.

ment and the Community Action Program.

## Jobs Available

The demand for graduates of the course is brisk and most are employed before they graduate. For persons willing to leave the Escanaba area there is seldom difficulty in job placement.

The school has a faculty of six headed by Martha Harper, assistant to the dean, health occupations, and it draws about 75 per cent of its students from the Delta County area.

Persons 18 to 56 who have completed high school or who have equivalent education, who are healthy and who are suited to a nursing career are eligible.

## Dental Office Training Added

A sustained interest by officials of Bay de Noc Community College and members of the dental profession in Delta County resulted in the initiation in September, 1966, of formal training of young women in the science of dental office procedures.

One of the new additions in Bay de Noc College's offering of technological courses, it is called "Dental Assisting."

Taught by Dr. Palmer Sutton, D.D.S., the course covers a full year, including the summer session of the college and it provides basic knowledge of the dental profession and an insight into its problems and plans for the future.

Except for students with previous experience in the field, a new world of terminology, anatomy, physiology, chemistry, biology, materials and even jurisprudence is opened.

Practical demonstrations of actual procedures are provided at the Dental Clinic at the Catherine Dennis Civic Center. These acquaint students with instrumentation, sterilization, X-ray techniques, the handling of dental practice materials, diagnosis, treatment planning and other things.

For those observing the clinic work at peak patient periods, the variation of patient approach in children's dentistry has been of particular value, said Dr. Sutton.

"The basic philosophy of the course," he said "is to provide the widest possible introduction so that later experience assisting dentists will enable the student to become deeply knowledgeable in all the phases of dentistry."

## Museum Theater Opening Delayed

DEARBORN (AP) — Because of last weekend's fire, the remainder of the American Drama Festival at the Henry Ford Museum Theater has been canceled. The program was to run through Sept. 12.

A museum spokesman said the theater will reopen in mid-September for an old movie festival.

## EYE BANK

LONDON (AP) — The National Eye Bank has sent 327 corneas to developing countries for transplant operations in the past 13 months. 148 more than in the previous year.

From left: Mrs. Cheryl West, Iron River, student nurse; Miss Bonnie Broman, Licensed Practical Nurse at the hospital, a 1966 graduate of Bay, and Richard St. Martin of Rapid River, a nursing student.

## Bay Student Activities Community Oriented

By PETER MICHELL

Faculty: English

Although the students of Bay de Noc Community College participate in activities which have become emblematic of the college scene, a variety of clubs and organizations have enabled them to channel their youthful idealism into constructive programs.

Among the clubs open to students are the Pep Club, the International Relations Club, the Future Teachers Club, the Vets Club, the Religion on Campus Club and Student Government.

The Student Government of the college has provided both the leadership and the focal point for student involvement in the affairs of the college and of the community. The membership is composed of nine delegates elected from the student body and one representative elected by the nursing class.

Service Projects

In addition to coordinating social activities and to providing a liaison from the student body to the administration, the Student Government has also involved itself in the affairs of the community.

Among the service projects initiated by the Student Government is the senior citizen's banquet which is held annually at the student center. The Christmas turkey dinner is designed to enable senior citizens who are unable to spend Christmas with relatives to participate in the holiday festival. Following the dinner and tree trimming, the students sing carols at the Bishop Noe Home.

Walkathon Success

The Student Walkathon proved to be an emphatic success, not only netting over \$1,200 for the purchase of a fountain for the city rest area, but reminding the community of the need for concern about the environment.

The Student Government is developing a tutorial program in which college students will assist overburdened elementary teachers by supplying tutorial help on a one-to-one basis for pupils with difficulties in studies.

The college arts program was planned by a committee of three Student Government representatives and three faculty members. After distributing a questionnaire to determine student preferences, the Arts Committee

contracted with various artists. The arts program was open to the public and the hearty reception by the community resulted in the college arts program being coordinated with the community concert series.

### Teach-ins Institute

Teach-ins have become vogue on many campuses and the Student Government coordinated two such activities. The purpose of the teach-ins was to acquaint the students with complexity of current social issues through low-keyed, informative speeches which would encourage an educational rather than an emotional experience. The teach-ins dealt with the Vietnam War and the environment.

## Financial Help Is Available To Bay Students

Financial assistance is offered to the Bay de Noc Community College students in a variety of ways.

These include scholarships awarded by the college, federal educational opportunity grants administered by the college, State of Michigan guaranteed student loans and scholarships, college work-study program or in cooperation with area employers.

Bay de Noc Community College is approved for veterans education and the education of a considerable number of its current students is made possible by the "G. I. Bill."

Funds for these various kinds of assistance come from the numerous support of area individuals, organizations and businesses, as well as from the state and federal governments.

The coordinator of these various means of financial assistance to students is Mrs. Virginia Rusch, financial aids assistant. Anyone who would like more information on any aspect of assistance is encouraged by Mrs. Rusch to call her at the college, 788-5802.

"For the student with a will," she says "a way to make college training possible can usually be found."

tered interscholastic basketball competition. In addition to encouraging student participation and school spirit, the Pep Club has conducted various fund-raising activities to pay for cheerleading outfits, as well as supporting charities.

Primary concern of the International Relations Club is the sponsorship of a Korean orphan. To finance the sponsorship the club holds an annual slave auction as well as other fund-raising activities. The program has proven to be extremely successful and the club members enjoy the correspondence from their adopted orphan.

### Teachers Club

The Future Teachers Club is a recent innovation which helps to meet the interests of prospective teachers. In addition to seminar sessions with educators from throughout the county, the club has coordinated a help-study program which enables students to learn teaching techniques while helping elementary teachers in the Escanaba Area system.

At a time when religious sensitivity seems to be declining on the college campus, the Religion on Campus Club (known to its members as ROC) is flourishing. The inter-denominational religious group is under the leadership of Fr. August Franck and its purposes include the study of various religions, the scheduling of worship services, and involvement of students in Christian service.

In order to accommodate the particular interests and problems of veterans returning to college, the Vets Club was formed. Its purposes are three-fold: to provide a social atmosphere for meaningful interaction based upon common experiences, to aid and encourage effective scholastic achievement of its members, and to channel community involvement into projects indigenous to veterans organizations.

The interaction of the various clubs is harmonious and the diversity of objectives enables the student to discover an organization whose purposes are closely aligned to his own. The framework of each organization along with the guidance of interested faculty advisers insures productivity and encourages the development of constructive citizenship.

STUDENT NURSES of Bay de Noc Community College are pictured with one of the college's graduate nurses at St. Francis Hospital, with which the college School of Nursing is affiliated. From left: Mrs. Cheryl West, Iron River, student nurse; Miss Bonnie Broman, Licensed Practical Nurse at the hospital, a 1969 graduate of Bay, and Richard St. Martin of Rapid River, a nursing student.

Following the dinner and tree trimming, the students sing carols at the Bishop Noa Home.

### Walkathon Success

The Student Walkathon proved to be an emphatic success, not only netting over \$1,200 for the purchase of a fountain for the city rest area, but reminding the community of the need for concern about the environment.

The Student Government is developing a tutorial program in which college students will assist overburdened elementary teachers by supplying tutorial help on a one-to-one basis for pupils with difficulties in studies.

The college arts program was planned by a committee of three Student Government representatives and three faculty members. After distributing a questionnaire to determine student preferences, the Arts Committee

contracted with various artists. The arts program was open to the public and the hearty reception by the community resulted in the college arts program being coordinated with the community concert series.

### Teach-Ins Instruct

Teach-ins have become vogue on many campuses and the Student Government coordinated two such activities. The purpose of the teach-ins was to acquaint the students with complexity of current social issues through low-keyed, informative speeches which would encourage an educational rather than an emotional experience. The teach-ins dealt with the Vietnam War and the environment.

The Pep Club was initiated two years ago when the college en-

### Financial Help Is Available To Bay Students

Financial assistance is offered to the Bay de Noc Community College students in a variety of ways.

These include scholarships awarded by the college, federal educational opportunity grants administered by the college, State of Michigan guaranteed student loans and scholarships, college work-study program or in cooperation with area employers.

Bay de Noc Community College is approved for veterans education and the education of a considerable number of its current students is made possible by the "G. I. Bill."

Funds for these various kinds of assistance come from the generous support of area individuals, organizations and businesses, as well as from the state and federal governments.

The coordinator of these various means of financial assistance to students is Mrs. Virginia Rusch, financial aids assistant. Anyone who would like more information on any aspect of assistance is encouraged by Mrs. Rusch to call her at the college, 786-5802.

"For the student with a will," she says "a way to make college training possible can usually be found."

tered interscholastic basketball competition. In addition to encouraging student participation and school spirit, the Pep Club has conducted various fund-raising activities to pay for cheerleading outfits, as well as supporting charities.

Primary concern of the International Relations Club is the sponsorship of a Korean orphan. To finance the sponsorship the club holds an annual slave auction as well as other fund-raising activities. The program has proven to be extremely successful and the club members enjoy the correspondence from their adopted orphan.

### Teachers Club

The Future Teachers Club is a recent innovation which helps to meet the interests of prospective teachers. In addition to seminar sessions with educators from throughout the county, the club has coordinated a help-study program which enables students to learn teaching techniques while helping elementary teachers in the Escanaba Area system.

At a time when religious sensitivity seems to be declining on the college campus, the Religion on Campus Club (known to its members as ROC) is flourishing. The inter-denominational religious group is under the leadership of Fr. August Franczek and its purposes include the study of various religions, the scheduling of worship services, and involvement of students in Christian service.

In order to accommodate the particular interests and problems of veterans returning to college, the Vets Club was formed. Its purposes are three-fold: to provide a social atmosphere for meaningful interaction based upon common experiences, to aid and encourage effective scholastic achievement of its members, and to channel community involvement into projects indigous to veterans organizations.

The interaction of the various clubs is harmonious and the diversity of objectives enables the student to discover an organization whose purposes are closely aligned to his own. The framework of each organization along with the guidance of interested faculty advisers insures productivity and encourages the development of constructive citizenship.

## Nursing Program Began In 1965

Bay de Noc Community College started its School of Nursing to training Licensed Practical Nurses in 1965, with admission of new nursing classes in the fall and in February.

Like other nursing schools it has changed its admissions policy and now welcomes a class of new nurse students only in the fall, articulated with the college calendar. They study for one year and are then ready for a career in practical nursing, with an average of 60 turned out each year from the Escanaba college.

Nursing students are members of the Bay de Noc Community College student body, like those studying general courses as transfer students or taking technological courses.

### Men Welcome

The School of Nursing is open to both men and women and at Bay College the number of men students preparing for careers in nursing and development of its specialties like anesthesiology and psychiatric nursing is increasing, as it is in the nation.

Bay de Noc Community College's School of Nursing has been designated for a quota of nurse trainees under the federal Manpower Development & Training Act and 30 nursing students are enrolled in the course from the Upper Peninsula and Northern Lower Peninsula under this federal aid program.

One of the new additions to Bay de Noc College's offering of technological courses, it is called "Dental Assisting."

Taught by Dr. Palmer Sutton, D.D.S., the course covers a full year, including the summer session of the college and it provides basic knowledge of the dental profession and an insight into its problems and plans for the future.

Except for students with previous experience in the field, a new world of terminology, anatomy, physiology, chemistry, biology, materials and even jurisprudence is opened.

Practical demonstrations of actual procedures are provided at the Dental Clinic at the Catherine Bonifas Civic Center. These acquaint students with instrumentation, sterilization, X-ray techniques, the handling of dental practice materials, diagnosis, treatment planning and other things.

For those observing the clinic work at peak patient periods, the variation of patient approach in children's dentistry has been of particular value, said Dr. Sutton.

A museum spokesman said

the theater will reopen in mid-

September for an old movie festival.

### EYE BANK

LONDON (AP) — The National Eye Bank has sent 327 corneas to developing countries for transplant operations in the past 12 months, 148 more than in the previous year.

# Thoughts Of College Started 30 Years Ago

THE first thought of a college in Escanaba was in 1932 when Dr. Alexander Slobodin, president of the University of Michigan, who retired in 1931, was consulted in Ann Arbor about his retirement about the possibility of establishing a branch of the university for the Upper Peninsula in Escanaba. At that time the university had a policy of not having branch institutions.

The will of Mrs. Catherine Bonita, drawn up in 1948, the year of her death, provided a bequest of \$100,000 "for the establishment of a junior college in Escanaba, Michigan." The new classroom library building on North Campus has been named the Catherine Bonita Building.

## Building Usage

The thought usually expressed in those years was that, when Escanaba built a new senior high school, the old building could be used for the college. The minutes of the Escanaba Board of Education for Oct. 10, 1950, list agreement "to and against building a new senior high school on E. Third St. The minutes state:

"The present senior high school can be used as a community college . . . When the present senior high school becomes unsuitable for a community college, the college unit can be added to the Third St. campus."

In January, 1952, the Board met with its Citizens Advisory Council for the Public Schools which had recommended a building program. Dr. Russell Dorr, director of secondary education, Dr. John C. Young, University of Michigan; Dr. James Smith, Michigan State University; Dr. W. H. Noville, director of continuing education; Dr. Alvin G. Johnson, Escanaba City and George Dorr (State Department of Public Instruction in the Upper Peninsula), Marquette, for their assistance in planning the Community College Conference which was held in Escanaba Monday, Feb. 4.

No further reference to a community college is found in the minutes of the Board until 1955. In June of that year, Dr. Harold Dorr, dean of secondary education, University of Michigan, met in Escanaba with the Board, county and township school officials, the Escanaba Citizens Council and PTA leaders.

Dr. Dorr stated: "The possibility exists that the University of Michigan will some day be interested in establishing a branch in the Upper Peninsula and Escanaba seems to be the logical place for such an institution."

In May, 1957, Dr. R. V. Marquette, who was engaged by the State Department to make a study of the community colleges in Michigan, met with the Board and the Advisory Council. His study placed Escanaba in a top priority position for a community college.

## Selected Building

In July, 1957, a similar meeting was held with Dr. Russell Wilson, consultant on school building planning, and Dr. Walter Slaughter, consultant on

INSTRUCTING THE early crews in the Language Laboratory of the new classroom building on Bay de Noc Community College's new north campus are, from left: Kristine Slobodin of Gladstone, a sophomore and Bay College Queen, John A. Lomax, Jr., late Escanaba superintendent of schools and early advocate of a community college, and James T. Wren, director of continuing education. From this early stage language lessons are wired to the individual study carrels, whose rows are equipped with headsets like the one worn by Kristine.

community college, both from the University of Michigan. They rejected the senior high school building as unsuitable for a community college, favoring the junior high school building although the high school building eventually was chosen. Dr. Wilson had participated in the study made in 1952.

Michigan State University offered its services to the Board and sent Dr. H. S. Noville, director of continuing education.

In 1957, Dr. Max Smith, head of the office for Junior Colleges, Commonwealth of 1957, and several other Michigan colleges of the same period, presented a program for the Department of Public Instruction, met with the Escanaba commissioners and urged that they form a committee to present a petition to the State Department, and they obtained the need of cooperation from the other school districts.

## Planning Phase

In April, 1958, the Board adopted such a resolution and so informed the State Department. It also presented that members of the Advisory Council, which included citizens from the county at large and from neighboring communities, discuss the program with as many school groups as possible, the finding of the Board being that a far more favorable than that of Escanaba alone should be the setting for the community college.

A meeting was held in April, 1958, at which Dr. Russell Wilson was present as well as representatives from township school districts in Delta County, Powers-Spaulding and Stephenson, and also representatives from the city administration and civic organizations. It was agreed that a community college was needed and desired in Escanaba, but the representatives of the other school districts did not express any desire or interest in joining with Escanaba as part of the taxing unit to support the college.

## Action Ordered

During the summer of 1958 the school census enumerators in Escanaba asked the question, "Do you favor a community college?" while taking the census, but without discussing

Michigan Technological University were additional consultants.

The Escanaba Daily Press was very helpful to the process of public education on the community college proposal and strongly advocated it editorially.

## Report Approved

Six committees for the study were formed: Enrollment projections; Program needs; Finance; Building location; Legal; Public information.

All worked diligently, but it was not until July 27, 1962, that the final report was presented, a report that was thoughtful and thorough. This received the approval of the County Board and subsequently that of the Department of Public Instruction.

The citizens of Delta County emphatically expressed approval of the establishment of the college on Nov. 6, 1962, by a vote of 6,963 to 3,231. However, financing the college won by a fairly close margin, 5,148 to 4,515.

## Fourteen for Board

Fourteen candidates sought to be on the Board of Trustees and the following were elected: Charles Follie, Escanaba; Dr. Albert Jenkins, Bark River; Joseph L. Heitman, Escanaba; Clayton Ford, Cornell; Robert F. Gross, Flint Rock; and James Dotsch, Garden.

At its first meeting the Board chose Joseph Heitman as its first president; Charles Follie, vice president; Hague Quarnstrom, county superintendent of schools, secretary, and Arthur Slaughter, treasurer. State law does not require that the secretary and treasurer be members of the Board.

Bay de Noc Community College was selected as the name of the 10th community college in Michigan and Dr. Richard L. Shirk became its first president.

# Thoughts Of College Started 30 Years Ago

By JOHN A. LEMMER

Former Escanaba

## School District Superintendent

The hope for a community or junior college existed in the thoughts of many Escanaba people at least 30 years ago. Escanaba had a "Freshmen College" with classes held in the Franklin School from 1934 to 1936.

Dr. Alexander Ruthven, president of the University of Michigan, who retired in 1951, was consulted in Ann Arbor before his retirement about the possibility of establishing a branch of the university for the Upper Peninsula in Escanaba. At that time the university had a policy of not having branch institutes.

The will of Mrs. Catherine Bonifas, drawn up in 1948, the year of her death, provided a bequest of \$100,000 "for the establishment of a junior college in Escanaba, Michigan."

The new classroom library building on North Campus has been named the Catherine Bonifas Building.

## Building Usage

The thought usually expressed in those years was that, when Escanaba built a new senior high school, the old building could be used for the college.

The minutes of the Escanaba Board of Education for Oct. 10, 1950, list arguments for and against building a new senior high school on S. 23rd St. The minutes state:

"The present senior high school can be used as a community college . . . When the present senior high school becomes unsuitable for a community college, the college unit can be added to the 23rd St. campus."

In January, 1952, the Board met with its Citizens Advisory Council for the Public Schools which had recommended a building program, Step 3 reading: "Serious consideration be given to the establishment in Escanaba of a community college."

## Educators Thanked

In February, 1952, the Board expressed its "appreciation to Edgar Grimm, assistant state superintendent of public instruction; Dr. Algo Henderson of the University of Michigan; Dr. Tom Ford, Michigan State College; Les Biederman, Traverse City and George Gilbert, (State Department of Public Instruction in the Upper Peninsula), Marquette, for their assistance in planning the Community College Conference" which was held in Escanaba Monday, Feb. 4.

No further reference to a community college is found in the minutes of the Board until 1956. In June of that year, Dr. Harold Dorr, dean of statewide education, University of Michigan, met in Escanaba with the Board, county and township school officials, the Escanaba Citizens Council and PTA leaders.

Dr. Dorr stated: "The possibility exists that the University of Michigan will some day be interested in establishing a branch in the Upper Peninsula and Escanaba seems to be the logical place for such an institution."

In May, 1957, Dr. S. V. Marcorama, who was engaged by the State Department to make a study of the community college in Michigan, met with the Board and the Advisory Council. His study placed Escanaba in a top priority position for a community college.

## Reject Building

In July, 1957, a similar meeting was held with Dr. Russell Wilson, consultant on school building planning, and Dr. Walter Sinslinger, consultant on

INSPECTING THE control console in the Language Laboratory of the new classroom building on Bay de Noc Community College's new north campus are, from left: Kristine Sjoquist of Gladstone, a sophomore and Bay College Queen, John A. Lemmer, long time Escanaba superintendent of schools and early advocate of a community college, and James T. Wren, director of continuing education. From this control center language lessons are wired to the individual study carrels, whose users are equipped with headsets like the one worn by Kristine.

community colleges, both from the University of Michigan. They rejected the senior high school building as unsuitable for a community college, favoring the junior high school building although the high school building eventually was chosen. Dr. Wilson had participated in the study made in 1952.

Michigan State University offered its services to the Board and sent Dr. H. R. Neville, director of continuing education. In 1957, Dr. Max Smith, head of the office for Junior College Cooperation at MSU, and Ferris Crawford, in charge of the community college program for the Department of Public Instruction, met with the Escanaba group and urged that the Escanaba Board present a resolution favoring a community college to the State Department, and they stressed the need of cooperation from the other school districts.

## Taxing Base

In April, 1958, the Board adopted such a resolution and so informed the State Department. It also requested that members of the Advisory Council, which included citizens from the county at large and from neighboring communities, discuss the program with as many citizen groups as possible, the feeling of the Board being that "a tax base broader than that of Escanaba alone should be the taxing unit for the community college."

A meeting was held in April, 1958, at which Dr. Russell Wilson was present as well as representatives from township school districts in Delta County, Powers-Spalding and Stephenson, and also representatives from the city administration and civic organizations. It was agreed that a community college was needed and desired in Escanaba, but the representatives of the other school districts did not express any desire or interest in joining with Escanaba as part of the taxing unit to support the college.

## Action Ordered

During the summer of 1958 the school census enumerators in Escanaba asked the question, "Do you favor a community college?" while taking the census, but without discussing

the subject: 1805 approved and only 296 persons opposed the proposal in the enumeration.

The Advisory Council had been meeting quite regularly and on Feb. 2, 1961, requested the Area Board of Education to petition the Delta County Board of Education to initiate within that body "action which will lead to the establishment of a community college within the Delta County area."

The Delta County Board met on Feb. 23 and took "the first formal step in the creation of the community's first general

college." On March 4, the Delta County Board created a study organization to determine the facts required by the State Department of Public Instruction prior to granting a charter.

Arthur Slaughter was named chairman of the steering committee. Dr. Ray J. Young, University of Michigan, and Dr. Max Smith, Michigan State University, prepared the plan of operation and procedures for the county study, and Dr. Ed Pfau of Northern Michigan University and Ted Pearce of

Michigan Technological University were additional consultants.

The Escanaba Daily Press was very helpful to the process of public education on the community college proposal and strongly advocated it editorially.

## Report Approved

Six committees for the study were formed: Enrollment projections; Program needs; Finance; Building location; Legal; Public information.

All worked diligently, but it was not until July 27, 1962, that the final report was presented, a report that was thoughtful and thorough. This received the approval of the County Board and subsequently that of the Department of Public Instruction.

The citizens of Delta County emphatically expressed approval of the establishment of the college on Nov. 6, 1962, by a vote of 6,862 to 3,231. However, financing the college won by a fairly close margin, 5,149 to 4,515.

## Fourteen for Board

Fourteen candidates sought to be on the Board of Trustees and the following were elected: Charles Follo, Escanaba; Dr. Albert Jenke, Bark River; Joseph L. Heirman, Escanaba; Clayton Ford, Cornell; Robert F. Groos, Flat Rock; and James Dotsch, Garden.

At its first meeting the Board chose Joseph Heirman as its first president; Charles Follo, vice president; Hagle Quarnstrom, county superintendent of schools, secretary, and Arthur Slaughter, treasurer. State law does not require that the secretary and treasurer be members of the Board.

Bay de Noc Community College was selected as the name of the 18th community college in Michigan and Dr. Richard L. Reinhardt became its first president.

# WELCOME STUDENTS!!!

most to raise the basic income of  
those tradesmen who are not employed.  
Gradually a secondary shop  
comes into being and those who  
are engaged in the business of  
manufacturing and marketing  
goods at the 20 per cent rate  
of commission will be compelled  
to take up residence in  
the tradesmen's market, where  
they will be compelled to sell  
their goods at a lower price,  
and so will be compelled to  
work harder and longer  
than those who are not  
engaged in the business of  
manufacturing and marketing  
goods at the 20 per cent rate  
of commission.

**WOMEN'S  
SCHOOL**

The average public school teacher is to 20 years old with 20 years of experience.

A high-contrast, black-and-white image of a historical document. At the top, there is a large, bold title that reads "The Story of the Chinese". Below the title, there are several columns of dense, handwritten-style text. The text discusses the Chinese people's contributions to the world, mentioning figures like Confucius, Mencius, and Lao-tzu, as well as their impact on science, technology, and philosophy. The document is framed by a thick black border.

**THE AWARE LEPERS IS DIFFICULT TO DEFINE**

many chooses a variety of sub-  
jects to fit his or her individual  
abilities and interests. After the  
first year, many students choose  
to specialize in one area of study.  
For example, a student may choose  
to major in English literature, while  
another may choose to major in  
mathematics or science. This allows  
students to focus their studies on  
the subjects they are most interested  
in. It also provides them with  
a more structured curriculum,  
which can help them succeed  
in their chosen field. In addition,  
many students choose to minor in  
other subjects, such as history or  
politics, which can provide them  
with a well-rounded education.  
Overall, the academic year  
is a time of growth and learning  
for many students. They have  
the opportunity to explore their  
interests and passions, and to  
develop new skills and knowledge.  
The academic year is a time of  
challenge and opportunity, and  
it is a time when many students  
achieve their goals and dreams.  
Whether you are a first-year  
student or a senior, the academic  
year is a time of growth and  
learning, and it is a time when  
many students achieve their  
goals and dreams.

The Student Services Office has been divided into two main departments: Academic Affairs and Student Affairs. Academic Affairs includes the Registrar's Office, the Financial Aid Office, the Admissions Office, and the Student Support Services. The Student Support Services department oversees the Student Health Center, the Counseling Center, and the Student Activities Office. The Student Activities Office coordinates student clubs and organizations, as well as student government activities. The Student Health Center provides medical services to students, including treatment for illnesses and injuries, as well as preventive health services. The Counseling Center offers individual and group counseling services to help students deal with personal and academic issues. The Student Activities Office coordinates student clubs and organizations, as well as student government activities. The Student Health Center provides medical services to students, including treatment for illnesses and injuries, as well as preventive health services. The Counseling Center offers individual and group counseling services to help students deal with personal and academic issues.

**Summer Enrollment Sets Record:**

# Bay College Transfer Students Maintain Grade Point Averages

By JOHN SHELANDER  
Dean, Student Services

The student's first contact with Bay de Noc Community College is with the admission process.

Whether he's a freshman, a student transferring to Bay College from another school, or a former Bay student seeking re-admission, he comes first to the admissions office.

## Office Practice Changes, So Does Education

By AL PIQUETTE  
Division of Business

Business procedures are constantly changing. To keep pace with these changes and technological advances, Bay de Noc Community College has included an Administrative Aide program.

The business skills included in the college offerings are in accounting, clerical, secretarial, and phases of distributive business education.

Beginning courses include typing, shorthand, stenotyping, retailing, marketing, transcription, office machines, junior accounting and many other business skills. Advanced courses include executive secretary, medical secretary, legal secretary and office management.

The student goals vary by individuals and these goals are kept in mind when planning and selecting the courses.

Many students will not leave Delta County, some will go on to four-year educational institutions and still others will seek employment in large cities.

Programs must be designed to meet the needs of industry, the student, the transfer institutions, and the business world.

The goals of each course serve the ultimate goal of the student: To Be Employed, whether as an accountant, teacher, secretary, clerk, salesman, or office manager.

Bay de Noc's business program offers the first two years of college for the business transfer student, or the student may choose a variety of subjects to fit his or her individual need, whether it be a class in typing, or shorthand needed to pass a civil service exam, an employment test, or just a long-felt desire to learn.

As approximately 38 per cent of all women of working age are employed, and most of these in business-related occupations, it is the duty of the college to provide education for those desiring these skills. The majority of the working women are married and comprise about 50 per cent of the married woman population.

The married woman may need a brush-up course, or have a need to learn to operate the new equipment used in offices. The skills necessary for employment are ever changing, and therefore, we have a greater need for education.

As a community college, Bay de Noc has the responsibility to serve each student's needs in business as well as general education.

The procedures, requirements and policies for students regarding admission are outlined in the current edition of the College Catalog and the Student Orientation Handbook.

Last year, 1969-70, more than 40 transfer students from other colleges and universities were admitted to Bay College.

### Letter Required

Besides the regular admission procedures, a transfer student is required to submit a letter to the Admissions Committee, a dean's recommendation from the college or university attended most recently, and, in addition to a high school transcript of credits, a college transcript of all work attempted.

In this summer session, June 16-July 30, 1970, Bay de Noc Community College had the greatest number of guest students for a summer session in the history of the college—185 students, including nurse students (who are taking a 48-week course).

Records and all personal files for all currently enrolled students and all inactive students are on file in the Student Personnel Office. A student's transcript of grades is not sent to another college or university or to an employer without the student's authorization by formal signature on a request form. We treat each student's record as confidential information.

The Student Services Office also registers all full-time and part-time students and sets up procedures and assignments for registration for each semester.

### Follow-Up Made

Each academic year a follow-up of our students is conducted at each of the major universities where most of our Bay College students transfer. During the 1969-70 year we contacted our former students at Michigan Technological University, Northern Michigan University, Central Michigan University, Western Michigan University, Michigan State University, Eastern Michigan University, University of Michigan and Ferris State College.

Purpose of these visits is to consult with students regarding transfer of credits from Bay de Noc and also to determine if students are having any problems of an academic, social or personal nature. Our findings have been that there is no significant change of grade-point average after the transfer to senior colleges or universities.

Another service for students is part-time placement while enrolled as a full-time student. Mrs. Virginia Rusch, financial aids assistant, receives a great number of requests from business and industrial firms who desire to hire students on a part-time basis.

We do not discourage students from working part-time, since studies have indicated that students who work part-time average above the mean in grade-point, compared to students who are not working.

### Contact Businesses

During the academic year 1969-70 we initiated contact with local business and industry and the Chamber of Commerce to place students who have completed a program of study at Bay de Noc Community College, either one or two years.

Housing is another service to students. Each year the number of students from outside commuting distance increases, requiring that we obtain housing for these students. We have placed ads in the newspapers and contacted civic groups, including the churches, for assistance in providing student housing. At this time I am very concerned that we will

not have the housing which is needed for our fall term opening in late August.

The present housing policy states that students will complete the housing registration form. All minor students, not living at home and not married, are required to file a form on parental approval of housing with the Student Personnel Services Office.

## Arts And Letters Is Difficult To Define

By ALLAN C. HOWARD

Bay Faculty: English

The question "What Is It?" when asked of the college Division of Arts and Letters, can be mind-boggling.

No area of academic instruction has eluded definition so successfully.

To some, "Arts and Letters" suggests the vague term "humanities," the study of an ephemeral something that is neither physics nor basketball, a discipline rendered extinct when the USSR hurtled education into the Space Age with Sputnik. I. Others ruefully associate the term with the hickory stick beatings they received as hapless children at the hands of the schoolmarm grammar teacher.

Humanities at Bay de Noc Community College, however, have not been relegated to the sole domain of the grammar pedant or garret artist, but are characterized as the "joiner" of knowledge.

Simply put, education is a coin, the currency of truth; science is one facet, humanities are the other; the former analyzes nature, seeking knowledge; the latter synthesizes knowledge, seeking wisdom.

### Wisdom Is Knowledge

Wisdom, though, removed from its unfortunate ivory tower context, means more than empty theorizing or useless doubletalk. To the Arts and Letters faculty it represents the growth of knowledge, in the mind of the student, coming to fruition in both usefulness and happiness.

Usefulness, in today's speech, implies wisdom that is relevant, an adjective that is doubly applicable to Bay's Arts and Letters courses. The most obvious practical benefits are gained in the acquisition of educational and professional skills — the verbal skills of effective speech and written composition, in English and in foreign tongues; the experiences of artistic design; the fundamentals of fields as various as music, theater, and speech correction.

The division, furthermore, attempts in its required courses to strengthen the students' aptitudes for participation in government—to challenge, through discussions and instruction in logic, their abilities to distinguish fact from falsehood, originality from banality, the beautiful from the second-rate, in an attempt to demonstrate the efficacy of reason in the solution of man's problems.

### No Purchase Price

Not even education can buy happiness, of course, but aspiring students can and do experience the pleasure of comprehending the cultural wisdom of their literary and artistic forbears of Western civilization. "Culture," an oft-abused term, luckily connotes more than the

## Most Schools Hike Tuition

By THE ASSOCIATED PRESS

All Michigan's public colleges and universities, except Wayne State, will cost more to attend this year.

Counting total expenses for the average full-time undergraduate who lives in a double room in a campus dormitory, Michigan State University and the University of Michigan, are the most expensive schools in the state system.

At U-M, the average Michigan-resident undergraduate will pay \$1,703 this year, not counting books or other living expenses.

The figure at MSU is \$1,710, artificially high, according to one university official, because the school helps about 10,000 needy students pay tuition.

Wayne State University's board of governors has decided not to raise its basic tuition of \$582 a month and, since it is basically a commuter school, the rates for its single, small dormitory were not affected.

Costs at the 10 other state universities and colleges for resident undergraduates living in dormitories are:

—Lake Superior State College, \$411 tuition, \$1,025 dormitory.

—Oakland University, \$620 tuition, \$1,050 dormitory.

—Central Michigan University \$440 tuition, \$1,064 dormitory.

—Western Michigan University \$435 tuition, \$1,010 dormitory.

—Eastern Michigan University, \$408 tuition, \$1,060 dormitory.

—Northern Michigan University, \$440 tuition, \$1,084 dormitory.

# Community College May Be Michigan's Largest School

For the end of the school year, the community college could be the largest school in Michigan, surpassing even the giant Michigan State University, which has 44,000 students.

The community college which may do this job is Wayne County Community College in Detroit. When it opened its doors for the first time last fall it reported "just a trickle" of students for its first semester, but it enrolled 8,000. This fall it expects between 12,000 and 14,000 students.

Wayne needed a community college, but rejected one in an election and the Legislature stepped into the breach and appropriated \$1 million to get the college started. New Detroit, Inc., also contributed \$300,000 for the college's first year.

What is happening in Wayne is being duplicated throughout Michigan in some degree. Community colleges are the fastest growing schools in the state and the future of Michigan's higher education is going to be strongly shaped by them, say educators.

## Two In U. P.

There are 20 public community colleges in Michigan and two of them are in the Upper Peninsula, Bay de Noc Community College in Escanaba, with Delta County as its tax base, and Gogebic Community College in Ironwood, with Gogebic County as its tax base. The community colleges are supported by a county tax, by student tuition fees and by state aid.

Community colleges are the step between high school and four-year colleges and universities in the state's educational establishment, but they are much more than that and their

functioning role is the same as a university which has become very high in recent years.

**Future Outlook**

The cause of this great popularity is two-fold:

1. They are lower in cost than other schools.

2. They are easy to get into; they have an "open door" policy of admission and if you can do the work and benefit from the instruction, you're in.

A third factor working very strongly for the success of the community colleges is the growing recognition that a bachelor's degree from a four-year college or university is not necessarily the only key to good living in America today.

The community colleges of Michigan have accepted a vital role in the training of technicians for today technological world and changes in American employment are bringing this role into enlarging prominence. While post-high school education in recent years has emphasized general schooling, the job market has been changing.

## Technicians Needed

The state is now producing more teachers than it can use and graduates find themselves in a job squeeze, but at the same time technical jobs—most of which require only a two-year program in a community college—are going begging for lack of trained people.

About two-thirds of the community college students in Michigan still are enrolled in liberal arts transfer programs with the idea of continuing after two years to a four-year university to get a bachelor's degree. But Dr. John Storer, state superintendent of public instruction, points out that only one-fourth of the 20,000 occupations listed by the federal government require a bache-

lor's degree and he thinks that the community colleges of Michigan should concentrate more on technical programs.

They should, he suggests, be at least 50-50—half general studies and half technical. The present ratio at Bay de Noc Community College reflects the state average, with more than half of its students planning to transfer to four year colleges.

## Vo-Ed Balance

Parents have a natural edge about keeping the door to educational opportunity open to their children and so many of them favor a broad approach to higher education, with technological studies included in a program, but not limited to technology or job skills, educators say.

One of the impediments to attaining a 50-50 balance in the community colleges is the high cost of vocational-technical programs. It is cheaper to educate a student in liberal arts than in a technical program designed to fit him for a job in industry.

Michigan got into the community college program in a big way rather late and while states like California have well-developed statewide community college programs, Michigan still has a way to go

to attain its goal of "everyone in Michigan in a community college district."

## Big Colleges

Michigan has in the past 10 years, however, built impressively to create a community college system and these junior colleges are now big and able and are increasingly respected.

Macomb County Community College expected 18,000 students this fall and will open a third campus in 1973; Oakland County Community College has three campuses and 13,000 students.

Only five state universities—Michigan State, Eastern, Western and Wayne and the University of Michigan—have more students than either of these two community colleges. Henry Ford Community College in Dearborn has 12,000 students.

In the fall of 1969 first time enrolled students in Michigan colleges were in these ratios: Community colleges 52.2 per cent; state colleges 38.1 per cent; private colleges 12.7 per cent.

The choice by high school graduates of community colleges to start their higher education may result most immediately from factors like economy and proximity, but there is another reason that is

getting increasing recognition. It is the excellence of instruction at the community colleges.

Some of the state's educators from the big universities have commented upon the increasing quality of the community college faculties, but community college leaders regard this as a left-handed compliment.

## Good Facilities

They say that the real truth is that the community colleges have for some time offered instruction in the first two years of college work which is superior to that offered by most universities. In the universities, much of the first year teaching is done by graduate students and this doesn't happen at the community colleges, whose faculties do the teaching, free from the competitive interest of the graduate student to advance his own studies.

As the huge size of the state's biggest universities limits their efficiency in further growth, as the increasing cost of higher education becomes more difficult to meet with so many students involved, and as Michigan copes with social, economic and especially technological changes, the community college falls quite naturally into an enlarging role of usefulness.

It bridges the educational area after high school, serving all the people with need for technical skills and also those going on to four year schools for general education that embraces both the sciences and the arts, engineering, medicine, law, business, etc.

## Social Sciences Offer Variety

The Division of the Social Sciences of Bay de Noc Community College has a variety of courses developed to fulfill the needs of the different occupations and interests of the students.

History — the History of Western Civilization is offered from prehistoric times into the 20th century.

United States history from Colonial times to the present is offered every semester. This covers the social, cultural and economic history of the United States.

Economics — three courses in economics are offered. These cover the basic ideas of economy and modern economic institutions.

Governments and Political Science — nearly all students take American Government as a required course. This course is an introduction to the structure and philosophy of the federal political system. Many students also take Introduction to Political Science and State and Local Government, the latter dealing with the various types of local political systems with emphasis on the executive, legislative, judicial and administrative branches.

Geography — is a mandatory course in the required curriculum. It deals with the various types of local political systems with emphasis on the executive, legislative, judicial and administrative branches.

types of natural regions in the United States and Canada, including weather and climate, natural vegetation, landforms, soils and oceans. Four courses are offered in Geography and Conservation.

Psychology — this is a study of individual, motivation, emotion, sensation, perception and terminology of psychology.

Sociology — the study of man's behavior in the social and cultural setting. Courses are offered in Introductory Sociology, social problems and marriage and the family.

"When an interest is shown in an area that can be developed by the social sciences, the college will attempt to meet the specific needs of the individuals and community," says Lois F. Flanagan, chairman of the Division of Social Sciences.

Most canoes need no bows and little paddles. Though adult males measure up to 5 feet at the shoulder and weigh an average of 150 pounds, they eat a sixth of what people do. The animals congregate for themselves, and den down in the leaves and under brush of willows. In winter they use their broad front hooves to break through deep snow to sparse grasses. They hardly stop "drift" snow.

# Community College May Be Michigan's Largest School

By the end of this decade—in 1980—a community college could be the largest school in Michigan, surpassing even the giant Michigan State University, which has 44,000 students.

The community college which may do this trick is Wayne County Community College in Detroit. When it opened its doors for the first time last fall it expected "just a trickle" of students for its first semester, but it enrolled 8,500. This fall it expects between 12,000 and 14,000 students.

Wayne needed a community college, but rejected one in an election and the Legislature stepped into the breach and appropriated \$1 million to get the college started. New Detroit, Inc., also contributed \$300,000 for the college's first year.

What is happening in Wayne is being duplicated throughout Michigan in some degree. Community colleges are the fastest growing schools in the state and the future of Michigan's higher education is going to be strongly shaped by them, say educators.

## Two In U.P.

There are 29 public community colleges in Michigan and two of them are in the Upper Peninsula, Bay de Noc Community College in Escanaba, with Delta County as its tax base, and Gogebic Community College in Ironwood, with Gogebic County as its tax base. The community colleges are supported by a county tax, by student tuition fees and by state aid.

Community colleges are the step between high school and four-year colleges and universities in the state's educational establishment, but they are much more than that and their

emerging role is the cause of a popularity which has become very high in recent years.

## Popular Colleges

The cause of this great popularity is two-fold:

1. They are lower in cost than other schools.

2. They are easy to get into; they have an "open door" policy of admission and if you can do the work and benefit from the instruction, you're in.

A third factor working very strongly for the success of the community colleges is the growing recognition that a bachelor's degree from a four year college or university is not necessarily the only key to good living in America today.

The community colleges of Michigan have accepted a vital role in the training of technicians for today technological world and changes in American employment are bringing this role into enlarging prominence. While post-high school education in recent years has emphasized general schooling, the job market has been changing.

## Technicians Needed

The state is now producing more teachers than it can use and graduates find themselves in a job squeeze, but at the same time technical jobs—most of which require only a two-year program in a community college—are going begging for lack of trained people.

About two-thirds of the community college students in Michigan still are enrolled in liberal arts transfer programs with the idea of switching after two years to a state university to get a bachelor's degree. But Dr. John Porter, state superintendent of public instruction, points out that only one-fourth of the 25,000 occupations listed by the federal government require a bach-

elor's degree and he thinks that the community colleges of Michigan should concentrate more on technical programs.

They should, he suggests, be at least 50-50—half general studies and half technical. The present ratio at Bay de Noc Community College reflects the state averages, with more than half of its students planning to transfer to four year colleges.

## Vo-Ed Balance

Parents have a natural edginess about keeping the door to educational opportunity open to their children and so many of them favor a broad approach to higher education, with technological studies included in a program, but not limited to technology or job skills, educators say.

One of the impediments to attaining a 50-50 balance in the community colleges is the high cost of vocational-technical programs. It is cheaper to educate a student in liberal arts than in a technical program designed to fit him for a job in industry.

Michigan got into the community college program in a big way rather late and while states like California have well-developed statewide community college programs, Michigan still has a way to go

to attain its goal of "everyone in Michigan in a community college district."

## Big Colleges

# Graduates Praise Bay Institution

By R. L. RINEHART  
President, Bay College

A progress report on buildings and finances may be appropriate, but the real progress at Bay de Noc Community College is reported by its students.

We continue to receive letters and visits from alumni who are now working successfully in a wide variety of oc-

cupations and performing as citizens. Letters from alumni in far-spread parts of the world are treasures to the faculty who have worked with these people. We also receive the appreciations of those who remain in the Upper Peninsula.

This progress report is a series of quotations from letters and comments received from our alumni.

"By taking courses in Business Law, Accounting and Business English, I received an excellent grade on a civil service test for a position as Account Executive I. This position offered me more pay—more security and more benefits than my previous job. I would like to see Bay de Noc Community College offer a variety of evening courses."

#### Training Valuable

"My college training was invaluable to me after I left Bay de Noc. I am sure I would not have even been considered for the positions which I held with the federal and state governments if the college had not been among my qualifications. The training has also been important to me since my husband and I took over the Standard Oil agency here. There is an incredible amount of bookwork and banking involved with this job and I am cer-

tain that I wouldn't have been prepared so well if it hadn't been for Bay de Noc."

"Bay de Noc offered me an excellent opportunity to make the step from high school graduate to college graduate. My high school graduating class of 1964 consisted of 10 students. My college class consisted of over 100 in electrical engineering and over 4,000 in the university. Bay de Noc gave me the opportunity to adjust to college type study habits while still maintaining small classes. Continued application of this philosophy would be of great help to graduates of the many small high schools in the Upper Peninsula."

"I left Bay de Noc after three semesters because I had an opportunity for a job which does not come up often in life. I felt I had enough secretarial background to handle it, so I accepted the position. However, I am considering picking up credits for my degree in the future at Bay."

"Thanks to Bay de Noc I now hold a responsible posi-

tion in the Engineering Department of a large and highly diversified corporation. I feel I do well what I do for the national welfare."

"It would be wise and worthwhile for all the citizens of Delta County to unite in an effort to make Bay de Noc Community College one to be proud of—one recognized for its output of high caliber graduates qualified to meet the requirements called for in top-paying jobs today."

#### Discover Potential

"I had not taken a college preparatory course when I had attended high school 20 years previously and my grades were little better than average. I registered when it was announced that we were to have a community college in Delta County. The individual guidance I received, the personal encouragement from admirable instructors when my spirits were low, and the rapport I experienced with the students, faculty and administration provided strength to continue my education. After gradu-

ation I transferred to Northern Michigan University, an independent institution offering a wide range of college work. I had no particular potential that, but for Bay, would have remained dormant.

"Chiefly, because they taught me how to study at Bay Community College, I graduated from NMU with excellent grades. I have been accepted for graduate work at the University of Michigan and was awarded a scholarship for study there. At the present time, I have a fascinating good-paying position with numerous other opportunities open to me."

The United States Capitol's professional guide system stems indirectly from the Philadelphia Centennial Exposition of 1876. Near chaos occurred when hordes of sightseers moved on to Washington from the Exposition, prompting Congress to appoint guides to organize the crowds while describing the Capitol's wonders.

## Most Students Work Toward 4-Year Studies

By Dr. WILLIAM BUTT  
Academic Dean

The transfer program of Bay de Noc Community College is growing steadily year by year.

Approximately 65 per cent of the students enrolled at the college are taking courses leading to a four-year degree. Up to this time students have transferred from the college to more than 80 senior institutions across the country.

Each year additional courses are offered which enable the student to complete a full two years of a university program. As an example, two years of French and two years of Spanish are being taught for the first time by a full-time faculty member. In addition, the programs in art and in music have been expanded.

It is possible for the student entering Bay to complete two years' work in the following fields: art, English, history, sociology, psychology, economics, chemistry, biology, physics, mathematics, political science, business administration, geography, as well as French and Spanish. As these offerings have grown, so has the size of the faculty which will this year number 38.

#### Graduates Excel

The reason for the steady growth of the transfer program can be found in the achievement level of students who have completed their first two years at the college prior to attending a university. Follow-up studies of former Bay students indicate that they do exceptionally well at four-year institutions.

Much of the success of the program can also be traced to the high caliber of the faculty, who have prepared themselves especially for teaching in the community college. All faculty members who teach in the transfer program have attained a minimum of the master's degree, a double master's degree, a specialist's degree or the doctorate in their special field.

#### Growth Indicated

The number of scholarships awarded to Bay de Noc Community College graduates by the senior institutions is further evidence of the excellence of the transfer program at the college. Rising tuition costs at senior institutions, as well as the living expenses, have encouraged students from the surrounding area to attend Bay for their first two years to take advantage of the university level courses being offered.

The next few years indicate a continued steady growth in the entire transfer program as more and more students take advantage of the opportunities at Bay de Noc Community College.

## Students Talk To Counselors

By JAMES P. TOLPA  
Student Counselor

The first personal contact that a prospective Bay de Noc Community College student has with college is the initial interview.

Every entering student is scheduled to have a personal interview with a counselor before he enters in the fall and the counselor and student try to determine for which curriculum the student is best suited. Some students already know what curriculum they wish to follow, but many do not.

Along with the direct interview, the counselor has the student's high school records and test data, including the American College Test results which help determine which courses a student should enroll in after determining his curriculum major.

Upon completion of the initial interview with the counselor, the student is assigned to an academic advisor who helps guide the student in his major study area.

The counseling office is open to any student, at any time, for any personal or academic problem. For the most effective service it is best that the student make a scheduled appointment with a counselor, but drop-ins are handled on a first-come, first-served basis.

Every student could be successful if he chose the right curriculum and took the courses appropriate to his abilities. Some students are very well prepared and are placed in higher level courses. Other lack the background to begin college level courses successfully and are placed in pre-college level courses.

We feel that through guidance and counseling and the varied choices of curriculums, every student can succeed at Bay de Noc Community College.
